

### She Coughed Night and Day Could Not Sleep

Mrs. Leonard Hayward, Victoria Corner, N.B., writes:—Last fall I took an awful cold which I caught while driving in an open car on a cold day.

"I coughed night and day, could not sleep at night, and my eyes ran water so that I could hardly see a thing."

"My husband got me a bottle of

**Dr. Wood's Norway Pine Syrup**

and before I had taken the whole of it my cold had disappeared."

"Dr. Wood's" has been on the market for the past 39 years; price 50c a bottle, large family size 60c; sent only by The T. Millburn Co., Limited, Toronto, Ont.

### NOTICE

**CANADIAN NORTHERN RAILWAY COMPANY, FIVE PERCENT INCOME CHARGE CONVERTIBLE DEBENTURE STOCK**

On March 30th assent was given to the Act ratifying the Scheme of Arrangement and compromise approved at a meeting of the stockholders on November 14th, 1927, with the result that the Scheme has become effective and that payment of the stock at 94 per cent. will be made on May 6th next provided the stockholders send in their certificates and comply with the requirements of the Railway Company as contemplated in the said Scheme and Act. These requirements will be issued during the week.

R. P. ORMSBY, Secretary

Montreal, April 2nd, 1928.

### Wood Farm For Sale

35 acres covered with hard and soft wood, considerable quantity of lumber near Grand View Station. For particulars write

**JAMES LOWE,**  
73 Marlboro St.,  
Belmont, Mass.

3579-4-4-7L.

### Annual Meeting

The annual meeting of the Charlottetown Hotel Co. Ltd., operating Hotels Victoria and Queen will be held in the Willingdon dining room at 8 o'clock Thursday evening, April 12th. The meeting will be presided by a supper served in the Willingdon room at 8.15 p. m. At the above meeting the reports for 1927 will be submitted to the shareholders, and directors for 1928 will be elected. W. K. Rogers, President, Lieut. Col. D. A. MacKinnon, Secretary.

### FOR SALE

Two very desirable residences, located at No. 90 and 94 Brighton Road, and owned by the estate of the late D. O. M. Reddin. Apply to

**PHILIP NOONAN**  
4-7-7L.

### FARM FOR SALE

Situated at Brackley Beach consisting of 120 acres of land in good state of cultivation, especially adapted for growing Seed Potatoes. Buildings all in good repair, large 12 room dwelling equipped with modern water system. Suitable for accommodating summer tourists. This property will be sold cheap, as the owner is away.

C. A. SEAMAN,  
Brackley Beach.

### NOTICE

I have decided to postpone the sale of my residence at Hunter River until further notice.

**WILLIAM DEVINE,**  
Hunter River, P. E. I.  
4-9-2L.

### HORSES ARRIVE

I arrived on the Island Saturday night, March 31, with my shipment of horses. These horses arrived in good condition. I have in the lot several matched teams also some nice express horses. Also saddle horses all well broken, young and sound. These horses will be for private sale at the Agricultural Building, 172 Fitzroy St., Charlottetown, and at the Eastern Hotel Stables, 114 Kent St. Intending purchasers will do well to see this lot of horses. I invite inspection.

**PARKER A. HORNE,**  
Owner,  
Phone 175-J. 3530-4-2-6L

### Shore Farm FOR SALE

½ mile from the town of Souris, containing 90 acres, 20 acres plowed for seed potatoes and with first class buildings, ideal farm for seed potatoes. Reason for selling, I am retiring. For further particulars write or call

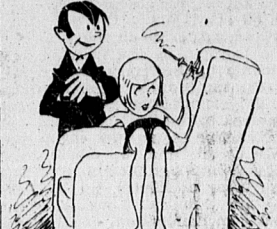

**P. A. ROONEY,**  
Souris.

### SMILES

"Even a good looker doesn't always see what she looks at."

He: Jane is irresistible. She: I never put up much resistance either.

COMES AFTER MAN Professor: In the natural order what animal comes after man? Sour Senior: Woman.

THE MODERN HOME "Well, has he given his bride a good, modern home?" "Oh, to be sure—invested every thing he had in a beautiful big car."

PERFECTLY WORTHLESS "He's perfectly worthless, but always talking as if he's going to set the world on fire."

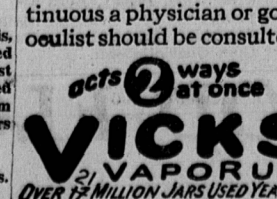

"Well, if he never does somebody will have to give him the matches."

If every man, woman and child in Canada would realize the danger of fire, practise carefulness at all times, and back up the fire ranger in his efforts to control fire outbreaks, Canada would save millions of dollars worth of timber every year.

### A Double treatment for Headache

Rub forehead and temples with Vicks; also melt in a cup of hot water and inhale its healing vapors. This clears the head and usually brings quick relief.

If headaches are continuous a physician or good oculist should be consulted.

### "Jealous Hearts"

By MILDRED BARBOUR

#### CHAPTER I Moon Madness.

Moonlight drenching an old Maryland garden. The scent of honeysuckle, magnolia, roses, and the spicy odor of bon in the languorous air of a summer night. A mocking-bird singing with heart-rending sweetness in the shadow of a cedar. A sun-dial with its happy legend, gleaming in the silver path of the moon.

A pergola veiled in honeysuckle—discreetly veiled—to offer sanctuary to a tall, slim, handsome young man who held in his arms a slender girl with copper-colored hair, and kissed her.

A rustic archway, rose-hung, leading to the pergola from an old colonial house. A girl in a white gown, standing at its entrance, her eyes riveted on the unconscious pair. A crimson rose, pinned above her breast and crushed by the convulsive grip of her fingers, dropping its petals one by one, like blood from the heart beneath it.

A bride of two months, Millicent Deering saw her husband kissing her foster-sister!

She stood there so motionless that a squirrel paused at her very feet, sat erect, and sniffed inquisitively. She seemed a statue in her white gown.

Then a sob broke from her. She choked it back with a quick hand against her trembling lips and, turning, fled into the house.

The faint sound had reached Elton Carver. She stirred in Anthony Deering's arms and drew away from him.

"Didn't you hear something?" He wondered what madness had possessed him. He had been so careful, up to now. It was the first time in his life that he had kissed Elton; he must take care that it be the last. Or would she take care? He thought—rather bitterly—that she would. But he didn't, for a moment, suspect that it was Elton who had staged that sentimental moment as severely and with as keen an eye for dramatic detail as a theatrical producer.

Finally he went back to the house to Millicent, who was waiting for

own charm, and a certain love of mockery.

Left alone, Tony Deering paced up and down the garden, smoking furiously, trying to get himself in hand before he must face Millicent. He was hating himself fiercely, writing in a deep and bitter shame.

### Nervous? Rundown?

Try "Fruit-a-tives"

DON'T let nerves and a run-down condition make you depressed and despondent. The real source of your trouble is probably indigestion, constipation or kidney trouble that impoverishes your blood.

The intensified juices of ripe, fresh fruit and the tonics in Fruit-a-tives act upon the kidneys, liver, stomach and bowels, tone up the system and purify the blood stream. Let Fruit-a-tives make and keep you well. 25c and 50c a box everywhere.

no sweeter than her hair. Her lips, her eyes charmed him; but, when he tried to take her in his arms—Millicent, honor, for the moment forgotten again—she eluded him with her mocking, provocative laugh and flitted away toward the gate, where a motor-car had appeared.

It was like Elton to make a dramatic exit. She couldn't, to save her soul, have resisted that one last proof of her power over Tony Deering. She was like a child who winds up a mechanical toy to make it go through its bag of tricks. Nor was her curiosity much less innocent than a child's. She merely wanted to see what a man would do. Her audacious flirtations were motivated solely by vanity, the desire for constant reassurance of her

own charm, and a certain love of mockery.

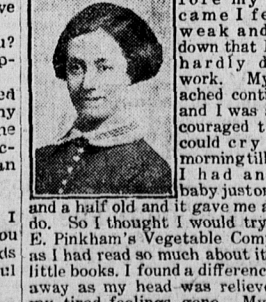

Left alone, Tony Deering paced up and down the garden, smoking furiously, trying to get himself in hand before he must face Millicent. He was hating himself fiercely, writing in a deep and bitter shame.

He wondered what madness had possessed him. He had been so careful, up to now. It was the first time in his life that he had kissed Elton; he must take care that it be the last. ### EXPECTANT MOTHERS

Read Mrs. Menard's Letter. Her Experience May Help

Chatham, Ontario.—"I want to tell you how much good your medicine has done me. Before I was my baby came I felt so weak and run-down that I could hardly do my work. My head ached continually and I was so discouraged that I could cry from morning till night. I had another baby just one year and a half old and it gave me a lot to do. So I thought, I would try Lydia E. Pinkham's Vegetable Compound, as I had read so much about it in the little books. I found a difference right away as my head was relieved and my tired feelings gone. My sister had been doing my washing and she continued doing it, as she said it might set me back if I started to do it again. It sure did help me and I had taken just two bottles when my baby came. He is a fine big boy, now nearly five months old. I am taking your medicine again and I am able to do my work again. I always recommend the Vegetable Compound to women, and especially to expectant mothers, as I believe they need help at those times."

Mrs. OLIVER MENARD, 24 Harvey St., Chatham, Ontario.

### FARM FOR SALE

100 Acres with House, Barn and Buildings in good condition at Mitchell River, about one mile from Cardigan, all cleared, water by good spring. Also 60 acres adjoining, 15 acres clear and the balance well wooded.

Apply

him. He must be faithful to his young wife in thought and spirit as well as in deed. It was fortunate that Elton was leaving for New York in the morning. He must be careful never to see her alone again. Never!

He seemed to hear the sound of mocking laughter in the dusk of the garden.

Millicent was not down-stairs. He mounted slowly to the second floor and tapped on the door of her room. There was no response.

With distinct relief, he went on to his own quarters, not guessing, that behind that door, Millicent knelt in the darkness, her blond head pillowed on her arms, despair in her heart. Her eyes were wide and dry; her throat seemed parched and choked. She said, over and over, to herself:

"He must love me. He did love me—why did he marry me? He had the choice between Elton and me. If he loved her, why did he marry me? Why? Why? Why?"

This was August. If she could have known the events of an afternoon of the previous June...

### Health Services of Canadian Medical Association

There is a fairly large group of diseases which are called communicable—Diphtheria, Scarlet Fever, Measles, Whooping Cough, Pneumonia, Tuberculosis, Typhoid Fever, Smallpox and Chickenpox, to name some of the more common ones in this country. They are given this name because of one outstanding and important characteristic. They are all spread from one person to another, from the sick to the well, and usually the spread is fairly direct.

The reason why these diseases are communicable is that they are all caused by disease germs. Disease germs are so small that we cannot see them without the aid of the microscope; for that reason they are called microscopic. They live, grow and multiply just as truly as if they were many times bigger. It is the transference of these living disease germs from the sick to the well which accounts for the spread of the communicable diseases. Each of the communicable diseases is caused by its own special germ. The disease germ which causes Diphtheria never caused any other disease, and no other disease germ ever causes Diphtheria.

Disease germs do not grow in nature outside the human or animal body. They may exist for a time but they do not grow and multiply. Some of them are harder than others, but sunlight kills them all in a short time. Bad smells are offensive and we do not want them, but bad smells do not cause communicable diseases. Such diseases are always caused by disease germs and because of the fact that these disease germs die comparatively quickly outside of the human body, the spread is practically direct from the sick person to the well. The spread of most of them is by the transference of the germ-laden secretions of the sick person to the well by coughs, sneezes, kissing, fingers soiled with saliva, or common eating and drinking utensils.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

### Old Age Pensions For Stock Clerks

LONDON, APRIL 3 (BY THE CANADIAN PRESS) After much careful consideration extending over many months, a scheme for providing Stock Exchange clerks with old age pensions has been elaborated and is now in operation. All clerks employed by members of the Stock Exchange are eligible provided they are over 18 and under 65 years of age.

The contributory employers contributing half the annual premium and the clerks the other half. No applicant is to be admitted to the scheme unless his employer consents to pay half of the annual contribution. Provisions are made by which the transfer of would be pensioners from one office to another if possible. The pension age is 65 and the maximum pension is £300 a year. The terms are attractive to the clerks. Thus for a payment of just under £4 a year a clerk can assure a pension of £100 at sixty-five. Should he die before the pension age all the contributions made in respect of him with compound interest at 3 per cent. will be paid to his legal representative.

"The scheme has been remarkably well received," said Claude L. Lemon, chairman of the Stock Exchange Clerks' Pension Fund, to a reporter, "and I am particularly encouraged by the fact that many of the big firms are taking a keen interest and have intimated to the staffs their willingness to pay their portion of the contributions. A pension scheme has been spoken of from time to time, and although many Stock Exchange firms already make provisions for their clerks when retirement age comes, it is a vital need."

Attention may be drawn to the clause which enables employers to pay a lump sum down and "back-date" their contributions so that further payments may be made on the same basis as if the clerk had entered when he was younger. In good times of the Stock Exchange many firms feel that they would like to show their staff some practical recognition of the strenuous times they are called upon to meet. This "back-dating" clause will provide an excellent medium for this purpose.

# Kotex and Health

## 4 Reasons the Doctor Advises It

Doctors today advise Kotex, the scientific sanitary napkin that women everywhere are adopting.

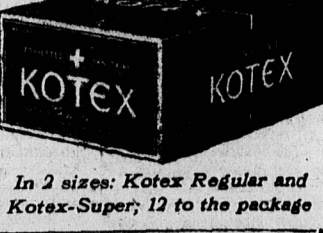

**First, they are scientifically shaped for greatest comfort—are form-fitting, hence non-detectable when worn. Soft and comfortable. Thus they give a feeling of freedom and peace-of-mind.**

**Second, they are 5 times more absorbent than cotton—absorb 16 times their own weight in moisture.**

**Third, no laundry — a very simple way to dispose of Kotex is given in the directions in each box.**

**Fourth, they deodorize and thus remove all fear of offense.**

Kotex is for sale at all drug, dry goods and departmental stores. If you do not know Kotex, buy a package today.

**KOTEX**  
Sanitary Napkins

# DISEASE — FREE FOX RANCHES

## MADE POSSIBLE BY USE OF HAUCK FIRE GUN

which effectively destroys the deadly Hookworm, Lungworm, and other numerous parasites which create havoc in fox pens and result in serious losses to ranchers.

**DISINFECTANTS ALMOST VALUELESS**

Actual tests have proved that Hook Worm eggs will survive after twenty-four hours' immersion in Carbolic Acid. Lungworm is also extremely tenacious of life and disinfectants are practically valueless for either lung worm or hook worm.

# THE ONE SURE REMEDY

## THE HAUCK FIRE GUN

FIRE PROJECTED BY THE HAUCK FIRE GUN. This death-dealing flame reaching over thirty inches in length and of 2,000 degrees F. burns up eggs and worms, destroying them utterly. For years Bacteriologists have recognized its potency but it remained for Hauck to invent a safe and sane way of using fire.

has been thoroughly tested out in leading P. E. I. Ranches during the past season with marvellous results in reduction of losses and healthier foxes. These results were responsible for our large sales last season and many repeat orders received for this year.

PRICE. Owing to a material reduction in Customs charges we are able to quote Hauck Fire Gun at the very low price of \$65.00 delivered to any station on P. E. I. Full information on request.

# IMPERIAL BISCUIT CO., LIMITED.

Charlottetown, P. E. I.

EXCLUSIVE DISTRIBUTORS FOR MARITIME PROVINCES

**TRION.** Ten members and a visitor met at the home of Mrs. Arthur Dawson. This meeting was devoted chiefly to business arrangements about the St. Patrick's concert which was to be held in the Tryon Hall on March 17th. It was decided to have a programme on home economics for April. Different suggestions were offered as to how to make the meetings more interesting. Roll call for the next meeting to be answered by "recipes".

### Agricultural Meetings

Illustrated lectures and Agricultural addresses will be given by J. A. Clark, Superintendent of the Experimental Station, and by Robert G. Parent, Supervisor of Illustration Stations in P. E. I., at the following places at 8 P. M. each evening.

Mt. Vernon School House, Tuesday, April 10th, 1928.  
Iona Hall, Wednesday, April 11th, 1928.  
Summerside Agricultural Hall, Friday, April 13th.

Everybody is cordially invited. The Illustrated Lectures on "New Varieties of Grain" and "Home Grounds" should be of particular interest to the ladies and to the boys and girls.

J. A. CLARK, Supt.
