

NOTICE!

IN ORDER, under the new Railway timetable, to give our readers in Souris, Georgetown, Summerside, etc., the latest news up to the time of the departure of the trains, we shall make a slight change in the arrangement of matter. In future the local news up to one o'clock of each day, the telegraphic dispatches, weather probabilities, police pencillings etc., will be found on the first or last page. Local news, etc., subsequent to one o'clock, will be found on the "inside" as usual. By this arrangement town, train and city readers will get the latest news it is possible to give them.

THE DAILY EXAMINER.

DECEMBER 6, 1879.

The Fishery Award.

AN Ottawa despatch of the 4th, to the Halifax Herald, reports:—

"The Maritime Provinces' delegates are still pressing their claims. It is generally believed that the Provinces will receive interest annually on their proportion of the fishery award."

Just what's wanted!

Winter Communication and the "Northern Light."

THE *Northern Light* remains in Charlottetown awaiting orders. In this city, all who know anything about the crossing at the Capes, agree with THE EXAMINER that the *Northern Light* is unfitted for the Capes' route; and the opinion seems to be general that it would be better to send her to Georgetown, and get a smaller or more easily managed boat to test the practicability of winter steam communication between the Capes. We are informed that there is yet a considerable quantity of goods for import. Should navigation close and the *Northern Light* be sent to the Capes, these goods cannot be obtained this year, and our merchants and the public will be greatly inconvenienced.

It has been suggested that Batt's tug, the *Henry Aitken*, be sent to the Capes. Though she is not, in our opinion, just the kind of boat to send there, yet it cannot be doubted that, compared with the *Northern Light*, she is much the best fitted for the service required, and far the most likely to ensure a successful experiment.

It must be remembered that till railway communication with the Capes is established, that route cannot be made available for the transport of goods either to or from the Island; and, therefore, the steamer required at the Capes is only such a one as can quickly ferry passengers across, and test the practicability of keeping up constant communication with the outside world at those points.

"The Monroe Doctrine."

It seems that all the people of the United States have not abandoned the Monroe Doctrine. The proposal of Mr. DeLesseps to build a canal across the Isthmus of Darien (which is not U. S. territory) is being opposed on the ground that Europeans should not be permitted to interfere in an enterprise which affects America. The following is the text of a resolution now before the Congress Committee on Foreign Relations:—

Whereas, The people of this Union for fifty years have adhered to the "Monroe" doctrine that the nations of the American continent by the free and independent condition which they have assumed and maintained are henceforth not to be considered as subjects for future occupation by a European power; therefore, Resolved, by the Senate and House of Representatives, that the people of these States would not view without serious inquietude any attempt by the powers of Europe to establish under their protection and domination a ship-canal across the Isthmus of Darien, and such action could not be regarded in any other light than as a manifestation of an unfriendly disposition towards the United States.

What next? Shall we have the United States interfering to prevent Great Britain from assisting in the building of the Canadian Pacific Railway? The one interference would be just as right and warrantable as the other.

Sir A. T. Galt as Resident Minister.

It is reported that Sir A. T. Galt is to be "Resident Minister" for Canada at the Capital of the Empire. There is no doubt that the presence at the seat of Government of so eminent a man and such a thorough Canadian, will be of great advantage to this country. The appointment will be opportune, too, because of the complications and negotiations likely soon to take place in the matter of the fisheries. There is no man so able to represent Canadian interests in that matter as Sir A. T. Galt. And there are many other ways in which a man of his commanding influence, having the ear of the Home Authorities can, directly and indirectly, benefit the Dominion.

Incendiarism.

AN INGENIOUS ATTEMPT MADE TO BURN THE STORE OF DAVISON & CO.

ON Friday night an ingenious and a most deliberate attempt was made to burn the grocery store of Messrs. Davison & Co., which is situated on the corner of Kent and Great George Streets. The inflammable material used was a medium sized lamp-wick thoroughly saturated with kerosene oil. This was placed between the shutters of the large window fronting Kent Street. A quantity of kerosene oil was poured on the part of the shutters adjoining the wick and on the sill below it. The wick was then lit, and no doubt left by the incendiary to perform his fiendish work; but evidently the wind quenched the blaze before it had taken sufficient hold to light the shutters. It was found on Saturday morning by the clerk, who, thoughtless of the evil it was intended to fulfil, carelessly threw it into the gutter. The members of the firm have no suspicion of the incendiary.

Hardship.

A WOMAN named Mary Deering, belonging to Newfoundland, and her two small children endured unusual hardships while travelling to Souris on Sunday evening last. One of her children is apparently two years of age while the other—a little boy—is five. On entering the farm of Mr. John Deegan, the heavy gate accidentally fell on the little boy, breaking his right leg above the knee. No one was near at the time, and a thick snow storm prevailed. In her arms she held her youngest child, while on the road during the blustering storm lay the thinly-clad boy, with his leg almost severed in two. The nearest house was three-quarters of a mile distant. The road was bad, the storm was wild. To leave one child alone might be its death. She resolved to take both; and, as the boy screamed with the pain of his broken limb, she induced him to cling to her neck and rest on her back, while she carried him and his little sister to the house of Mr. McLaughlan. Here they were sheltered for the night, and sent by Mr. McLaughlan to this city on Monday morning. The Commissioner of Public Works provided surgical aid for the boy, and on Tuesday the broken limb was set by Dr. Creamer. Mrs. Deering and her two children are now living with Mr. John Hatch at the Government's expense.

Produce Shipments.

The schooner *Conquest* cleared for New York on Saturday, with a cargo consisting of 5241 bushels potatoes, shipped by Patrick Foley. The schr. *Royal Arch*, cleared for St. Johns, Nfld with 2,500 bushels potatoes, 1000 do turnips, 1,500 do oats, 70 do parsnips, 50 do carrots, 70 carcasses mutton, 2 do beef, and 200 geese, shipped by Capt. John Aylward. The brigantine *Livonia* cleared from Murray Harbor for Liverpool on the 3rd inst., with a cargo consisting of 17,750 bushels oats, 1975 qtls dry hake, and 470 boxes canned lobsters, valued at \$12,520, and shipped by S. Prowse.

A New Publication.

LOVELL'S INTERMEDIATE GEOGRAPHY is just out. It is neatly bound and well printed. The illustrations are numerous and good, and the maps very well drawn and lettered. It treats first of Geography in general; then of this Canada of Ours and every Province in it in particular, and then of the other divisions and countries of the earth. The information it affords respecting this Island is scanty. It does not give the name of a single bay, cape or river in the Province. But the information it gives of the other Provinces is much fuller; and it is, on the whole, a good book for elementary schools.

A P. E. Islander Abroad.

[From the *Thorold Post*, Ontario.]

One of the most brilliant weddings that has taken place in Thorold for some time occurred at St. John's Church on Thursday, the 30th ult., at 10 o'clock, a. m., at which time Wm. Beirsto, of Toronto, was joined in holy wedlock to Miss Helena Augusta Tisdall, Thorold, the Rev. Canon Robarts officiating. Miss Baxter, of Thorold, acted as bridesmaid, and Mr. Stone, of Hamilton, as best man. Neta Keefer and Frankie McFarland as children attendants, added very much to the beauty of the ceremony.

After the ceremony the bridal party, together with a numerous company of invited guests, repaired to the residence of George Keefer, Esq., where Mrs. Keefer had a sumptuous breakfast laid, in fact the tables were "groaning" under their burden of good things. After partaking heartily of the breakfast the company adjourned to the library where the bridal cake was cut by the fair hand of the bride herself, and a short time was spent in drinking the healths of the party. The cake was richly made and handsomely decorated, inspiring a pleasant anticipation to the beholder, and reflected credit on the establishment of Messrs. Prontiss & Ivey, where it was made.

The presents to the bride were both elegant and numerous, comprising useful and ornamental articles in silver, glass, china, fancy work, furniture, etc. The bridal party took their departure about three o'clock in carriages for the Falls, the bride and groom taking the evening train for Buffalo, where they stop for a short time before repairing to their new home in Toronto. May their future be always as the present would indicate, is the sincere wish of their many friends in Thorold.

Late tidings from Southern Africa are disturbing. They are to the effect that another war seems likely to break out between the British on the one side and the Boers of the Transvaal in alliance with Kaffirs on the other. Those Boers are a stupid and stubborn lot. But for the British they would have been wiped out by Cetewayo before this.

LORD DERBY is the subject of the anecdotal photograph in this week's *Truth*. When at the head of the Foreign Office it is stated he left all appointments in the diplomatic service to the officials. Until his marriage he was the very reverse of your quiet domestic man. He was so rarely under the paternal roof that when he turned up one day at Knowsley his father exclaimed, "Hullo, Edward, is Dizzy dead, or are you going to be married; or what is it?" He has labored with but faint success to oppose the wearing of dress clothes at bachelors' dinner parties. When the Garter was offered him on his retirement from office he unhesitatingly refused it. Lord Derby has never been a sportsman, and can scarcely ride. A serious person asked him, "Do you not think, my lord, that Liverpool requires a bishop?" "Quite as much as London," replied Lord Derby, but in a tone that left grave doubts as to whether the speaker was sufficiently alive to the utility of bishops in general.

—:0:—

WE have great pleasure in informing our Customers that our first quarters business has been very satisfactory; not only has the custom of our predecessor been maintained but largely augmented. The character, style and prices of our Goods have given great satisfaction. We have still on hand a Good Stock of General and Fancy DRY GOODS, such as few houses here can show, and at prices that defy competition.

Our DRESS MATERIALS, Mantles and Cloths of every description are having a good run, whilst our Fur Goods are going off in good style. The gentlemen find it economical to buy from us their Ulsters, Overcoats and Reefers, as well as their Shirts, Linders, Ties, &c.

At this season we would call special attention to our beautiful stock of FANCY WOOL WORK—in every shape and form, besides Wools of every description.

Our CARPETS are, without doubt, the cheapest in the city, and have sold well. Intending purchasers will serve their own interests to call ere they all go. It is not every day such opportunities occur for furnishing at a cheap rate.

In the work we have given ourselves of giving "Good Goods for little money," we have so far had the co-operation of the Public, which, if continued, cannot fail, in the end, to largely benefit us and all who favor us with their custom.

We have made up our minds to gain and deserve a large share of public patronage and support, which we are sensible will be the result of industry, courtesy, and an assiduous attention to each of our numerous customers, as well as to each branch of our business.

Mantle and Dress Making is done on the premises by the MISSES CURRIE.

TREMAINE & METCALF,

SUCCESSORS TO

JAMES DESBRISAY.

Ch'town, Dec. 2, 1879.
