

THE DAILY EXAMINER

APRIL 25, 1895.

THE GOVERNMENT AND THE DAIRY INDUSTRY.

Disappointment has been felt and expressed, in many quarters, in consequence of a rumor that the Government would not in future take charge of new factories and would reduce the rent that has been paid to the factories already established.

The chief cause actuating the Government towards the course of which complaint was made proceeds from the fact that too many small factories, having small outputs, have been established. There is all the difference in the world between the financial results of a factory that is supplied with sufficient milk to keep the men engaged in the work fully employed and to produce large quantities of cheese and butter, and a factory in which the men are idle half their time and the product is small.

They allow petty differences to defeat the main end in view. In the vicinity of Trvon and Crapand, for instance, there are three factories, where there ought to be but one; in Lot 45 two factories are now being established where one would, for the present, be sufficient.

But information from the country tends to the conclusion that all the factories will receive a much larger supply of milk this year than last. We are informed by one farmer that whereas he, last year, sent to the factory the milk of twenty-one cows, he will send this year the milk of thirty cows.

Under these circumstances it is pleasing to learn that the Government have not taken the action that was threatened. The telegram published in another column conveys the gratifying information that all the factories—old and new—will be managed this year under the supervision of the Department of Agriculture and its officials.

In the course of an address at Birmingham, a few days ago, the Right Honorable Joseph Chamberlain said: "I am inclined to think that in our staple trades—for instance, in the coal trade, in the iron trade, in the cotton trade, and above all in the greatest of all our trades, the trade of agriculture—the margin of profit has entirely disappeared. Up to the present time wages have not fallen as all in proportion, but if the present state of things continues it is simply inevitable that wages will have to be considerably reduced or that works will be closed, and will be idle, and the numbers of the unemployed will be largely increased."

On WEDNESDAY, May 1st, at 12 o'clock, on the premises No. 1, Portland, Wild Flowers of Canada, now in stock—Hazard & Moore.

NOTES AND COMMENTS.

The cure of Notre Dame, Montreal, in discussing the attitude of the Church towards mixed marriages said: "It is not my intention to raise religious prejudices. We live in a mixed community, and our respectability class of people, worthy of our regard and esteem; a class with whom we have daily social and business intercourse; but when it comes to a question of principle we cannot compound with error and must strictly adhere to the doctrine of the church."

It turns out that wherever Hon. Mr. Ferguson spoke Antigonish, with one exception, Mr. Chisholm, the Conservative candidate, had a majority. At Cape George, where Senator Ferguson spoke, Mr. Chisholm's majority was 61; at Arisag his majority was 7; and at Lochaber his majority was 24. The Conservative majorities in the two last named places were increased over those obtained by Sir John Thompson in 1891. We give these facts as a sufficient reply to the chorus of "naught," directed against Senator Ferguson, which came from the Patriot and its confederates as soon as the result of the election became known.

The April report of the Statistician of the United States gives some interesting figures in regard to the extent to which that country imports potatoes. The statistics cover a period of 10 years. It appears from them that during the ten-year period ending June 30, 1894, there were imported into that country 29,495,417 bushels of potatoes with an aggregate value of \$15,155,431, or an average of 44.66 per bushel. The net quantity of imports over exports for the same period was 24,347,405 bushels, with a value of \$9,296,245. During the year 1892 that the country raised the largest crop but one during the period above mentioned, the crop being 29,855,000 bushels. During the same year it imported eight and a quarter million bushels of potatoes. That the United States should go abroad to buy potatoes or any other farm product is a matter of surprise to the Agricultural Department, but statistics that cannot be denied show that during the ten years just passed almost ten million dollars have gone abroad to buy potatoes.

NEW GLASGOW NOTES.

The cheese factory is in rapid course of construction by the contractor, Mr. Humphrey Arthur is the inspector of the building and no doubt a first-class factory will be the result.

Mr. Houston Dunette, the contractor for the building of a bridge on the new road which is being opened between the Hunter River and St. Mary's roads, is now engaged upon the work. Mr. W. D. McCoubrey inspects the job.

The Northern Branch Society of the Farmers' and Dairymen's Association will close their meetings for the season by holding a public meeting in the New Glasgow Hall on Monday evening, 29th inst.

Messrs W. H. McKie and J. H. Stevenson of the Bank of Nova Scotia, Charlottetown, spent their Easter holidays here.

Messrs Hill & Stevenson, have been engaged in renovating their building and machinery to afford themselves better facilities to meet the wants of their customers.

Orwellers were never better satisfied with the condition of their school than at present, and may well congratulate themselves on securing such a teacher as Mr. J. S. O'Neill. Mr. O'Neill knows his duty and invariably performs it.

The mail from Charlottetown arrives very regularly, considering the circumstances, but railway connection is what the people of Orwell ardently wish for. "Where there's a will there's a way." Why not a rail—way.

When men and women are in health, or suffering perhaps slightly from the cause of which the state of hopelessness and misery had wrung from his lips this wail of despair.

When men and women are in health, or suffering perhaps slightly from the cause of which the state of hopelessness and misery had wrung from his lips this wail of despair.

LETTERS TO THE EDITOR.

THE MEDICAL ACT.

Sir,—I see that the amendment to the Medical Act that was introduced has been rejected. The question is often asked, "how was this act placed on our statute book? Was it asked for by a public petition? We answer no." The doctors were the only persons who asked for it, and our law makers could not refuse when such an intelligent body of men asked for it. Who was in power when this act of 1892 was passed? The Liberal party led by Mr. Frederick Peters. Who was the party that deprived the public of the right of doing with their own what they pleased, as long as they did not interfere with the rights and privileges enjoyed by other people? The Liberal party led by Mr. Peters. Who gave the fines collected from prosecutions by this act to the Medical Council? Any person can prosecute under this act. Should the present government gain the case the Medical Council recover the fine. But should he lose the case he has to pay the expenses out of his own pocket. This is justice with a vengeance and the law was passed by his Liberal party led by Mr. Peters. What party prohibited any but registered or licensed men from practicing medicine for hire, gain or hope of reward, but still allowed unregistered men to practice if they made a charge, were they not as much in danger if they practiced without charge? But this is what we may expect, by having such men in power as we have at present. Who passed the clause that no person could be appointed as medical officer, physician or surgeon in any branch of the public service of this Province, or in any hospital or other charitable institution, unless he is registered? No matter though he is otherwise authorized as a doctor, he is prohibited from being appointed unless he is registered. So great is this medical combine that has been created by those wonderful so-called Liberals that are never tired of crying out "combine" at every public meeting that they attend and though the press, that they remind one of the late that cried out "stop the thief," to divert the people's attention from himself. So it is with this wonderful Liberal party led by Frederick Peters. What action did the Conservative Government take when this bill was brought before them? They refused to have anything to do with it, as they considered that it was an imposition on the people, and as "justice and fair play" to all has been long the inscription on the banner of the Conservative party in this Province, long may it remain.

One Who Has Felt the Power of This Combine.

OPERA HOUSE.

Friday, April 26th, 1895.

76th ANNIVERSARY, I. O. O. F.

The Oddfellows of this city have much pleasure in announcing the presentation, on the above date, of Gilbert & Sullivan's ever popular and charming Opera, entitled:—

H. M. S. PINAFORE.

The high hills of Orwell are now almost rid of their snowy burden, and the steaming land and sparkling river present a truly truly summer-like appearance.

C. M. B. A.

Lecture.

TELEGRAPHIC.

SPECIAL DESPATCHES TO THE EXAMINER.

PARLIAMENT OF CANADA.

Report of the Prohibition Commission.

Anticipations Concerning Prohibition Leisuroy.

OTTAWA, April 25. The report of the Prohibition Commission was presented yesterday. It is a voluminous document. The Commissioners summarize their work as follows: The enactment of a prohibition law for the Dominion would, in the opinion of the undersigned prejudicially affect the business, industrial and commercial interests of the country. The effect of the law on the Federal, Provincial and Municipal revenues from the prohibition of the traffic would be to practically wipe them out. The option conferred under the Scott Act, it can only be remarked, still remains the law of the country. It is the nearest approach to a general prohibition system that has been attempted, and that act has been repealed in 52 per cent. of the counties and cities which originally adopted it, and no new district has put the act in force since 1886. With the powers possessed by the various provinces to legislate in respect to the traffic, the prohibition would meet with determined opposition with an open frontier such as the Dominion possesses, largely bordering on the United States, in which the sale would be carried on, the undersigned consider that it is illusory to anticipate that a general prohibitory law could be enforced with any reasonable degree of efficiency.

Rev. Dr. McLeod, dissenting from the conclusions of the other members, will present a separate report.

Yesterday was private members' day in the House of Commons. Replying to Mr. Perry Hon. Mr. Foster said that no bill is now in progress on the Northernland Straits, but that negotiations were now in progress to have the work resumed.

Hon. Mr. Costigan answering Mr. Perry said that the Government had not extended the time for the payment of the lobster fishing fees.

THE DAIRYING INDUSTRY.

Prof. Robertson and Mr. Dillon Will Manage Factories, Old and New.

Rents to be Five Per Cent. on Cost of Construction.

OTTAWA, April 25. On the 19th inst communications were sent Mr. Dillon authorizing him to inform the presidents of the cheese factories in Prince Edward Island, old and new, that the Dairy Commissioner will manage the factories in 1895 on similar terms to those of 1894, with the difference that the rents paid shall not exceed five per cent. of the cost of the factories. This arrangement will absorb one-fifth of the total amount appropriated for dairying services in the Dominion.

Antiochi Purchased.

LONDON, April 25. It is reported that a French syndicate has bought the island of Antiochi, in the St. Lawrence River, from the liquidator of the old company.

Sir Hibbert's Illness.

OTTAWA, April 25. Sir Charles Hibbert, Tapper's condition is unimproved. He suffers severely last night from rheumatic pains.

Now is the time to buy—The price of boots has advanced about 15 to 25 per cent. J. B. McDonald & Co are selling at their usual low prices.

Clothing and Hats—Come and see us for men's and boy's clothing and hats sell very cheap for cash at J. B. McDonald & Co's.
