

Dainty Pieces of Cut Glass

I am opening a collection of beautiful pieces, as sparkles as diamonds.

The assortment includes:—

Creams
Bonbon Dishes
Berry Bowls
Water Bottles
Sugar and Creams

A rare treat [for lovers of the beautiful.

W. W. WELLNER
 THE GREAT WATCH HOUSE

Mortgage Sale

To be sold at public auction, at the Court House, in Charlottetown, on Thursday, the tenth day of November, A. D. 1898, at the hour of twelve o'clock, noon.

All that tract piece and parcel of land, situate lying and being in the Common of Charlottetown, in Queen's County, in the said Island—being part of the Common Lot number twenty-two, and bounded as follows: Commencing on the South Side of Long Street, at the north east angle of a part of said Common Lot, recently conveyed to John Percival, thence southwardly along the eastern line of said John Percival's land, for the distance of eighty feet or till it strikes the north west angle of a piece of land of said Common Lot, formerly in possession of one G. V. Thence east along the northern line of said G. V.'s land, for the distance of twenty four feet, thence northwardly along the west line of Philip Coyle's land, by a line parallel to the said eastern line of John Percival's lot, seven feet seven inches and ten inches, or to Long Street, aforesaid, and thence westwardly a distance of twenty five feet or thereabouts, to the place of commencement.

The above sale is made under and by virtue of a power of sale contained in an Indenture of Mortgage, bearing date, the 8th day of October, A. D. 1874, and made between Douglas McKinnon, and Catherine McKinnon his wife, of the one part, and Philip Laing, of Charlottetown, of the other part.

For further particulars apply to the undersigned.

Dated this 26th day of July, A. D. 1898.

PHILIP LAING,
 Mortgagee

Charlottetown, July 26, 1898—w14ms

Always buying for cash we are able to offer Flour to our customers at the very lowest rock-bottom prices.

We keep in stock such well-known brands as Beaver, Monarch, Puritan, Five Roses, Queen City, and Parkdale.

See our prices before buying elsewhere.

Beer & Coff

SOIL HUMUS.

This important subject is treated of in Bulletin 32 of North Dakota station, which opens with the following statement:—

"The matter of humus in the soil is attracting the attention of all thoughtful farmers, and many are asking for information and how to prevent its loss, or how to increase soil humus. An attempt will here be made to explain what is meant by the term soil humus, and in what way its presence in the soil is beneficial. Our statements are based in part upon our own investigations and in part upon results drawn from data of other stations." A few definitions and explanations may assist in better understanding what may follow.

That portion of the earth that is cultivated for plant growth is the soil. It is made up of mineral and organic matter. The mineral consists of lime, potash, phosphates, iron, magnesia, aluminum and various other minerals of less importance. The organic matter includes everything that once existed as vegetable or animal matter.

Volatile matter consists of the moisture gases and organic matter, all of which can be driven off from a spadefull of soil by heating it or burning it.

Humus is that part of the organic matter in the soil which has partially decayed, such as leaf mould, rotten roots, and blades of grass, clover or peas. Rotten manure is rich in humus. Unrotted manure or green crops plowed in soon make humus by rotting down in the soil.

The opinion seems to be gaining ground that much of the available plant food is the portion in the humus, and as the humus increases in the soil the potassium, phosphoric acid and other mineral products existing in the soil in insoluble forms not suitable for plant food are taken up by the humus to form new compounds better suited to nourish the growing plants.

In eight determinations of North Dakota soils, 41 per cent. of the phosphates were found in the humus, and the proportions ranged from 10 per cent to 81. Of the nitrogen from 46 to 80 per cent of the total was found in the humus, and on an average 61 per cent.

What becomes of this nitrogen when the humus is destroyed by decay. It goes back into the atmosphere, or is washed into the rivers, and so carried out to the ocean. In these ways five pounds of nitrogen are lost for every pound used by the growing crops.

If then, the mineral matter taken up by the plants and the nitrogen are drawn largely from the humus of the soil, it will be seen how important it is to maintain well the supply of organic matter in the soil, that it may be transformed into humus as needed by the plants under cultivation. Continuous wheat-growing is a process destructive of humus and of all organic matter in the soil. Not that the wheat uses up such large quantities, but, under conditions of wheat-growing as generally practised in this state, the soil is a gradual decay of organic matter, nitrification under these conditions being very rapid, and the products escape as gases go into the air and are washed out of the soil, or in case of the mineral products, phosphates, etc., they combine in such forms as to be no longer readily available for feeding the plant.

An acre of soil to the depth of one foot weighs about 3,225,000 pounds or 1,600 tons, and some soils as much as 1,800 tons per acre. Experiments have shown that soils containing the most humus hold the most moisture, are warmer, looser, mellow, most easily worked, and most fertile.

Following is a summary of this important bulletin on soil humus:

1. By twenty years of wheat-growing from 40 to 60 per cent of the organic matter of our soils have been lost.
2. For every pound of organic matter that has gone to furnish its nitrogen to wheat five pounds have been lost.
3. Many of our soils that originally contained from 8,000 to 10,000 pounds of nitrogen per acre to the depth of one foot now contain from 3,000 to 6,000 pounds.
4. By the loss of humus our soils have become less retentive of moisture, and give it up by evaporation sooner than when they were well supplied with humus.
5. Bare summer fallowing and burning of the wheat stubble destroys large quantities of organic matter and humus.
6. To keep the supply of humus in the soil we must imitate nature and grow for the present at least one year in five a grass crop on our land.
7. By keeping up the supply of humus in the soil, the crops will feel the effects of drought less than in soils pure in humus.
8. Clover would be an ideal crop to maintain the humus in the soil and to aid in collecting nitrogen from the air, but any grass will serve the purpose of supplying humus.

Egypt's Rights

LONDON, Oct 25—An additional Blue Book, issued yesterday, contains interesting letters from Moustapha Fehey, the regent of Egypt, to General Kitchener, and Lord Cromer, the British diplomatic agent, respectively, showing Egypt's attitude. He wrote to General Kitchener, warmly thanking him for taking possession of Fashoda, and thereby reconquering for Egypt the provinces which assure her existence and from which she only retired provisionally.

The regent in writing to Lord Cromer protested against "the French violation of Egyptian territory," and maintaining that Egypt had never lost sight of the re-occupation of the provinces of the Soudan, which are the actual sources of the vitality of Egypt, and from which she only withdrew owing to "force majeure." He also said that the reconquest of Khartoum would fail to have its effect if the valley of the Nile was not restored to Egypt.

Moustapha Fehey concluded with referring to the Anglo-French discussion on the subject of Fashoda, urging Lord Cromer to use his good offices with the Marquis of Salisbury, "in order that the incontestable rights of Egypt may be recognized and that all the provinces occupied up to the rebellion of Mohammed Ahmed be restored to her."

MAN'S THOUGHTLESS INHUMANITY.

To His Stomach, Causes Untold Suffering and Misery.

But Dodd's Dyspepsia Tablets Restore the Health and Strength the Creator Gave—They Cure all Stomach Diseases Except Cancer.

A tired weak worn-out stomach makes a man a crank, a woman a scold, and life a misery.

You should not know that you have a stomach. If it is healthy and strong you don't know it, for it will never trouble you.

There is no wonder that the stomach so often wears out. From our earliest childhood we persistently abuse it, and overwork it.

We sicken it with "candies"; freeze it with ice cream; parboil it with scalding hot

Good Advice.

Life is short and full of care and sorrows for one to be the cause of adding one feather's weight of trouble to another's load. Will Carseton, the poet, in the "First Settler's story," we believe it was, makes the old man say, in speaking of his wife, that she used to stand around and boss the job, and by her kind words lifted whole tons. Kind words have the same effect the world over. They lift a fellow out of the slough of despond; they break the stiffened, set features of the worried into a pleasant, hopeful smile. And how much better it is to cultivate the habit of treating everyone as though a time would come when we should lay down the mortal form; and to leave behind a character and reputation of fairness, truth, and honor is the most enduring of riches.

NOTES AND COMMENTS.

—The Guardian remarks that per capita and per capita always figure in the minds of great financiers when they desire to make a big debt appear smaller than it is." Is this a hint for Farquharson and Fielding?

CHEAP EXCURSION TO MONTREAL AND POINTS IN ONTARIO.—Cheap fall excursions have been arranged from Charlottetown to Montreal and return at the rate of \$10.95, to go October 19th to 21st, and 26th to 28th, tickets to be good for return passage within fifteen days from date of sale; also, to points beyond Montreal, October 26th to 28th, tickets good for return within 21 days from date of sale, at the following rates, viz: Cornwall \$13.10; Ottawa \$14.45; Prescott \$14.65; Brockville \$15.05; Kingston \$16.60; Belleville \$18.00; Peterboro \$19.00; Lindsay \$19.80; St. Catherine \$21.95; Niagara Falls \$22.35; Toronto, Hamilton, Guelph, Galt, Brantford, Woodstock, London, Ingersoll, St. Thomas, Stratford, Glencoe, Chatham, Windsor and Sarnia, \$20.95 each. Ask for your tickets for, make sure they read via the Canadian Pacific Railway from St. John N. E. Train leaves Charlottetown at 6.30 a. m., making 7 hours quicker time to Montreal and 12 hours to Toronto than via any other line.

Help is wanted when the nerves become weak and appetite fails. Hood's Sarsaparilla gives help by making the blood rich and pure.

The Ottawa and Parry Sound railway during the season of navigation just closed, carried 12,000,000 bushels of grain and one hundred thousand tons of flour, glucose and pork from Parry Sound via Ottawa to its American line.

An important innovation in the English mail service is announced by the post office department. Hereafter any steamer may carry the mails, but unless specially subsidized they will not receive compensation for the service.

The Dorchester penitentiary register now totals 259,244 males and 6 females, of which Nova Scotia claims 150 New Brunswick 50, and P. E. Island 50."
