THE QUEEN'S COUNTY GUARDIAN

Head Offices in New Prowse Block- -Charlottetown.

John and Mrs. Welsh of Tracadie accompanied by their family have moved to Charlottetown.

Miss Mabel Thompson of Charlottetown has graduated from Hale Hospital making 95 in medical work. After spending four months in the eye and ear hospital of Boston she will return home.

The Sydney Post contaias a cut of Premier Haszard of this city in connection with their write up on The "History and work of the Canadian Manufacturer's Association" of which the Premier is provincial Vice-President.

President Lithgow, M. P. A. A. A. Halifax is corresponding with Olympic authorities at Ottawa to have the Maritime Provinces represented in football, as it is English Rugby which is played in the provinces—the same as will be played in London. Ckarlottetown is also communicating with President Lithgow in regard to Island representation. As soon as word is received from Ottawa a definite action will be taken.

A well known farmer of Lincoln, Hilare Peters died very suddenly last Friday. Mr. Peters went to the woods with a horse and sleigh shortly after dinner and on his not returning by tea time his family became anxious and went out to look for him. They were shocked to find him lying by the roadside when he had suddenly died while the horse and sleigh were found in the wood nearby Last year, Mr. Peters who was 60 years of age suffered from paralysis and had not entirely recovered. He leaves a suddenly bereaved widow one son and two daughters to mourn.

James Jeffrey Roche, formerly editor of the Boston Pilot, died at Berne Switzerland, on Friday last. He had been American consul there for the past two years. Mr. Roche was a man of considerable literary ability and a poet of no mean merit. He was a son of the late James Roche, for many years a prominent educationist of Charlottetown. James Jeffrey Roche came to Canada with his father, from Ireland, when a very small boy and was educated at the Grammar School, Prince of Wales College and St. Dunstan's, Charlottetown. He went to Boston when a quite a young man and achieved distinction as an able debater and scholar. Mr. Roche was a man of about 55 years of age.

The promise at this date is that this spring will be a record breaker with reagrd to early shipments of coal, up the St. Lawrence, says the Sydney Record. The Black Diamond liner Bonavista, which was expected to leave Halifax last week is the steamer selected for the initial voyage up the river, and she will be in command of Capt. Fraser, the Nestor of the Black Diamond fleet. For her return trip the Bonavista will load at Montreal a cargo of general merchandise to be landed at Ingraham and Kimbers dock. She will probably call at Charlottetown also. The earliest previous arrival at Ingraham's wharf Sydney was the S. S. Greetlands which discharged five or six years ago on the 20th April.

The following clipping from the Boston Evening Record will be of interest throughout this Province as the young lad referred to has many relations in this City. "Acting Gov. Draper has sent in his first veto, which, in fact, is the first veto ofthe year, of the bill to compensate the guardian of E. W. Meikle,for expenses incurred in defending him on the charge of murder. Acting-Gov. Draper says in part :—"This act authorizes Essex Co. to pay back $1,350 to Joseph S. Trimble, Meikle's guardian The revised laws provide that the court may allow reasonable compensation (upon an indictment for murder) for the services of counsel assigned to defend the prisoner if he is otherwise unable to procure counsel, and such compensation shall be paid by the country in which the indictment is found. Meikle's case manifestly does not come within this provision of the law, as he was able and did procure counsel and he was able through his guardian to pay them a sufficient sum for their services. This act is special legislation outside the general law, and seems to me dangerous as a precedent. I do not think it would be wise for the commonwealth to establish the practice of paying the expenses of a trial of a prisoner for murder who may be declared innocent by a jury, when the accused is able to pay his own bills. The court may appoint counsel if the prisoner cannot procure his own. but that does not apply in this case. If such a general law would be unwise a special act seems to me more so. I can well understand how this special case may appeal to one's sympathy, but it does not seem to me to be good legislation in that by special act for a special case it changes existing law and it is contrary to the well established policy of the commonwealth. Further, it seems to me that this act is unconstitutional because it provides for the raising of money by taxation for the exclusive benefit of a particular individual and is not for a public purpose."

As this will be the last time that Mr. McKenzie will appear before an audience in this Province until his furlough five years hence, there will no doubt be many present tonight to wish him good bye and express the hope that all being well he and Mrs. McKenzie will return in good health to their native Province in that time. On account of Mr. McKenzie having to leave for Halifax Wednesday morning the regular Wednesday prayer meeting was changed to tonight.

It is stated that the section of the Grand Trunk Pacific railway between Tobique river and Grand Falls is to be built under contract which has been recently awarded to Willard Kitchen, of Fredericton, and well known all over this Province. It is the heaviest work on the road east of the Rocky Mountains. There are thirty-one miles to be built under Mr. Kitchen's contract and the job will cost between $1,500,000 and $2,000,000. On the contract are two of the longest bridges in this section one across the Salmon river and the other across the Tobique. The engineering difficulties on the job are many, one being a tunnel through solid rock more than 1,000 feet long, and another is the disposal of a lake. It is not expected that the work will be well under way before May 1st. A large portion of the work will be let out on sub-contracts.

The new turbine steamer Camden is to be assigned to the International division of the Eastern Steamship Company and with the Governor Cobb will maintain the regular service between Boston, Portland, Eastport and St. John, while the Calvin Austin will be used as the direct boat. The new steamer Belfast will be completed this season, but it is doubtful if she be placed in commission until next year

At Fairyland last night the new pictures were so exceedingly good as to deserve a special word of praise. They comprised subjects which gave beholders genuine pleasure and gratification—the views of fashionable Paris being of such superior merit as to be placed in the same rank as the best ever shown at Fairyland. This week the house will not fail in the vaudeville line, for two more agreeable and entertaining performers than May Cameron and Johnny Howard have rarely visited Charlottetown. They are clever dancers, and their songs and repartee free from screeching or squawking and their appearance on the stage is attractive and free from objection. They are deserving of being recommended as capable and amusing entertainers who are able to delight large audiences. The music and the illustrated songs, were, as usual, top quality.

The regular monthly meeting of the City School Board was held last night. The teachers' reports showed the enrolment to be 1086; average attendance 956; percentage 91.5; cases of tardiness 179; truants 3; visits to parents 140; notices 55; corporal punishment 11; below average in grading 45. Plans and specifications for fire escapes etc., for the City schools were considered and referred to the contractor for alterations. Lt. Governor McKinnon consulted the School Board with regard to contributions to the Ter-centenary Fund in connection with the Quebec Battle Fields plan. The Board approved of a voluntary collection being taken up under the direction of the principals. The resignation of Miss Maud Doiron was accepted and the appointment of Miss Emma McDonald in her place was approved of. Petitions were received from pupils and parents asking that the morning lessons be resumed for those pupils who had been in the habit of receiving extra coaching in thatway. The principals of the three schools were psesent and explained their position in this respect. The Board rescinded the resolution which sometime ago forbade the practice, and gave the required permission to resume.

Another pheononemal success was marked last night at Wonderland, when the crowded house which responded to the announcement of another merchandise night gathered for the distribution of prizes. The pictures were splendid; the Excursion to the Moon being intensely enjoyed, with its many unique situations, unusaal depictions and travel into unknown lands. This is one of the finest films ever shown at Wonderland, and but one of many it has in store for its patrons. There was no lack of fun in the distribution of prizes. The element of keen enjoyment prevailed, and as the different prize winners were called upon, applause loud and long rang through the hall. The beautiful plush covered sofa fell to the lot of Miss May Coyle who is certainly to be congratulated upon holding the winning ticket. The fancy rocking chair ticket was held by Miss Crosby, who was more than delighted at drawing such a valuable prize. The pretty parlor lamp fell to Little Miss Evelyn McAleer and the winners of the remaining prizes were one and all perfectly satisfied with their portion of the good luck. Mention has almost been omitted of the lucky winner of the gold piece. It was Miss McInnis who found that an evening of genuine enjoyment, along with a gold piece in possession at going home time, was certainly worth the having, and the appreciation shown Wonderland's management for the generosity of the prizes and the mighty good prigram, was generally spoken of last evening. It is always a good luck time at Wonderland on prize nights.
