

WORLD-FAMOUS CHORUS COMING

The world-famous Don Cossack Chorus and Dancers on stage at Queen Charlotte High School on Saturday Sept 28 has appeared in 66 countries, frequently before audiences exceeding ten thousand.

AGRICULTURAL NEWS

P.E.I. Department of Agriculture

HARVEST EXHIBITION

The Island's top produce in the Horticultural line will be on display on Thursday and Friday of this week. Don Smith, Horticultural Fieldman, Prince Edward Island Department of Agriculture, states that there are large entries in all divisions. In the potatoes there are 86 entries. This will be your opportunity to see the vegetables, fruit, hay etc. on display. The opening is at seven on Thursday evening in the Women's Institute Building at the Provincial Exhibition Grounds.

RURAL YOUTH FAIR

All roads lead to Charlottetown for the 4-H Club members tomorrow afternoon and Friday. The judges for the 4-H Club King and Queen Contest are R. C. Parent, Superintendent of the Experimental Farm, Mrs. R. Large, C.F.C.Y. T.V. and Mrs. Murdoch MacGowan, Kilmuir, Past President of the Prince Edward Island Women's Institutes. The Public Speaking will be scored by Dr. Frank MacKinnon of P.W.C., Dr. Brendon O'Grady of St. Dunstons and J.L. Dewar, Secretary of the Federation of Agriculture.

INSEMINATION

The shut down period for all Artificial Breeding Clubs on Prince Edward Island will be October 16 to 31 inclusive. This decision has been reached by the boards of Directors of each of the thirteen clubs. In other words there will be no service extended during that period. All clubs will be in operation again for the winter on November 1.

DAIRY PRODUCTION

Creamery butter production in Prince Edward Island from January 1, 1957, to August 31, 1957, amounted to 3,847,938 pounds compared with 3,959,220 pounds for the same period in 1956, a decrease of approximately 2.9 per cent.

BUTTER PRODUCTION

Butter production for the month of August, 1957, reported a decrease of 12 per cent compared with the same month last year. However, weekly production for the last two or three weeks is higher than a year ago which is possibly due to the favorable growing weather and as a result better pastures.

CHEESE PRODUCTION

Cheese production in Prince Edward Island for the first eight months of 1957 amounted to 557,857 pounds compared with 527,455 pounds for the same period in 1956, an increase of approximately 5.7 per cent. For the month of August cheese production was about the same as last year.

THE MILKING MACHINE

A milking machine needs to be taken apart so that all surfaces that come in contact with milk are brushed in a dairy washing solution after each milking. This is easy to learn to do in less than ten minutes per unit with any modern milking machine.

CLEANING ROD

A cleaning rod should be used for the long milk hose. Apply the same principles as for other utensils. We need to: 1. Rinse the machine by drawing a pail full of fresh clean cold water through each unit immediately after milking before the vacuum pump is shut off. 2. Then use two ounces or four tablespoons of dairy washing soda to a pail of warm water at 125 degrees F, drawing it through the machine. 3. Next, take apart all the milk tubes, teat cup inflations, valves, pail head and pail then brush with the warm dairy soda solution. 4. Rinse all parts with clean, warm water to remove the washing solution. 5. Scald with boiling hot water and store in a clean dry place.

TEAT CUP ASSEMBLY

Requiring further attention because milkers to prevent an increase in the number of bacteria. After the washing treatment, the best way for the average farmer is to put the assembly on a rack and fill it with a 1/2 per cent lye solution so that all surfaces that touch milk are completely in contact with the solution until the next milking. Just before milking again, the lye solution needs to be discarded and an approved sterilizing solution

SPOT RANGE PREDATORS

It's often helpful in ridding a poultry range of "varmints" to know what kind of predators are killing chickens. Vermin leave tell-tale signs of their victims. For example: Birds with bones and backs broken between the wings probably were killed by dogs. Carcasses near the fence, with a trail of feathers, indicate the presence of foxes. Partially eaten carcasses or only a few feathers or bones suggest possums. A pile of bones may indicate raccoons, but coons usually carry away the carcasses. Puncture marks under wings of dead birds show the work of weasels, which do not eat flesh, but suck blood. Headless pullets found in the morning is pretty good evidence of the work of owls.

OPEN INVESTIGATION

HOWLEY, Nfld. (CP) - CNR officials opened an investigation Monday into the cause of a derailment Friday night near this western Newfoundland town. No one was injured when eight flatcars of a 35-car pulpwood train left the track. Service was disrupted only a short time as wrecking crews cleared the track.

PERSONALS

Mr. and Mrs. Harry Rhoads and Mr. and Mrs. John Pollard have returned to London, Ont., after spending a pleasant holiday at the home of their parents, Mr. and Mrs. William Glover, White Sands.

Rev. Fr. Lewis Lectured In Washington

Rev. Andrew Lewis, S.A., until recently Master of Novices at Our Lady of the Atonement novitiate in Valley Falls, played a prominent part in the Mission Secretariat meetings which opened in Washington, September 9th.

Rev. Andrew Lewis is a native of Souris, P.E.I., the son of Gregory Lewis. As Theologian for the group of non-teaching Brothers, he guided the Brothers in their discussion of problems arising in the foreign mission fields of the Church. The increasing importance of the non-teaching Brother in the worldwide missionary program, makes these talks of particular value this year. Father Lewis was

Peter MacDonald Laid to Rest

The funeral of the late Peter O. MacDonald was held Monday morning from his late residence to St. Cuthbert's Church, St. Theresa. His remains were received into the church by Rev. Basil Croken, P.P. Solemn Requiem High Mass was celebrated by Rev. Reginald MacDonald.

Rev. Basil Croken was Deacon and Rev. George MacCormack, sub-deacon. Rev. Finlay Mullaney was master-of-ceremonies. Rev. Urban Gillis and Rev. William D. MacDonald occupied seats in the sanctuary. The pall bearers were: Lemuel Hughes, Borden Mooney, Urban Bradley, George Dover, Joseph Mooney and John MacInnis. The service was conducted at the grave by Rev. Reginald MacDonald, assisted by Rev. Basil Croken and Rev. George MacDonald. The funeral was very largely attended.

BRISTOL

Sorrow and sadness came suddenly to this vicinity on Monday evening in the passing of Ronnie MacDonald, in The Souris Hospital following a brief illness. He was the fourteen year old son of Frank MacDonald, and the late Mrs. MacDonald. He had resided since he was a baby with his grandparents, Mr. and Mrs. James F. MacDonald, where his younger sister also makes her home. Ronnie was a lovely boy and well liked by everyone and his sudden passing two weeks after the death of his grandfather is a severe shock. The sincere sympathy of this vicinity goes to his heart broken relatives.

Miss Lotie Hughes, who spent some time at her home here, has left on return to her home and duties in Boston after a nice vacation.

Mrs. Walter Munroe left last week on return to her home in Boston, after attending the funeral of her late brother-in-law, James F. MacDonald.

The lovely little hostess of the M.C.A. staff Miss Imelda Rossiter was home for the weekend. She has been an M.C.A. Stewardess for some time now. Lloyd McEwen, Vernon Anderson, Charlie Lapierre and C.S. McEwen, were in the City on Monday on business. Mr. and Mrs. Francis Hughes have taken up residence at St. Dunstan's, following their honeymoon. Mr. Hughes is employed at the College farm. Mr. Clement Sinnott has taken a position with the department of health and has entered his new duties at the health center in the city. Mr. Sinnott spent quite a number of years as a banker. The big ball game that hundreds planned to attend in the village was rained out Sunday.

The big ball game that hundreds planned to attend in the village was rained out Sunday.

The village high school has opened for its second term with Miss Mabel O'Brien, as principal. There is a large enrolment, again from the surrounding schools. The students will be picked up by the school bus daily. The village diner is quite a bee hive at noon hour now when the high school boys and girls come in for a snack. They are a very pleasant happy lot of boys and girls. The funeral of Ronnie MacDonald, who died very suddenly last week, was held from the Hennessey Funeral Home to the Church of the Little Flower here on Thursday morning where Requiem High Mass was sung by his pastor Rev. E. Robbin. The altar boys attended the funeral in a body. Ronnie had been a member of the group. He was laid to rest beside his grandfather. The latter was buried only two weeks ago. The funeral of Miss Teresa MacDonald arrived from Halifax, to attend the funeral of her young nephew and to be with her mother who is suffering from the double shock. Teresa had only returned to her duties a week ago following her father's death. Mrs. Margaret Mooney and her sister, who arrived here recently from Boston, to visit their brother, Peter Dunphy for a few days, left again for their home in the big city travelling by air both ways. A funeral home was held from the funeral home owing to the double shock that has affected his grandmother severely. Mr. John R. O'Brien has arrived home from Halifax to vacation with his wife and family here for three weeks. Miss Mabel O'Brien returned on Labour Day from a pleasant visit with her sister and brother-in-law, Mr. and Mrs. Joe Campbell in Halifax N.S. Mr. Leonard Ryan has purchased the big barn on the property of Mr. Pat Henneberry. Mr. Henneberry left the farm some time ago and went west to reside. His father and mother, Mr. and Mrs. Richard Henneberry, who are about to retire from farming will reside on the property for the present. The big problem for Mr. Ryan, is hauling the large building and placing it on a new foundation about one and a half miles out the road where he and some of his sons are farming on a big scale. Mr. James Fitzgerald was in the city last week for a check on his health. He spent time in hospital last spring and since then has a regular check up. N

Harmon Field Orders Vaccine

STEPHENVILLE, Nfld. (CP)—A hospital spokesman said Saturday 9,000 shots of Asian flu vaccine have been ordered for personnel and dependents at nearby Harmon air force base. The shots are part of the USAF's world wide inoculation program which calls for 1,150,000 cubic centimeters (shots) of the vaccine. The first shipment of 27,000 cc's has already been delivered and the spokesman said Harmon should get its share by Sept. 30. Children under five will not be vaccinated here. Those from five to 12 will receive two shots of 3-10 cc each within a week and those over 12 will receive 1 cc. The vaccine takes hold one week after inoculation and continues to protect from four to 10 months.

Velvet

98

the best gasoline ever sold

B-A's exclusive new Velvet compound has been specially developed to satisfy all the power demands of today's advanced, high-compression automobile engines. Clean-burning B-A Velvet 98 is a revolutionary new motor fuel that effectively stops engine "rumble" and knock caused by pre-ignition, gives improved, quiet, velvet-smooth performance. Velvet 98 extends spark-plug and exhaust-valve life. It successfully reduces combustion-chamber deposits that rob your engine of power and "go". It provides peak engine performance plus the important engine protection you need for utmost economy. So pull in today to the sign of the big B-A. Fill up with new B-A Velvet 98. See for yourself how just one tankful of this revolutionary gasoline actually makes a difference... and then, how each successive tankful increases your car's power output until you're getting all the velvet-smooth power your engine is capable of delivering.

Drive in today - get Velvet 98 at the sign of the big
