The Borings.

SENATOR HOWLAN left Charlottetown today for the Cape, to be present at the borings. The engineering staff in charge of the survey is composed of Messrs. Palmer, Rose and Shewin. We are glad to learn that Mr. Bain has been appointed geologist for the survey. Four experts in boring have been employed; and about ten additional men will assist in the work. The borings will be made by means of two sets of steam drills costing $10,000 each. The bottom of the Strait will be pierced on the proposed line of the tunnel at equal distances of five hundred yards to the depth of sixty feet, and there will be two borings—one on either side of the Strait—to bed rock. The exact position of the line and all the borings will be fixed by resort to trigonometry; and the core of each boring, showing a section of the strata, will be carefully preserved under direction of the geologist.

There is now no political election on the *tapis*. The dupes of the Opposition in this Province will, perhaps, now begin to think that the Government "mean business." Senator Howlan has had a hard struggle in the face of all the obstacles in the way of his great undertaking—not the least of the obstacles being the four Opposition Grits whom the little majority here sent to Ottawa to thwart his every movement. That he has been successful, under all the circumstances, in bringing the matter to the point at which it will be definitely settled whether the P. E. Island tunnel is to be or not to be, is the best evidence in the world of his sincerity, his ability and his indomitable perseverance. We must all hope that the borings will confirm Mr. Bain's report. But in any case, the lie has been given, in a practical way, to the Grit contention that the tunnel agitation was maintained by Senator Howlan and the Government only to do service at elections.

Who is to Blame?

THE greatest achievement of our present Minister of Public Works is the placing of water-closet accommodation in the Provincial Building. It was boasted that the genius of the wise man from the east had contrived a means of abating the nuisance of which this building has long been the seat. But it appears that the boast was premature. The smell is reported to be worse than ever in some of the offices, the odors exhaled from the nest of closets being, at times, abominable. It is said that, at a recent hearing in the small, ill-ventilated Chamber of the Judge of the County Court, one of the barristers in attendance was made ill by the sickening smell, and that the lives of the officials in the vicinity of the closets is in constant danger. It remains to be shown whether the architects who made the plans for the water closet are to be blamed for this foul and unsatisfactory result of the Minister's boasted efforts and his lavish expenditure of the people's money, or whether the contractors were, in the exigencies of politics, permitted to depart from the plans. This is an important matter—particularly for the officials whose lives are endangered by the nuisance.

Another Lame Excuse.

THE Patriot's article of yesterday regarding the muddle in the Land Office does not help the Government in regard to the shortage. Boiled down, the organ's plea is that Messrs. Arnaud and Carvell found errors in the Township Ledgers, and that these errors were not corrected by the late or present Government. Just so. If these errors were corrected, and an amount added to or deducted from the personal balances on account of them, the amount so deducted would reduce the shortage. But the Patriot admits that Mr. McMillan has not corrected these errors, and therefore there is nothing to deduct.

In a word, Mr. McMillan has to account at the end of each year for the face value of the ledger balances whether they are right or wrong. Any error, by which the balance was unduly swelled, and which was discovered last year, would appear in the deductions and allowances.

What will be the next plea?

Notes and Comments.

—When Mr. and Mrs. Leonard were crossing the dilapitated Hermitage Bridge a few days ago in their carriage, the horse broke one of the rotten planks and fell, breaking both shafts and otherwise damaging the vehicle and severely injuring Mrs. Leonard. This is a sample of the practical results of the present administration of our public works department.

—Complaint is made that some of the farmers about Rice Point allow lobster bodies to remain above ground to become a nuisance to the neighborhood. We have noted that this bad practice is too prevalent in other parts of the country. Lobster bodies and all such offal should be at once ploughed down. When they are permitted to decompose in the air much manurial value is lost and the health of the people in the vicinity is menaced.

The fruit crops in the south of England have been greatly damaged by a terrific storm.

Nothing like 'em in town. We place on sale the finest line of suitings ever shown in Charlottetown, and at the lowest prices.—D. A. Bruce. m31 tf

LETTERS TO THE EDITOR.

Why Local Grits Dread the People.

SIR,—The suggestion by THE EXAMINER that the bill respecting the Legislature should be submitted to the people of this Province before it becomes law has aroused the quondam editor of the Patriot; and in a late issue of that paper an attempt is made to show cause why such a course would be unnecessary. Referring to the imposition of the detested "mortgage vote," the Patriot says: "But there is no need to appeal to the people in regard to this vote, for it has been allowed by our election law for twenty years or more." Now, this statement is not according to the facts. For the first ten or twelve years after the election law was passed by the Liberals of this Island, no one imagined that the mortgagee had any right to vote. It was not until some—like the lawyers who had so little regard for the solemnity of an oath that they made a statutory declaration, at the last revision of votes for the Dominion electoral lists, that eight acres of barren land at St. Peter's Harbor, in King's County, with no improvements thereon, save a hut little better than an Indian camp, was worth three hundred dollars—had qualified in this way, that the practice of voting on mortgages came into vogue. Leading lawyers, like Mr. L H. Davies—who, notwithstanding his extreme partizan feelings, yet has some scruples of conscience regarding what he will swear to—and the present Chief Justice, never would incur the awful responsibility of voting, especially for Legislative Councillors, when they had to swear that they were by law qualified as electors by reason of holding a mortgage. It is only reckless, godless partizans, like some of those who form the cabal that now has possession of the Government, that advocate and justify the right to qualify in this way.

The lawyer-politician editor of the Patriot must have forgotten the lessons learned from his Liberal ancestors, and stretched his neck to its fullest extent to swallow this true specimen of old Tory tyranny. How monstrous it is to think that because a money-lender advances $400 on land worth a thousand or perhaps two thousand dollars, that he can go to the polls and prevent the owner of the property from securing representatives who will guard his interests!

But there is a reason why the money-lenders of this Province are so desirous of continuing the mortgage-vote. It is well known that a system of taxation will soon have to be adopted in this province; and that a feeling is prevalent among the people that the farmers alone should not bear the burden of the next assessment act, as they had to do when the Davies Government were in power. Money lenders and men receiving incomes from stocks, bonds and other investments of capital, as well as farmers, have an equal right to contribute to the maintenance of the civil government of the province; and it is because those capitalists have such influence with the present ministry that the mortgage vote is again incorporated in the election law, in order that they may control the elections.

The Patriot justifies the gerrymander of King's County by stating that the Dominion Government did the same with Ontario constituencies. Did not the columns of that newspaper contain article after article protesting against such measures as iniquitous, and how can writers for that paper justify now what they formerly condemned? Is there no honesty or regard for consistency among them? Do they think the people have no memories and have forgotten what was their own contention? By my faith, but they will find out the difference, and that before long. There is an old saying "that if you put a beggar on horseback, he will try to ride over all in his way," and with a slight alteration it might well be applied to the so-called Liberals who now rule this Province. As pretended Liberals they got into power; and now, with the tyrannical instincts of their tory bred leader, they want to ride over the people of King's County and prevent them from giving expression to their views and preserving their rights.

Should the Reserved Bill become law it will perpetrate as great a piece of injustice as has been attempted since the days of Feudalty anny in England. The people of this Province will surely resist this attempt to disfranchise thousands of their fellow countrymen in King's County, and by protesting against the present Government, prevent Mr. Peters from carrying out his threat that he will gerrymander the whole Island so that hardly any opponent of his own will get a constituency. "To your tents O Israel." Raise the standard of revolt against this latest instance of old time tyranny.
