## Constipation

Demands prompt treatment. The results of neglect may be serious. Avoid all harsh and drastic purgatives, the tendency of which is to weaken the bowels. The best remedy is Ayer's Pills. Being purely vegetable, their action is prompt and their effect always beneficial. They are an admirable Liver and After-dinner pill, and everywhere endorsed by the profession.

"Ayer's Pills are highly and universally spoken of by the people about here. I make daily use of them in my practice."—Dr. J. E. Fowler, Bridgeport, Conn.

"I can recommend Ayer's Pills above all others, having long proved their value as a cathartic for myself and family."—J. T. Hess, Leithville, Pa.

"For several years Ayer's Pills have been used in my family. We find them an

### Effective Remedy

for constipation and indigestion, and are never without them in the house."—Moses Grenier, Lowell, Mass.

"I have used Ayer's Pills for liver troubles and indigestion, during many years, and have always found them prompt and efficient in their action."—L. N. Smith, Utica, N. Y.

"I suffered from constipation which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. Two boxes of Ayer's Pills effected a complete cure."—D. Burke, Saco, Me.

"I have used Ayer's Pills for the past thirty years and consider them an invaluable family medicine. I know of no better remedy for liver troubles, and have always found them a prompt cure for dyspepsia."—James Quinn, 30 Middle st., Hartford, Conn.

"Having been troubled with costiveness, which seems inevitable with persons of sedentary habits, I have tried Ayer's Pills, hoping for relief. I am glad to say that they have served me better than any other medicine. I arrive at this conclusion only after a faithful trial of their merits."—Samuel T. Jones, Oak st., Boston, Mass.

## OTTAWA LETTER.

### Features of the City.

### A Word with the "Patriot."

OTTAWA, March 7.

I have not said a great deal about this city. Its growth, from the little village called Bytown, has been rapid. Of course, its selection as the capital of the Dominion has given it phenomenal opportunities; but the natural advantages of its position have also contributed to its progress. More lumber can be seen in a morning's walk around Ottawa than at any other point in Canada. Immense piles of pine plank and boards are here ready for shipment; and near the bridge below the Chaudiere Falls there is a veritable sea of lumber. Across the river the town of Hull presents the appearance of a large, thriving place. The manufacturing establishment of E. B. Eddy is one of the principal industries in that town, and gives employment to a small army of workpeople. Mr. Eddy has suffered severely from fire, but his energy carries him through all difficulties.

The principal business streets in Ottawa are Wellington, Sparks, Sussex, Elgin, C'Connell, Banks and Rideau. From the Parliament Buildings you can look for miles and see the city stretching out on every side. On Wellington Street, up near Stewarton, the street has been cut out of the side of a high bluff of solid rock, that towers away above those passing along. On this bluff Christ Church is situated, one of the handsome edifices owned in Canada by the Episcopal denomination. Its interior is very fine, finished in cathedral style and luxuriously furnished. Canon Lauder is the Rector, and the Rev. Mr. Muggleston, the assistant Minister. The Ottawa Roman Catholic College is a large massive building, situated across the canal, out towards New Edinburgh. Mr. Thomas Curran, of Baldwin's Road, P. E. I., is one of the teachers in this institution. Among the Indians I met in Ottawa were Mr. J. W. Hughes, formerly of County Line, Mr. J. A. McKenna, of the Department of the Interior, and Mr. Farrell, of Sturgeon, who has a position in the House of Commons. There are also a number of others from the Island who live at the capital. An impression seems to prevail among a good many I met that the Maritime Provinces are getting more than their share of Government offices, and it is certainly a fact that men from the lower provinces hold the best positions. Perhaps there is something in the saying that men who eat fish have more brains than those who live principally on flesh food.

Rents are very high in Ottawa. An ordinary dwelling house in any good locality rents from \$20 to \$25 per month, and living expenses are dear. The ordinary rate for board is \$25 to \$35 per month, according to accommodation. The Brunswick House, where I staid, is a fairly good hotel for those who do not want too much style, and I can recommend it to those paying Ottawa a short visit on business.

The Russell, Grand Union and Windsor are more expensive, have more style; but some say that the bill of fare at them is no better than it should be. One fact is certain, they have not as nice meat in Ottawa as can be got in Charlottetown.

Ottawa is not a healthy city. Its death rate is high. No doubt the situation of the greater part of the city, especially in Lower Town, has considerable to do with its unhealthiness. I think, however, that the excessively high temperature kept up in the houses has a good deal to do with it. Why it is that the Parliament buildings and departmental offices are kept up to fever heat, is one of the questions I would like to have explained.

I notice that a correspondent of the Patriot is not well pleased with my reports from Parliament, especially that part of them that refers to the Island members. I am sorry I cannot please them. I might do so if I had no regard for accuracy; but truth must be told though the heavens (and the little gods) fall. For the satisfaction of our friends I may state, that the other afternoon, when Mr. McIntyre brought up the fisheries bounties, and spoke on that question, and was followed by Mr. Perry and Dr. Robertson, they made so great an impression on the reporters of the Grit papers that not one single line was given them in the Free Press next day. They were simply ignored. I have done fairer than that, for one of my letters has a summary of what they said. It is no use for the Patriot to try the lawyers' tactics, viz., "If you cannot disprove the evidence of your opponent, blackguard his witness." What I have written about political doings at Ottawa are not altogether my own impressions; but are collated from the sentiments expressed in the Press Room, and from the views of gentlemen outside the House, who heard the several debates.

## Local and Other Items.

THE STANLEY left Georgetown for Picton at six o'clock this morning.

ADVANCE IN MOLASSES.—Cable advices from Barbados report molasses has increased in price one cent per gallon.

The bald man's motto: "There is room at the top." This top may be supplied with a good crop of fine hair by using Hall's Hair Renewer. Try it.

GRIPSACK.—The March number of this excellent monthly is to hand. It is, as usual, well-filled with matter, interesting to travellers and others.

ISLAND HORSES.—Mr. W. S. McKie shipped twenty splendid horses in the Stanley Wednesday last, and has another lot on hand which will cross over to-day. They are for the American market.

CORRECTION.—The total value of the exports from King's and Queen's Counties for the month of January and February last was \$85,612, and not \$851,612, as inadvertently stated in Wednesday's issue.

HOW IT WAS BORN.—A man in Western Dakota says he saw a blizzard born. According to his story it started on the top of a bare hill, and was a ball of white fog no larger than his hat when he first saw it.

STRANGE ACCIDENT.—A Mrs. McVey, living on Brussels Street, St. John, N. B., met with a strange accident on Monday night. She was in the act of sitting down when the chair slipped from under her and she fell breaking one of her legs.

Bad blood causes dyspepsia and dyspepsia results by causing bad blood. So both go on, growing worse, until the whole system is poisoned. The surest means of relief for the victim is a thorough and persistent course of Ayer's Sarsaparilla.

SAD SUICIDE.—Mr. George R. Davies, of the firm of Davies Bros., general dealers, Bloomfield, N. B., committed suicide by taking strychnine a few days ago. Dependancy over failure in business is thought to have been the cause of the rash act.

Miss Bessie H. Bedloe, of Burlington, Vt., had a disease of the scalp which caused her hair to become very hard and dry and to fall so freely she scarcely dared comb it. Ayer's Hair Vigor gave her a healthy scalp, and made the hair beautifully thick and glossy.

THE ARMY AGAIN.—A Victoria, B. C., despatch says that Jennie Hamilton, one of the lady helps brought from Ireland some months ago by Canon Cooper, of Kamloop, was sent to Westminster Asylum a few days ago, having become insane through attending the meetings of the Salvation Army.

ABANDONED.—An exchange says that the barque Sappho, Capt. Irving, bound from Buenos Ayres for Barbadoes, has been abandoned at sea. The Sappho was a vessel of 559 tons register, and was built at Charlottetown in 1878. Hon. Daniel Gordon, of Georgetown, is her managing owner.

THE VERNAL EQUINOX.—The vernal equinox occurs this year on March 20. Jupiter is morning star, with Mercury as a late companion. All of the remaining five planets are evening stars. Venus, the queen of all the planets, in the clear, cool atmosphere, seems to be ever of increasing brilliancy.

BLEED TO DEATH.—The Summerside Journal says: A valuable horse belonging to Mr. William P. Reid, while waiting his turn to be shod in Woolcher's forge, Alberton, some time ago, backed down upon the sharp edge of a mud shovel, and completely severed the main artery of a hind leg, bleeding to death in five minutes.

"PRINTER'S INK."—This the title of a bright little journal which comes to us from the office of Geo. P. Rowell & Co., Advertising Agents, 10 Spruce street, New York. *Printer's Ink* contains much valuable information for advertisers, who will be able to secure many points from it. It is issued on the first and fifteenth of each month, and costs one dollar a year in advance.

PAINFUL ACCIDENT.—The Times reports that a blacksmith named Goldrup met with a painful accident in the I. C. R. shops at Moncton on Tuesday. It appears that he was in the act of passing one of the doors of the blacksmith shop, when a workman who was repairing some machinery on a scaffold about thirty feet above Mr. Goldrup, thinking no one was near, threw a piece of iron weighing about thirty pounds to the ground, the iron striking the injured man right on the neck and shoulder. The injured man is not expected to recover.

### Gone, But Not Forgotten.

On last Sunday morning, the 24th Feb., the citizens of the Fifth ward were shocked to learn of the death of Ambrose McDonald, who has lived among us for the past five years. He was born at Prince Edward Island, Canada, and was in the prime of life, being only thirty-nine years of age. The deceased was a brother-in-law of Mr. Angus McDonald, superintendent of bridges and building of the Southern Pacific railroad, and was also a member of the Catholic Knights of America. The burial took place at 3 p. m. on Monday, the 25th ult., when the pall-bearers, composed of the Catholic Knights, took the body to St. Patrick's church, Fifth ward, where the funeral service was held and performed by the Rev. Father Maury of the Fourth ward. Many went to see the remains of one put in his last resting place in Glenwood cemetery. He left a truly loving wife to mourn his loss, and a host of friends to say "gone, but not forgotten."—Houston (Texas) Daily Post.

[The deceased above referred to was married to a sister of John McEachen, of this city, a native of the eastern part of the Island.]

### MARRIED.

At Montague Bridge, on Feb. 27th, 1889, by O. B. Emery, Mr. Shedrick Campbell, of Lot 59, and Miss Hilda Livingstone, Lot 63, King's County, P. E. I.
