- Central Farmers Co-operative Association annual meeting July 19, at 8 p.m., Vocational School, P.W.C. All members urged to attend. R. G. H. MacDonald, Secretary.

beyond the dispatch of three destroyers already on the way. Parliament would be called on for approval before Canada sent aid involving different types of fighting forces, including ground and air personnel. These points were made clear today at a press conference in which External Affairs Minister Pearson, who is acting Defence Minister, reviewed the Korean situation and Canada's contribution.

Mr. Pearson also declared that: 1. Canada will have to supply and maintain her own vessels in Korean waters. 2. Canada will have to provide any necessary replacements for her naval personnel in the Korean force. This apparently means sending reserves into the area, but Mr. Pearson said the method of doing this would be explained by Defence Minister Claxton, now in Newfoundland.

On the question of providing the Canadian ships with ammunition and other supplies, Mr. Pearson said supply vessels could be sent from this country without contravening the assurance Prime Minister St. Laurent had given that Parliament would be summoned before aid of a type not originally considered by the Government were provided.

The Minister made it evident, however, that dispatch of the aircraft carrier Magnificent would be considered a different type of aid and, as such, would call for parliamentary approval. But further destroyers could be sent by the Government within the undertaking Mr. St. Laurent gave Parliament June 30.

Mr. Pearson, choosing his phrases carefully, put it this way: "The Prime Minister made it clear that if we took further action beyond that of the type indicated or any further action that would involve us in war operations, Parliament would be called." (In his June 30 statement, destroyers were the only service force referred to specifically by the Prime Minister as under consideration for Korean duty.) The Magnificent and three other destroyers now are on the east coast preparing for a training cruise next month to European waters. The Government is believed to have under consideration the question of whether it is advisable to send them farther from the Pacific, though Mr. Pearson said the plan remained unchanged.

U. S. Army, Navy Tighten Security

WASHINGTON, July 12—(AP)—The United States Army and Navy said today they have sent out orders for tighter security on information about the movement of troops and supplies. The announcement came after protests were voiced in Congress that too much is being told about steps to build up American strength in Korea.

Noted Canadian Doctor Dies

TORONTO, July 12—(CP)—Dr. Golwin William Howland, 75, noted Canadian neurologist, died Tuesday. He was a founder of the occupation therapy movement in Ontario, and was a past president of the Canadian Association of Occupational Therapy.

Chinese Business Men Prosper Despite War

HONG KONG, July 12—(AP)—While China's civil war goes on, trade flourishes between Chinese business men on both sides. Some of the trade is direct between Communist Shanghai and Keelung, Northern Formosa. Much of it is indirect through the medium of the crown-colony of Hong Kong. Both the Communist and the Chinese Nationalist regimes approve of what is going on and have set up specific regulations concerning trade dealings between the "two Chinas." A recent notice of the East China (Communist) military and political commission listed the

3 Ships At Pearl Harbour Turned Over To The U. N.

By DOUGLAS HOW
OTTAWA, July 12—(CP)—Canada today officially turned three destroyers over to United Nations command to fight in Korea—but only in that specific war. The historic step was taken by Cabinet in a 2½-hour meeting. The Navy said the three warships reached Pearl Harbor, Hawaii, today and will probably sail

PEARL HARBOR, July 12—(AP)—Three Canadian destroyers today joined the United States naval task force "Yoke" assembling at this American naval base. The Canadian destroyers Cayuga, Sioux and Athabaskan berthed here at 10:30 Honolulua standard time (4:08 p.m. EDT).

for Korean action Friday. They will only halt to refuel. Their speed, destination and duties will depend on orders from Gen. Douglas MacArthur, U. N. commander, but they are expected to be in action within two weeks, buttressing the naval blockade of Communist North Korea and bombarding targets ashore.

Will Fly U. N. Flag

They will fly the blue and white U. N. flag as well as the Canadian Ensign. Both Prime Minister St. Laurent and External Affairs Minister Pearson stressed to reporters that Canada is making the warships—the Cayuga, Athabaskan and Sioux—available only as part of a general U. N. police action against aggression and only for the Korean war—for the defence of the Republic of (South) Korea.

Home Building Figures Show Decline In Canada

OTTAWA, July 12—(CP)—Fewer new homes were started and fewer completed in April and in the first four months of this year than in the corresponding periods of 1949. The Bureau of Statistics reported today. But the number of houses under construction at the end of April still was higher than at the end of the corresponding month last year. The total was 50,775, an increase of about 2,000. Part of the increase was due to Newfoundland's inclusion in the 1950 figures. No reason was given for the drop in the number of starts and completions but Resources Minister Winters said recently that skyrocketing lumber prices and a shortage of lumber were responsible for a decline in home construction.

Dwelling Burned At Loyalist Yesterday

The dwelling house of Mr. Howard Walter Loyalist, and nearly all its furniture were destroyed yesterday afternoon by a flash fire which broke out around two o'clock. Only a few furniture articles were saved from the fire which was believed to have originated from a water pumping engine in the cellar. Neighbours gathered on the scene as quickly as possible but were hindered from fighting the blaze by a water shortage as the supply was shut off. They formed a bucket brigade from a nearby house and prevented any further destruction. For a time it was feared that several nearby buildings would catch fire. Mr. Waite is married and has a large family. No estimate of the damage could be learned but the building was a large dwelling.

Two S'ide Men May Be In Action In South Korea

The activities of two American infantry regiments in the Korean war are of vital interest to two families in Summerside. P.F.C. Ralph Mellish, son of Mr. and Mrs. Milton Mellish, Summerside, has been with the American occupation force in Japan for the past 1-2 years. He is with the 32nd Infantry Regiment and although Mr. and Mrs. Mellish have received no word recently to confirm their fears it is possible he may be in action against the Communist forces of North Korea. Sgt. F. Alfred Barwise, a veteran of World War Two in which he served with the Black Watch (R.C.) of Montreal is a member of the 8th U. S. Infantry Reg't known to be in action in Korea. Sgt. Barwise is a grandson of Mrs. Fred Wright, who is living with her son, William and Mrs. Barwise, Water Street West. Sgt. Barwise's father, Fred Barwise, died June 11th in Montreal and he flew there from his unit in Tokyo for the funeral on June 14th. He left on return June 20th and his last letter, written June 29, told of the unit being ordered to Korea. — S

Veteran Commercial Traveller Dies

TORONTO, July 12—(CP)—Richard Marshall Butler, 91, oldest member of the Commercial Travellers' Association of Canada, died here yesterday. He had been associated with Dominion Rubber Co. Ltd. until his retirement 25 years ago.

U. S. Senator Declares Country In Grave Peril

By Roger D. Greene
WASHINGTON, July 12—(AP)—Senator Lyndon Johnson demanded reserves in the United States be called up immediately to provide 532,000 more men. The Texas Democrat, a member of the Senate armed services committee, also urged Congress to authorize President Truman to invoke full industrial mobilization. Declaring these are among "minimum" steps vital to American defence, Johnson told the Senate: "Never before has the United States been in such grave peril as it is at this moment." Legislators in both Houses of Congress reflected growing concern over the situation in Korea and what it may mean for the future. Senator Pat McCarran (Dem. Nev.) demanded that the United States immediately break off diplomatic relations with Russia and her satellites. This would not be a step toward world war, he said, but would be a move "to quarantine those who are courting war."

Would Use A-Bombs

The House of Representatives warmly applauded a proposal by Representative Lloyd Benson (Dem. Tex.) that President Truman warn the Communist invaders either to withdraw from South Korea or atomic bombs would be dropped on North Korean cities. Benisen, a veteran of the Second World War, said he offered the proposal as a move to end the Korean fighting and prevent a new world war. Johnson said Americans fighting in Korea are seriously outnumbered and their military equipment is inadequate and not the right kind. The fighting had demonstrated that clearly. "Congress did not intend that our troops should be sent to battle with one arm tied behind their backs—yet that is what is happening." Johnson's call for a speed-up in mobilization came shortly after State Secretary Acheson told reporters that the United States will welcome aid from other countries. Acheson said offers of ground troops from members of the United Nations would be most helpful in the fight to save South Korea from the Reds. Conferences now are in progress as to help from other countries. Acheson said he understood some countries have considered offering ground forces. But he could give no details pending announcements from the countries involved on the U. N. in any event, the machinery had not yet been created for taking full advantage of the offers.

Reds Build Up Strength For New Push

TOKYO, July 13—(Thursday)—(CP)—Communist North Korean forces shifting weight to a central front, today were reported to be building up for a new push which could threaten the lifeline to the battle of the Taejon bulge. Field headquarters report said that Communist forces had driven 15 miles south of Chungju, key rail and road junction in the centre of the peninsula at this point. Forty-five miles south of the new North Korean drive is the rail and road junction of Kumchon, astride the main supply route between the vital port of Pusan and the grimly-held United States front at Taejon, provisional Korean capital. On the western sector, American forces were last reported to be digging into new defence positions inside the bulge formed by a loop in the Kum River, only a few miles north of the provisional capital.

Expect Crossing Attempt

Communist forces, though harassed by American rear-guard units, are believed to be pausing to mass a concentrated assault across the Kum River, a quarter of a mile wide at this point. They were continually attacked by artillery and aircraft with heavy barrages on troop concentrations and supply dumps in the rear, field reports said. Communist troop movements also were reported southwards in the east coastal region of Ponghahae-Ri, 110 miles north of Pusan. Reuters News Agency said. These, however, lacked official confirmation. (An Associated Press correspondent reported from advanced U.S. headquarters in Korea that he could get no official confirmation of a report that Chinese Communists landed a division of troops Wednesday on the east coast of Korea. This report, radioed by a Baltimore Sun correspondent, Philip Potter, said troops "tentatively identified" as Chinese had landed at Ponghahae-Ri. This is south of the line across Korea held by American and South Korean troops. Potter said the goal of this landing appeared to be Pohanz, about 55 miles north of Pusan. (In Washington, a Pentagon briefing officer said he would "personally discount" any report that a Chinese Red division had landed south of Allied lines.) General MacArthur's headquarters announced Lt.-Gen. Walton H. Walker, commander of the United States Eighth Army, took over command of ground forces in Korea Wednesday at midnight and has established an advanced command post in South Korea. A com-

Well-Known Ship

The Franconia is well-known to world travellers—and she has another claim to fame. During the historic Yalta conference among the late President Roosevelt, Premier Stalin of Russia and then Prime Minister Churchill of Britain, the Franconia served as Mr. Churchill's headquarters. Her maiden voyage to Quebec was made from Liverpool June 11, 1949, with 860 passengers aboard. During the winter, when the St. Lawrence is frozen over, the Franconia sails into New York. She was the first passenger ship to sail to Quebec in the spring of this year, arriving here April 22. Capt. W. Manson Stewart, O. R. E., won a gold cane for opening passenger service up the river.

Dietetics Association Annual Convention

MONTREAL, July 12—(CP)—Edith Wark of Toronto, Western Hospital and elected president of the Canadian Dietetics Association at the annual convention here today. Other officers elected included honorary president, Marjorie Dell, Nine Morley, University of British Columbia, Vancouver; president-elect, Isabell MacArthur.

Overdue Fishing Vessel Located

HALIFAX, July 12—(CP)—The 56-ton fishing vessel Safred, six days overdue on a trip out of Halifax, was located today anchored near Sable Island with engine trouble. Another fishing boat, the Phillip Lake, took the disabled Clarke's Harbor, N.S., vessel in tow for the first part of the 100-mile trip to Halifax. She was scheduled to rendezvous with the schooner Margaret and Dorothy, which would tow the Safred to Halifax and was expected to arrive late tonight.

French Premier Picks Members Of His Cabinet

PARIS, July 12—(AP)—Premier Rene Pleven tonight announced the make-up of a new cabinet, and the end of France's 18-day government crisis seemed assured. Pleven is a rightist. A member of the small democratic and socialist Union of Resistant (Union Democratique Et Socialiste) who has been considered friendly to Gen. Charles De Gaulle, he will head a cabinet made up of socialists, radical socialists (conservatives) and members of the left-of-centre Mouvement Republicain Populaire, plus three independents and two members of his own group. This is essentially the same combination of centre parties which governed France through recent years until last February, when the socialists withdrew. The return of the socialists appears to assure Pleven the support of their powerful block of 96 votes when he goes before the National

Big Passenger Ship Runs Aground In St. Lawrence River

(By William Stewart, Canadian Press Staff Writer)
QUEBEC, July 12—(CP)—The 20,000-ton liner Franconia lay tilted up on a St. Lawrence River reef just below here tonight after she went aground with 780 passengers aboard. It was not immediately known whether any of the passengers or crew of the big Cunard-Donaldson ship were injured. The Franconia ran on a reef near the Island of Orleans, one mile below Quebec, 45 minutes after she had cleared the port of Quebec en route to Liverpool. Eye-witnesses told me at midnight that launches were being used to take off passengers but this could not be confirmed by official sources.

Island Swine Reach Morris, Man.

MORRIS, Man., July 12—(CP)—A carload of 87 pure-bred Yorkshire, contributed by Prince Edward Island pig breeders, today were being distributed to breeders of this district whose stocks were depleted or wiped out during the Red River floods. The valuable breeding stock reached Morris yesterday.

Fire This Morning At Mt. Albion

A barn belonging to Mr. Allan Jenkins, Mount Albion was burning fiercely, a hen house had caught fire and the dwelling house was in immediate danger of going ablaze at three o'clock this morning. City firemen responded to a call and sent out a pumper loaded with men and equipment. They were going to make an attempt to save the house. The buildings formed a semi-circle and were close together, making it a difficult task to check the fire.

THE LUCKY MAN AT THE WEDDING IS OFTEN THE FATHER!

Johann Gutenberg made and used the first movable type in Mainz, Germany, between 1440-1450.

French Premier Picks Members Of His Cabinet

PARIS, July 12—(AP)—Premier Rene Pleven tonight announced the make-up of a new cabinet, and the end of France's 18-day government crisis seemed assured. Pleven is a rightist. Flood Relief Fund

WINNIPEG, July 12—(CP)—The Manitoba Flood Relief Fund, boosted by a \$25,500 contribution from the O. D. P. today in Toronto, today rose to \$7,174,860. The fund's objective is \$10,000,000.

Election Speculation Flares In Britain

LONDON, July 12—(AP)—The national executive of the Labor Party submitted today the preliminary draft of its platform for the next election. Speculation on the date of the next national appeal to the voters broke out promptly in the British press. Guesses ranged all the way from next November—generally regarded as Prime Minister Attlee's choice to next February. A final policy statement will be submitted to the annual party conference at Margate in October.
