AIR WAR STEPS UP AS RED GROUND DEFENCES STIFFEN

Issues Reviewed By Postmaster General In Speech Last Evening

"We believe in fighting inflation, if possible, without cumbersome controls," said Hon. Edouard Rinfret, Postmaster-General of Canada, in defending the Liberal Government for not imposing restrictions on rising costs. Mr. Rinfret was speaking at a Liberal rally held in the Empire Theatre last night in support of the party candidate, Mr. Cecil Miller.

Hon. Edouard Rinfret

Mr. Rinfret said the Government wanted to curb inflation by means of checking credit, added production, increasing trade in world markets, lowering trade barriers and developing natural resources. In one of the most fiery, hard-hitting political speeches heard here for some time the Postmaster-General attacked the lack of Progressive Conservative policy in Ottawa and took particular exception to recent news despatches crediting Mr. W. Chester S. McLaure, P. C., M. P., for Queens, with obtaining or helping to obtain various improvements.

He flatly stated that after a complaint made by a local paper regarding mailing charges under new provisions of the Postal Act, a meeting had been arranged by Liberal members both of this Province and the other Maritimes. "Mr. McLaure had nothing to do with it," said the Minister, "he didn't even phone me about it, but he took the credit in the papers."

Mr. Rinfret remarked that "someone else is in town tonight saying what he would do if he were in power. There is an unavoidable fact in that he is not in power, and if I am to judge by the result of the last

Coming Events

- *Rollo Bay Picnic, Wednesday, July 18th.
- *Annual Meeting at Churchill Church, June 27th, at 8 P. M.
- *Show, "Ablene Town" at Bonshaw tonight at 8.30.
- *See Hope River Players present their play in Cavendish Hall Monday, June 25.
- *See Kinkora Players in Wiltshire Hall, Friday, June 22nd. Dance after.
- *Come to the social at Long River Monday, June 25. Home-made ice cream and bazaar.
- *Pantry Sale to be held at John MacDonald's Store, Melville, June 25th. Auspices Melville W. I.
- *Cake sale S. A. MacDonald's, Saturday, June 23 at 2 p.m. St. John's Auxiliary.
- *Dance, St. George's School, Friday, June 29th. Turner's Orchestra.
- *You will enjoy the music and folk dancing at the Cornwall garden party, Thursday afternoon and evening.
- *The Salvation Army Officers and Band will conduct a church service at Dundas next Monday, June 25th at 8.30.
- *For Snapshots that will not fade mail your Films and Negatives to Garnham Photo Studios, Charlottetown.
- *Kingston Y.P.U. will present their 3-act comedy "A Pair of Country Kids" in French River Hall June 28.
- *Be sure and come to North Wiltshire hall, Monday, June 25, and enjoy a good evening's entertainment when Summerside will present their 3-act play "Hurricane Harriet". Sale of cakes.
- *Dance, St. Peter's Legion Hall every Monday night from 9.30-1.00. George Chappelle and his Merry Islanders. Admission 50 cents.
- *Federation of Agriculture Meeting, Lady Fane School, Monday, June 25th at 8.30 P. M. J. L. Dewar, Secretary.
- *See Hazelbrook B. Y. P. U. present their two one-act plays and various specialties in Eldon Hall on Thursday, June 28th. Sponsored by Eldon Women's Institute.

84th Annual Baptist Ass'n Meeting Opens

The eighty-fourth annual meeting of the P. E. I. Association of the United Baptist Church commenced yesterday at North River. The meetings are under the direction of Mr. H. McPhail, vice-moderator of the Association.

The meetings were opened with prayer and the minutes of the last gathering were read and accepted. Committees were appointed for nomination of officers and for resolutions.

A report of the "New Advance Campaign" was given by Rev. J. D. Davison, Charlottetown, which showed that about one half of the objective has been realized. This was followed by a report on the Bible School at Moncton; given by Rev. C. A. Britten of Central Beauce. The reports of the Western Missions was given by Rev. C. O. Howlett of O'Leary, and Church

*Dance, Lorne Valley, Tuesday, June 26th.

*Pantry Sale, Parkdale Sunday School, Holman's, 2.30 P. M. Saturday, June 23rd.

*Dance in Vernon River Hall, June 27th. Millville Orchestra. Canteen service.

*Dance every Tuesday night, Stanley Bridge Rink Hall. Music by George Chappelle's Merry Islanders.

Alberton Druggist Heads Association

Mr. Douglas Nicholson, Alberton druggist, was elected president of the P. E. I. Pharmaceutical Association as members from all over the Province gathered at the Queen Hotel here in annual session this week.

Other officers elected were vice president, J. E. H. Worth; secretary registrar, R. H. Jenkins; treasurer, Roy Boates. Members elected to the Council were R. E. Giggey, H. W. Wedge and E. P. Foley.

During the meeting four candidates as Registered Pharmacists were presented with their diplomas by Mr. Nicholson who briefly addressed them on behalf of the Association and welcomed them as members. The four men were Lee Semple, Kensington; Clark Cantwell, Charlottetown; Cyril Johnson, Montague; and Ray MacKinnon, Tignish.

While the business sessions were in progress the wives of the druggists were entertained by Mrs. H. Worth at her summer home, "Inwood", at Stanhope. Transportation for the guests was supplied by Mrs. Worthy, Mrs. R. H. Jenkins, Henry Morrison, Gordon See, Earl Howard and Jack Doyle. On their return they were further entertained at a party at the Queen Hotel prior to the annual dinner of the Association.

At the latter function the new president, Mr. Nicholson presided and introduced the guest speaker, Hon. A. W. Matheson, Minister of Health and Welfare. Mr. Matheson spoke briefly in congratulating the members on the healthy state of their association and offering his best wishes to the new druggists.

Just before the end of the meeting the Association named four delegates to attend the convention of the Canadian Pharmaceutical Association being held in Calgary, Alta., August 17 to 21. The delegates appointed were E. P. Foley, Summerside; J. E. H. Worth, R. H. Jenkins and Roy Smallman, all of Charlottetown.

Letters were read by Rev. Britten. A hearty welcome was extended to the delegates to North River district by Rev. H. Barber, and Rev. Davison gave the response.

The morning session closed with a devotional period led by Lic. S. Holmes of Dundas, and after a hymn and prayer Mr. Holmes delivered a very fine address from the Gospel of St. Mark 6. In his talk he stressed the great need of God's people getting alone with God.

The afternoon session was opened with prayer by Lic. Bruce Moore of Montague, and Rev. W. G. Killam acted as Moderator. A devotional period was led by Lic. T. L. Poole of Hazelbrook, and after a hymn and prayer, Mr. Poole brought a short address from the Gospel of St. John 15, based on the need of "Abiding in Christ."

Reports were given on Social Service and Baptist Federation by Rev. W. A. Harper and Rev. J. D. Davison.

A forum on "The World's Council of Churches" was presided over by Rev. Davison with Rev. Harper and Rev. Killam of Tryon taking part. This forum proved to be very enlightening on this subject.

The evening service was in charge of the Young People of the Association, and was opened by prayer from Rev. C. Howlett. The Young People of Hazelbrook were in charge of the devotional period led by Mrs. Bob MacKinnon. Mrs. Henry Jenkins read the scripture and Mrs. K. Payne and Miss S. Jones sang "Have You Any Room For Jesus?" Mrs. McKinnon then read the story of "Mary Jones and her Bible."

Bruce Stewart Co. Under New Management Plans Expansion In Activities

Expansion both in facilities and employment here are planned by the new owners of the firm of Bruce Stewart Ltd., the controlling interest in which was recently acquired by representatives of Ferguson Industries of Pictou, N. S. There will be little change in the policy of the past, but some lines carried in former years which proved unprofitable will be dropped because the owners feel they were foreign to the nature of their business. However new and allied lines will be added.

Wherever possible Island labor will be employed as the owners feel there is a great source of skilled and semi-skilled labor on this Province. At present they are employing many Islanders in permanent positions in their Pictou plant.

For many years past the Pictou firm has had to buy all its castings, but in future they plan on making them all here, both brass and cast iron, as a means of greatly increasing the volume of business of the local plant.

A completely new Board of Directors was named at a reorganization meeting held in the office of Bruce Stewart Ltd. here yesterday morning. Elected president was Allan A. Ferguson with his brother, James B. Ferguson, as vice-president. Both are from Pictou. Also named to the Board were Messrs. T. R. Ferguson, Pictou; H. E. MacDonald, Pictou; H. J. Egan, Halifax; and D. K. MacDermid, Charlottetown, is the secretary treasurer.

The new president and his brother are both university men, graduating from McGill in mechanical engineering. James took his degree in 1935 and Allan in 1931. Both had attended Dalhousie University prior to going to McGill.

They stated that there would be some minor changes in the present staff and perhaps in the near future a general manager will be appointed. They do not expect to be here personally for the present at least.

The brothers frankly state their interest in a marine slip as providing greater facilities for repairs to ships, and it was reported that they discussed the matter with Premier Jones while they were here. No decisions were reached so far as is known.

The issue of the Charlottetown federal building came before the Commons on Public Works estimates when Mr. Black asked why the vote for this proposed structure had been cut from \$500,000 in 1950 to \$150,000 this year.

Mr. Fournier said negotiations about the site had been "a long drawn-out affair." Settlements had been reached with approximately 25 different owners of properties at the site, against whom appropriation proceedings had been taken. Some differences on value between the Works Department and the former owners are still not completely settled, he said.

"If conditions return to normal," he promised, "we shall certainly proceed with the building."

Amount spent so far by the Federal Government to acquire properties for the site of the Charlottetown building is \$266,196, the Minister said.

planation even if the member for Queen's had not suggested the question. We are close personal friends and I would not deny him any information.

Fire Bombs Used Against Allied Troops

TOKYO, June 23—(Saturday)—(AP)—Communist planes grew bolder and Red ground defences bristled north of Seoul Friday. A new Red air raider made a frontline rocket attack today (Saturday).

The developments accented reports that the Communists were getting ready to launch a new limited offensive June 25, first anniversary of the Korean war.

Field dispatches reported a marked stiffening of Red defences in a 50-mile arc north of Seoul where the Reds huddled back an Allied armored spearhead and threw up a heavy artillery barrage.

This brought Red losses in five days to 11 destroyed, one probably destroyed and 17 damaged. Allied losses acknowledged for four of the days were three fighters, with none reported for Friday.

Red planes also became bolder far south of the Manchurian border.

A Red plane bombed Seoul and its airport Friday. The Pyongyang radio said the bomber hit an Allied truck convoy and the Seoul railway yards. Seven freight cars were set afire, the broadcast said.

Two bombers dropped fire bombs and also rocketed and machine-gunned Allied positions for two hours early Friday near Chorwon. At 1.30 A.M. today (Saturday) a plane fired two rockets in the Chorwon area.

The pre-dawn attacks Friday marked the first reported Red use of fire bombs against Allied troops. The raiders pressed the attack by the light of parachute flares of fire intense Allied anti-aircraft fire.

Surface showings and gas and oil seepages seem to indicate that in commercial quarters oil will eventually be found somewhere in the Maritime area. Mr. John R. White, executive vice-president of Imperial Oil stated last night at a dinner meeting during the Maritime regional conference of the Junior Chamber of Commerce at the Charlottetown.

Gas and oil seepages have been found in Nova Scotia, New Brunswick, The Gaspé and New

results, or perhaps the lack of results, a great deal more money and effort may be needed before the area is thoroughly evaluated, he added.

The work to date has involved about 167 exploratory wells in various parts of the 30,000 square miles of Maritime territory which are regarded as possible productive oil land. Only one well has been found and that near Moncton, in the Stoney Creek field, which is Canada's second oldest producing oil and gas area in which 38 gas wells and 23 oil wells are still on production.

"Very Reluctant" Mr. White stated that the geology of the area seemed very reluctant to give up its oil. For example he pointed out that the Stoney Creek formations which lie at a depth of from 1,000 to 3,500 feet were not encountered in Canada, he stated, as the drilling went to nearly 15,000 feet.

He stated that geologists do not believe that large fields such as those found in Alberta will ever be found here. He pointed out that Maritime geology is quite similar to that of North Germany where 28 small oil fields have been discovered.

"However Maritime economies are much more favorable than Maritime geology," he continued. "It would be comparatively easy to bring Maritime oil to a refinery market if oil should be found. For these reasons you may be sure that oil men will continue to comb the prospective oil lands in this part of Canada."

Strong Appeal Made By Opposition Leader On Mr. MacLean's Behalf

The Conservative policies of contributory old age pensions at sixty-five without a means test, and of equitable distribution of industry and production to all parts of Canada, were emphasized by Hon. George Drew, Leader of the Opposition in the House of Commons, in addressing a large audience in the Prince Edward Theatre last evening in support of Mr. J. Angus MacLean as candidate for the Party in Monday's Federal by-election.

Mr. Drew's forceful address included several references to a recent speech by Premier J. Walter Jones in support of the Liberal candidate, which he had read in Friday's Guardian and from which he quoted extensively.

Other speakers at the meeting were Mr. George C. Nowlan, M.P., Mrs. Joan Jenkins Storey, M.P., J. Angus MacLean, and Mr. W. Chester S. McLaure, M.P. Mr. A. J. Haslam, president of the Progressive Conservative Association for Queen's, presided.

Mr. Drew noted that Premier Jones, in his speech, had pointed out the things which had not been done, and should be done, for Prince Edward Island. He had instanced the failure to obtain an adequate share of the national defense programme and other matters. He had then gone on to discuss the qualifications for a representative in Parliament.

"Will he be effective at Ottawa?" the Premier had asked. "Will he be attentive to what the voter wants done? Will he remember to keep in close touch with his constituency? Will he ever be able to reach a cabinet position or even that of a Parliamentary assistant? Above all will he study and learn our needs and present them in committees, in caucus, and on the floor of Parliament?"

"I think that it is an excellent set of questions," Mr. Drew continued. "I have known Angus MacLean for several years and I can say that he fills every one of those requirements perfectly!"

There was, however, a reservation in the Premier's speech. He had gone on to say that he was not underrating Mr. MacLean's ability, but that it would be fu-

Oil Possibilities In Maritimes Discussed

For these reasons you may be sure that oil men will continue to comb the prospective oil lands in this part of Canada."

S' side Planes In Air Exercises

Yesterday, the first day of the air exercises being participated in by aircraft of the United States and Canada, fighter pilots of No. 438 City of Montreal reserve fighter squadron training at R.C.A.F. Station, Summerside, were able to mark up a score of two attacking planes shot down.

The first was by S/L Pierre Leocq, second in command, who at 7.30 a.m. yesterday intercepted a B.O.A.C. Stralocruiser. Another interception took place later on in the morning which is credited to S/L Charles Hurtubise, one of 438 Squadron flight commanders and F/O. Jean Perodeau. They both at the same time spotted an American C-54, approached it, identified its number and came back to their base to report the "destruction" of the aircraft.

The air defence exercise kept the pilots of the French speaking squadron busy since five o'clock yesterday morning. Two Vampire aircraft kept patrolling constantly in the air while two others waited at the end of the runway, ready for any emergency. The exercise is considered to be excellent for the training of the pilots who with the help of the other squadrons involved in it, hope to be able to intercept "enemy" bombers, expected to show up, through the weekend.

The exercise will continue through the weekend.

Oil Possibilities In Maritimes Discussed

Surface showings and gas and oil seepages seem to indicate that in commercial quarters oil will eventually be found somewhere in the Maritime area. Mr. John R. White, executive vice-president of Imperial Oil stated last night at a dinner meeting during the Maritime regional conference of the Junior Chamber of Commerce at the Charlottetown.

Regional forecasts: Prince Edward Island: Cloudy. Occasional showers in afternoon and evening. Little change in temperature. Light winds. Low and high Saturday at Charlottetown 55 and 74.

Outlook for Sunday: Cloudy.

Federal Building Project Shelved For The Present Says Minister Fournier

OTTAWA, June 22—(Special)—An architect's sketch, published in The Guardian last summer, is all that has been accomplished in planning the proposed federal building in Charlottetown. Detailed plans for the structure have just not yet reached the draughting boards of the Public Works Department. Nor has anything been done to prepare specifications for the building.

This was revealed late last night in the House of Commons by Public Works Minister Fournier, with all Prince Edward Island members absent from the chamber. Absence of planning for the Charlottetown building was not the only bad news Mr. Fournier had for Prince Edward Island's capital. He announced that owing to the shortage of steel he did not know when work on the building would get under way.

The Minister made these statements in reply to questions asked by P. C. Black, Progressive Conservative member for Cumberland, on behalf of W. Chester S. McLaure, Progressive Conservative member for Queen's.

"I do not think we could get the steel to erect the building," said Mr. Fournier. I do not know how many contracts are being held in the office because we cannot get the steel.

"I would have given this explanation even if the member for Queen's had not suggested the question. We are close personal friends and I would not deny him any information."

"Are any plans prepared for the building?" queried Mr. Black. "M...m," replied the Minister. "I would hesitate to give a date when the plans can be completed. I would be afraid I would make a mistake."

The issue of the Charlottetown federal building came before the Commons on Public Works estimates when Mr. Black asked why the vote for this proposed structure had been cut from \$500,000 in 1950 to \$150,000 this year.

Mr. Fournier said negotiations about the site had been "a long drawn-out affair." Settlements had been reached with approximately 25 different owners of properties at the site, against whom appropriation proceedings had been taken. Some differences on value between the Works Department and the former owners are still not completely settled, he said.

"If conditions return to normal," he promised, "we shall certainly proceed with the building."

Amount spent so far by the Federal Government to acquire properties for the site of the Charlottetown building is \$266,196, the Minister said.

Passamaquoddy Project Survey Urged By Jaycees

The Maritime Junior Chamber of Commerce in session here yesterday passed a resolution urging the Federal Government to co-operate with the United States in making a survey of the proposed electrical power project on the Passamaquoddy River between Maine and New Brunswick.

The resolution was passed at the afternoon session as the members swung through the second day of their three day regional convention being held at the Charlottetown. The convention concludes today.

The resolution was unanimously agreed upon after considerable discussion had taken place. The facts of the matter were presented by Mr. Gary Boyd of St. Stephen.

Yesterday's activities got underway with a business session in the morning followed by a noon luncheon. The members returned to their business in the afternoon and held a dinner meeting at seven o'clock. A ball in the Hotel last night concluded activities for the day.

Maritime President, Mr. Lester J. Archibald of Halifax presided over the dinner meeting and Mr. Robert Younker of Charlottetown presided

over the luncheon. Mr. Thomas Fairbairn of Ottawa was guest speaker at the luncheon and Mr. J. R. White, Toronto, Executive vice-president of Imperial Oil Co., spoke at the dinner.

Well over 100 delegates and their partners were present for the mammoth dinner meeting. Mr. Archibald and visiting delegates were loud in their praise for the excellent preparations which general chairman, Mr. Jack Morris and his local chairman made for the convention.

Mr. John R. White

foundland, he stated. These surface showings have been drilled and further showings of gas and oil have been discovered in the wells, none of which have proved commercial.

A total of approximately five million dollars has been spent by the oil industry in search for oil in the Maritimes and Gaspé, Mr. White explained. Judging by the

Inserted by the Queen's County Progressive Conservative Party.
