

News Notes.

Edward Bellamy, lecturer and writer on economic topics, in a recent address in Boston, urged that the government should purchase and operate all the coal mines in the country, with the double object of giving steady employment to the mining population and supplying consumers with fuel at cost.

The new volumes of poetry by Tennyson and Browning were issued almost simultaneously just before the death of the latter. Browning was 77 years of age at his death, and published his first poem, Pauline, 55 years ago.

Great Britain's trade statistics for the year just drawing to a close are highly satisfactory. The total value of goods exported from the United Kingdom during the eleven months ending with November was £227,188,606, compared with £214,964,728 in 1888 and £201,082,967 in 1887.

On the Use of Campbell's Wine of Beech-Tree Creosote, in Diseases of the Lungs and Throat.

IN the South of France, where all persons afflicted with chronic bronchitis have been cured by the use of this wine, the two specialists so highly recommended by public opinion, have been invited with all the proposed medicinal agents to prepare a wine, which in ten years past they have finally adopted, after many comparative experiments, as the most efficacious remedy, having specially in view the destruction of the Bacilli.

After a few days' use of the remedy, the expectoration diminishes, and very soon one is pleased to witness the gradual disappearance of the Bacilli, the breaking off of the fever and the rapid recovery of appetite and strength.

When instead of confirmed Phthisis, Catarrh or Chronic Bronchitis have to be dealt with, the different forms of which may sometimes give rise to an uncertain diagnosis, they have always been cured. Those excellent results need not astonish us, if we consider the lucky natural associations of complete antiseptic and Balsamic principles in the compound we now describe. When our Wine shall have restored health, it will be well not to discontinue its use at once, and at all events to use it again about a fortnight before winter sets in, and at every change of season followed by damp weather.

PREPARATION.—A small dessert spoonful three times a day, after each meal, gradually increased to a large dessert spoonful.

NOTE.—The use of Cod Liver Oil, as a powerful stimulant to the remedial properties of the Wine, is recommended. Campbell's "Skrer" Oil being the best, is the kind which should be taken.

THE LADIES!

A New and Distinct Form of Disease which is afflicting Canadian Women. How some of them Regained Fresh Complexion, Perfect Health and Superb Physical Beauty.

A great London Physician says that he notes a new and distinct form of nervous disease produced in Canadian women by worry about servants and overwork in caring for the home. This pure and scientific remedy is especially adapted to the needs of woman, and is daily making the most remarkable cures. Mrs. W. E. Cooper, 50 St. Hyppolite St., Montreal, was for a long time troubled with nervous headaches, loss of appetite, low spirits, etc. After using the Compound, her headaches disappeared, appetite was good, and her spirits revived.

Annie Gourley, of River Beaudette, P. Q., found the Compound a certain cure for weakness, and now feels as well as she ever did. Many a Canadian lady has the same reason to be grateful. Paine's Celery Compound can be purchased at any druggist's for one dollar a bottle. If he should not have it on hand, order direct from WELLS, RICHARDSON & CO., MONTREAL.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials received from patients and from physicians who have tested it in the more aggravated and obstinate cases which baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not merely a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. "Overworked," "worn-out," "run-down" debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. As a soothing and strengthening nervine, it is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the system. It is not merely a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. "Overworked," "worn-out," "run-down" debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. As a soothing and strengthening nervine, it is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the system. It is not merely a "cure-all," but as a most perfect Specific for woman's peculiar ailments.
