

THE DAILY EXAMINER.

AUGUST 19, 1887.

Editorial Notes.

It is said that at the recent election in LaPrairie county, P. Q., twenty-seven dead and absent electors recorded their votes for the Liberal candidate.

Quebec advices report that the new Provincial loan of \$4 millions has been floated at 3 1/2 per cent. premium, the Chemical Bank of New York being the successful tenderer.

At a recent meeting of the Halifax temperance league it was resolved to raise \$1000, as a guarantee fund, for the purpose of enforcing the liquor license law. Nearly one half of the amount has been already subscribed and paid in. This looks as though the temperance people meant business.

An Ottawa despatch reports that steps are to be taken next year to induce the city to grant a prize for competition at the Dominion Rifle Association matches there, similar to the London corporation prize, annually competed for at Wimbledon. Rifle men will no doubt appreciate the action.

A manifesto written in behalf of Prince Victor by Clement Deroyer, was read at all the Bonapartist banquets in Paris on the 10th. In it M. Deroyer says: "Prince Victor intends in future to be the sole chief of all the Imperialist committees of Paris and the different departments. Under his personal direction we shall achieve the concentration that is necessary to success. This policy is destined to restore the empire."

Water was struck in the second well at three mile run yesterday, at a depth of about twenty-two feet, and is now running at the rate of upwards of forty thousand gallons every twenty-four hours. The first well dug, on a second measurement yesterday, did not come quite up to the standard of the previous day. Mr. Trainor is now at work on another well in the same vicinity. Quite a number of prominent citizens have visited the locality during the past few days.

The Toronto Mail's London cable says that "correspondence is still proceeding between Sir Charles Tupper and Mr. Goschen, Chancellor of the Exchequer, regarding the Canadian Pacific subsidy. It cannot, however, be said at present whether any result will be announced before promotion. Mr. Goschen and all other members of the government evince great interest in the proposal, and frankly recognize the great exertion of Canada in making the trans-continental railway of such value to England.

An exchange says: "They have a new drink in Kansas, where prohibition is supposed to be in force, named claridge. It is called a temperance beverage and is not intoxicating, but it has a curious effect on the eyes, giving one moon the appearance of two, and it also affects the lower limbs in such a way as to make locomotion extremely difficult. It is believed to contain an oriental sleeping potion, as people who drink it seem willing to lie down anywhere and take a nap." We have lots of "temperance" drinks right here in Charlottetown which have exactly the same effect. Singular, isn't it?

Mr. Westgarth, in the course of an able article in the Colonies and India, makes comparison of the debts of the Australian and Canadian colonies, very much to the advantage of the latter. We quote: "Our Australasian group, which as colonies are but of yesterday compared, for instance, with the Canadian group, has, with its recent population of hardly yet three and a half millions, rushed already into a public debt of nearly one hundred and fifty millions (pounds) sterling, and appears to be still rushing on into fresh scores of millions with almost, perhaps altogether, the same speed as before. Our transatlantic Dominion, after a life of centuries, and with one-half more of population has only as yet about forty millions sterling of public debt."

Table with 2 columns: Province, Total. Rows include Nova Scotia, P. E. Island, New Brunswick, Quebec, Ontario, Manitoba, N. W. Territory, B. Columbia, Miscellaneous, and Total.

The reports of the famine in Labrador will require confirmation before they can be accepted as reliable. According to recent despatches to the American papers "50,000 people in Newfoundland and Labrador are in danger of speedy starvation, owing to the failure of the fishing season for three successive years, together with the summer droughts which have intervened. The situation could not be worse, and there is certain to be widespread starvation." The Newfoundland correspondent of the Montreal Gazette, writing on the 10th inst., tells quite a different tale. This is what he says: "There has been a marked improvement in the shore fishery since the date of my last letter; hook and line men, our most numerous class, have been doing well during the last fortnight. There is now no doubt that the bank fishery this year will be decidedly successful, and, as we have about 250 vessels engaged in it, its prosperity will be widely felt. Commenting on the foregoing the Gazette says: "From the Labrador fishery no late news had been received up to August 10th, but the last advices had been hopeful and no apprehension was felt. The crops have proved a partial failure through drought, it is true, but certainly there is no such failure as to justify the report of impending starvation."

Baptist Convention Notes.

As is known to many of our readers, the General Convention of the Baptist Churches of Nova Scotia, New Brunswick and P. E. Island will be held this year, in Charlottetown, commencing to-morrow at 10 a. m., in the Baptist Church edifice.

The Convention is the general and executive body of the denomination, and legislates for nearly 45,000 communicants in the three Provinces.

The different boards and committees of departmental work hold their annual meetings during the sessions of Convention.

The Governors of Acadia College held a preliminary meeting to-day, and during the session there will be several meetings of the Governors and senate of the University to arrange for the work of the ensuing year.

The history of this Institution, founded forty-nine years ago, has been one of uninterrupted success and prosperity, and the last year has been, perhaps, the most successful year in its history. The enrolled students in the full college course numbered 91, and a class of eighteen line young men graduated and received the B. A. degree in June last—a record which perhaps surpasses any college in the Maritime Provinces. The matriculation class which enters the College this autumn numbers thirty seven, and the full attendance probably 100. In Holton Academy, the preparatory institution of Acadia College, and under the management of the same Board of Directors, the number of students last year was ninety.

The Ladies' Seminary, which is also federated in University capacity, last year enrolled eighty-three students. The friends of the University claim that in all departments of a full arts course and liberal education its curriculum and work is unsurpassed by any institution in the Dominion.

Dr. Sawyer, a native of the United States and a graduate of Brown University, is President of the College, Professor Tufts is Principal of the Academy, and Miss Wadsworth, a graduate of Mount Holyoke Seminary, is Preceptress of the Ladies' Seminary, and in each Institution they are supported by an enthusiastic band of Professors and assistants. Prof. R. Von C. Jones, a native of P. E. I., has for many years occupied the most important chair in the College Faculty. Next year will be the fiftieth anniversary of the College and will be celebrated at Wolfville with jubilee ceremonies. A successful effort is being now made to raise a jubilee fund of \$50,000 to add to the present endowment of the College. We might also add that the commanding locations and handsome buildings occupied by the University of Acadia College at Wolfville, N. S., situated on the hills overlooking the Basin of Minas and the Grand Pre, made historic by Longfellow as the land of "Evangeline," is much admired by all tourists.

This evening the annual meeting of the stockholders of the "Maritime Baptist Publishing Company" will be held in the vestry of the Baptist Church. This Company was formed with a capital of eleven or twelve thousand dollars, for the purpose of publishing the Messenger and Visitor, which is the organ of the denomination. It is published at St. John, N. B., Dr. Goodspeed is Editor-in-Chief, and it has a paying subscription list of nearly 8,000. The Convention will probably continue in session during the greater part of next week.

There is a large and active "Ladies Missionary Union" in connection with the Baptist Convention. Last year it raised at least 25 per cent. of the foreign missionary funds of the denomination.

The Executive of the "Ladies Union" will meet at 10 a. m., to-morrow in the vestry of the Baptist Church. And the business meeting, for the election of officers and other business will be held at 2 p. m. at the same place.

Among the arrivals last night of the delegates to the Baptist Convention, we notice the names of B. H. Easton, Esq., Barrister, of Halifax, and President of the Convention; Dr. Sawyer, President of Acadia College; Rev. C. Goodspeed, editor of Messenger and Visitor, and Hon. Dr. Parker, M. L. C., of Halifax. The latter gentleman is the guest of Senator Carvell.

The Lyceum.

WILSON'S MINSTRELS gave their opening performance to a large audience last evening. The entertainment commenced with the regulation minstrel scene in which some good songs were sung and jokes cracked. Next came Mr. James Smith, the boneless wonder, who is an exceedingly clever contortionist, and who is apparently able to "let 'er go," where ever he has a mind to. Messrs. Falkes and Semon, in their comedy, "Mirth and Melody," appeared to good advantage, playing with much acceptance on a variety of musical instruments. Smith, Burke and Mantell, in their songs and dances, and Billy Bryant in his own creation, "Trouble," were very funny, the latter's song, "There's no place like home," tickling the boys immensely. Prof. Burton's Dog Show is alone worth the price of admission. The dogs are well trained, and show an intelligence almost human. Some of the smaller ones, dressed in female attire, came upon the stage and waltzed almost to perfection. Their high and long distance leaping was also good. The performance closed with a laughable after-piece entitled "Don't Notice it." Taken for all in all the company may be said to rank with the best minstrel and variety troupe that has visited us for some years. They, should, however, try to ring up at the advertised hour, and avoid a repetition of the preliminary proceedings of last evening, as well as let the audience home at least half an hour earlier. The performance will be repeated to-night, when those who can enjoy a good laugh should attend.

GAUDIN has challenged Teemer to row a three mile race in September for \$2,500.

A MONTANA correspondent, referring to the report published in a territorial newspaper that Gabriel Dumont was seeking to raise another rebellion, denies the whole story and says Dumont is living very quietly.

MESSRS. F. W. KISSMAN & Co., Gents: "I have sold your Adams's Botanic Cough Balsam over my counter for nine years, and I must say that during an experience of twenty-six years in the retail drug business, I have never sold anything for coughs, colds, etc., that has given such universal satisfaction as your Adams's Botanic Balsam. I recommend it above all others. Yours truly, S. C. C. Chester, 357 Myrtle Avenue, Brooklyn, N. Y. Trial bottles 10 cents. dy wy lw

The Scott Act.

THE MEETING IN THE Y. M. C. A.

At the meeting held last evening in the parlour of the Y. M. C. A. to consider the best course to pursue in the matter of the petition now being forwarded to Ottawa for the repeal of the Canada Temperance Act in this city, delegates were present from all the different temperance societies in the city and also a number of other prominent temperance workers.

On motion, S. W. Crabb, Esq., was appointed Chairman, and the undersigned Secretary.

A copy of the names attached to the petition were then presented and read by the Secretary as follows:—

The following resolutions were unanimously carried. Moved by Rev. Job Shenton, seconded by Rev. John McLeod:

Resolved, That this meeting do hereby endorse the Canada Temperance Act and resolve to vote against its repeal—as requested by the petition—and will do its utmost to sustain the Act in the approaching election.

Moved by D. Small, seconded by R. M. Barrett:—

Resolved, That a committee of twelve be now appointed to make all arrangements for canvassing and contesting the coming Canada Temperance Act election.

The following gentlemen were then appointed as the committee:—

David Small, Chairman, Geo. E. Full, S. W. Crabb, G. W. Millner, Rev. Job Shenton, Isaac Wadman, Rev. John McLeod, L. W. Goff, H. W. Anderson, Donald Farquharson, T. C. James, John Ross.

Committee to meet at the same place on Thursday evening, August 25.

Resolved, on motion that the minutes of this meeting be published, including the names as read by the Secretary.

Remarks were also made by Alex. McKinnon, W. L. Cotton, R. K. Brace, John Scott, Geo. W. Millner, R. M. Barrett, James McCoubrey and W. E. Dawson.
