

Plans to Revive Policies Shot in Arm

GENEVA (Reuters) — The seven-nation European Free Trade Association was reported Sunday to be planning to give its trade policies a shot in the arm to keep pace with the rival six-nation European Common Market.

The plans were expected to come up for discussion today at the first ministerial meeting of the EFTA since France vetoed Britain's bid to join the Common Market.

Many EFTA countries believe the trade group now should adopt an overall program on agriculture and industrial goods.

Such a program would replace the current EFTA policy of piecemeal 10 percent tariff cuts in favor of accelerated tariff cuts covering wide sectors of the economy.

Meanwhile, Austrian Foreign Minister Bruno Kreisky confirmed today that Austria would still seek associate membership in the Common Market despite Britain's failure to gain admission.

Although Austria is an EFTA partner, more than 50 per cent of its trade is with the Common Market, compared with about 15 per cent with the other six EFTA nations — Britain, Sweden, Norway, Denmark, Portugal and Switzerland.

Time's said to Hand For New Constitution

MONTREAL (CP) — The time has come to write a new Canadian constitution and to stop talking about saving the old one, Union Nationale leader Daniel Johnson said Sunday.

He said attempts to save the Canadian Confederation have been made for 25 years, and always with results that have been only partially successful.

Politicians who talk about recognizing the equal right of Canada's two nations and who promise to renegotiate the fiscal powers of the federal and provincial governments are only "trying to put the electorate to sleep," Mr. Johnson told a regional meeting of La Presse Etudiante Nationale, the French-language university press association.

Confederation had worked well in its first 50 years, but two wars and the depression of the 30s had weakened the trend towards centralization of power in Ottawa and towards sociological integration of the French and English. Since the Supreme Court of Canada had become the last court of appeal instead of the Privy Council, there was no further recourse beyond Ottawa.

He praised the Privy Council as having upheld the spirit of Confederation. But to-day, he said, Confederation has reached its limit.

British Productions Given Broadway Raves

By WILLIAM GLOVER
NEW YORK (AP) — More and more this season, Britannia rules the raves on Broadway.

A half-dozen widely assorted imports from London are among the dozen big box office sensations, and English actresses top several domestic plays. Three major show arrivals within the next few weeks star Shaftesbury Avenue affairs.

Only a single overseas show entry succumbed to the transatlantic malaise that has recently stricken such ventures on a C.F. Snow novel, garnered a generally favorable set of critical notices but failed to galvanize the public.

The hit parade includes Beyond the Fringe, topical review; "Oliver" and "Stop the World—I Want to Get Off," musicals; "The School for Scandal," classic revival; and "The Hollow Crown," a panorama of the de Witt Light and despairs of royalty. A well-received late addition to the list is "Photo Finish," a contemporary comedy.

KINGSTON STAR
The performing art includes Sir John Gielgud, Sir Ralph Richardson, Max Adrian.

Pugwash Plant Begins Output

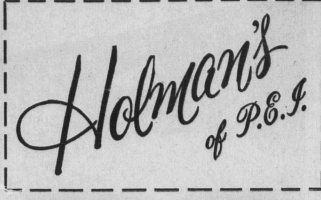

MONTREAL (CP) — The Canadian Salt Company Limited announced here Saturday that production has started at its new \$6,000,000 salt refining plant at Pugwash, N.S.

The plant, with an annual production capacity of 100,000 tons, is the first of its kind built in Canada since 1948.

It will produce a complete range of evaporated salt products for the Atlantic provinces and central Canada and for export to South America, the West Indies and Europe.

The site has extensive storage and shipping facilities including a harbor and marine terminal.

DEVISED BRaille
Louis Braille of France introduced his touch system of reading for the blind in 1848.
