NEW! NEW! NEW! G-E Vapour - Control KETTLE

This new G. E. Vapour-Control Kettle has "extra" convenience features you should know about. Among the features of this Kettle are:

- **VAPOUR-CONTROL SWITCH**—When this control switch is set at VAP, the wattage is kept to a point where the Kettle will hold the water at a gentle boil without generating excessive quantities of steam and boiling the water away rapidly.
- **PORTABLE HUMIDIFIER**—Anyone who suffers from congestion or irritation due to dry air . . . fill the kettle and bring it to the boil quickly, then switch over to VAP. The Kettle will continue to supply water vapour for 6 to 8 hours.
- **INEXPENSIVE TO OPERATE**—It costs only a few pennies per day to operate your G-E Vapour-Control Kettle, because, with the NEW VAP control switch, the G-E Kettle operates on a small amount of power.
