

A Leap Year Vision.

Can I forget that winter night
In eighteen eighty-four,
When Nellie, charming little sprite,
Came tapping at the door?
"Good evening miss," I blushing said,
For in my heart I knew—
And, knowing, hung my pretty head—
That Nellie came to woo.

A Picturesque Canvass.

HOW THE CAMPAIGN IN WOODSTOCK WAS CONDUCTED BY THE LADIES.

The most picturesque canvass for parliamentary election that has been made in England for a long time was in progress at Woodstock over the question whether Lord Randolph Churchill should be re-elected or should give way to Mr. Corrie Grant, the young lawyer whom the Liberals sent down from London to oppose him. It was a ladies' battle on both sides. The canvass was begun by Lady Randolph Churchill last Saturday evening by driving a tandem team through the main streets of the picturesque old town, with the skill and grace to be expected of the daughter of the founder of Jerome Park. The Liberals quickly resolved to meet their fair adversary on her own grounds, and secured the services of Misses King and Adams, two lovely young graduates from Oxford. The delightful canvassing of the girl graduates soon captured the populace, and the Tories began to give way. Lady Randolph Churchill lost none of her courage and energy, but saw that something must be done to offset the influence of the pretty girls from Oxford, and she summoned reinforcements. She obtained two charming lieutenants, Lady Evelyn and Lady Edith Curran, young daughters of Lord Howe, and sent them forth to dazzle the electors. The latter got more and sweeter blandishments than they ever dreamed of before, and were in a dilemma as to which of their suitors to favor. The result was Lord Randolph Churchill was elected by one hundred and twenty of a majority.

Fearful Rate of Mortality.

The vital statistics of London show a fearful rate of mortality among insured infants. The books of the insurance companies show that the death rate among infants who are insured is much greater than the general death rate for the same ages as published in the government reports. The latter includes both the insured and the uninsured infants. If the two classes could be separated in the official reports so that they could be compared, it is believed it would be shown that the mortality among the insured is 50 per cent. greater than that among the uninsured. These facts strengthen the suspicion into conviction that many infants are deliberately murdered for the sake of the insurance on their lives. Medical and legal newspapers are imploring parliament to devise some remedy for the growing and horrible evil.

HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needed for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unequalled success can be attributed to one cause: the entire fulfillment of its promises. The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction. The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dandruff, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.
