JUNE 17, 1895.

PARIS GREEN.

By reports of the Government... Paris green... substance interesting to the potato bug...

OBITUARY.

Dr. W. Gower Sutherland, who died on the 30th day of May last, at Waterville, Pictou County, N. S., was born in Scotland...

NEWFOUNDLAND LOAN.

Announcement of its Terms Made in the Legislature. Receiver-General Scott submitted resolutions to the House of Assembly...

THE BRITISH AFRICAN POLICY.

It has been announced that the British Government has decided to construct a railway to Uganda, Central Africa, and to establish a protectorate over the country...

EUROPEAN WHEAT CROP.

One of the best known of the foreign grain crops, writes Continental Editor of Chicago from Paris under date of June 2: "As far as we can judge at present there seems to be every prospect of an average wheat yield, for although in some parts of Europe great damage has been done by recent cold weather, in other parts the outlook is quite satisfactory..."

PASSING OF THE WOODEN SHIP.

A writer in the Montreal Gazette, taking up the question of the national policy is responsible for the decay of wooden ship building, gives the following interesting data to show the fallacy of the cry: "Lloyd's Register of shipping gives the tonnage of the world (100 tons and up) for: 1890, wooden... 7,053,885 1894, wooden... 5,822,257 1894, iron and steel... 14,352,721 1894, iron and steel... 18,094,376 1890, sail... 9,166,279 1894, sail... 8,503,294 1890, steam (gross)... 12,965,372 1894, steam (gross)... 16,065,292"

NOTES AND COMMENTS.

Montreal Gazette: Liberal papers agree in saying that trade is reviving. But what would it do if the Liberals were in power and Sir Richard Cartwright was at work revising the tariff on the basis of one of his anti-Canadian manufacturers' speeches? The way to keep trade on the mend is to keep Sir Richard where he is.

NEWS NOTES.

Building operations are active in Montreal. General Lew Wallace is about to begin work on a new book, but he declines to talk about it. "Ben Hur," by the way, is soon to be translated into Armenian. A foul murder was committed in Montreal on Thursday last. A Mrs. Demers had her throat cut from ear to ear in her bedroom while her husband was away at work. It is said that the ex-Queen Isabella of Spain is the godmother of more children than any other woman in the world. She never refuses to act as sponsor for any one who has any kind of claim. Smuggled Turkish jewelry to the value of several hundred dollars was discovered a few days ago in Boston in a 60-lb. bag of okra. Okra is a Turkish vegetable worth about 30 cents a pound, and is generally put into soap but its owners of the jewelry are there now. Here are a few statistics on education in Canada, which are vouched for by Hon. G. W. Ross, Ontario Minister of Education: In the Dominion, he said, there are 17,054 schools, 23,822 teachers, and 999,274 pupils, besides 4,919 pupils in classical colleges, and 4,734 students in our 14 universities. It costs \$8.54 to educate a child, \$91.28 to keep a prisoner in jail, and \$187 to keep a convict in the Central Prison for a year. Mr. Ross, after citing these figures, asked which was the cheapest. You cannot be well unless your blood is pure. Therefore purify your blood with the best blood purifier, Hood's Sarsaparilla.

THE REMEDIAL ORDER.

Ottawa's Demand Refused.

The Manitoba Government Willing to Have Evidence Taken to Establish Their Position.

The reply of the Manitoba Government to the Premier's Council of the Dominion reads substantially as follows: "The privileges which, by said order, we are commanded to restore to our Roman Catholic fellow-citizens, are substantially the same privileges they enjoyed previously to the year 1890. Compliance with the terms of the order would restore separate schools with no more satisfactory guarantee for their efficiency than existed prior to the said date. "The educational policy embodied in our present statutes was adopted by the Legislature of the Province of Manitoba, and followed, under separate Roman Catholic schools (now sought to be restored) had existed for a period of upwards of 19 years. The said schools were found to be inefficient. "As conducted under the Roman Catholic board of education they did not possess attributes of efficient modern public schools. Their conduct, management and regulation were defective. As a result of leaving a large section of population with no better means of education than was thus supplied, many people grew up in a state of illiteracy. "So far as we are aware, there has never been an attempt made to defend these schools on their merits, and we do not know of any ground upon which expenditure of public money in their support could be justified. We are, therefore, compelled to respectfully state to your excellency in council that we cannot accept the responsibility of carrying into effect terms of remedial order. "Objections upon principle may be taken to any modification of our educational statutes, which would result in the establishment of one or more sets of public schools. Apart, however, from objections upon principle, there are serious objections from a practical educational standpoint. Some of these objections may be briefly indicated. "We labor under great difficulties in maintaining an efficient system of primary education. The school taxes bear heavily upon our people. The large amount of land which is free from school taxes, and the great extent of territory open to the State, make it difficult to present obstacles to efficiency and progress. The reforms effected in 1890 have given an impetus to educational work, but difficulties which are inherent in our circumstances have constantly to be met. It will be obvious that the establishment of a set of Roman Catholic schools, followed by a set of Anglican schools, and possibly by Mononite, Icelandic and other schools, would impair our present system that any approach to even our present general standard of efficiency would be quite impossible. "We contemplate inauguration of such a state of affairs with very grave apprehension. We have no hesitation in saying that there can not be suggested any measure which, to our minds, would more seriously imperil the development of our province. "We believe that when the remedial order was made there was not then available to your excellency-in-council full and accurate information as to the working of our former system of schools. We also believe that there was lacking means of forming a correct judgment as to the effect upon the province of the changes indicated in the order. "Being pressed with this view we respectfully submit that it is not yet to late to make a full and deliberate investigation of the whole subject. Should such a course be adopted we shall cheerfully assist in offering more complete information available. An investigation of such a kind would furnish substantial basis of fact upon which conclusions could be formed with a reasonable degree of certainty. "It is urged most strongly that upon so important a matter, involving as it does the religious feelings and convictions of different classes of people of Canada, and educational interests of a province which is expected to become one of the most important in the Dominion, no hasty action should be taken, but that, on the contrary, the greatest care and deliberation should be exercised, and a full and thorough investigation made. "While we do not think it proper to enter upon a legal argument in this memorial, we deem it our duty to briefly call attention to some of the legal and constitutional difficulties which surround the case. It is held by some authorities that any action taken by the Parliament of Canada upon the subject would be irrevocable. While this opinion may or may not be held to be sound, it is, in our judgment, only necessary to point out that there are substantial grounds for entertaining such an opinion in order to emphasize the necessity for acquiring a most ample knowledge of the facts before any suggestion of parliamentary action is made. It will be admitted that the two essentials of any effective and substantial restoration of Roman Catholic privileges are: "(1) The right to levy school taxes. "(2) The right to participate in the legislative school grant: without these privileges the separate schools cannot be properly carried on, and without them, therefore, any professed restoration of privileges would be illusory. "It may be held that power to collect taxes for school purposes conferred upon school boards by our former educational statutes was conferred by virtue of the provisions of sub-section 2, of section 92 of the British North America act, and not by virtue of provision of section 22 of the Manitoba act. If this view is well founded, then that portion of the act of 1890, which abolished said right to collect taxes, is not subject to appeal to your excellency in council, and the remedial order, and any subsequent legislative act of the Parliament of Canada, (so far as they purport to restore the said right) will be ultra vires. "As to the legislative grant, we hold that it is entirely within the control of the legislature of the province, and that no part of the public funds of the province could be made available for the support of separate schools without voluntary action of the legislature. It would appear therefore that any action of the Parliament of Canada, looking to the restoration of the Roman Catholic privileges, must, to be of real and substantial benefit, be supplemented by voluntary action of the provincial legislature. "If this be the case, nothing could be more unfortunate, from the standpoint of the Roman Catholic people themselves, than any hasty or peremptory action on

The Manitoba School Question.

OTTAWA, June 17. The main topic of conversation among all the politicians is still the Manitoba school question. At this moment, with the full text of the Manitoba Government's reply in evidence, no one can see his way clearly through the difficulty. Notwithstanding the studiously conciliatory tone of the Greenway Government, which is in sharp contrast to its previous declarations, there is no substantial suggestion of compromise in the recent manifesto. The feeling grows that if the Government undertakes to bring about a new or even a modified school system in Manitoba, it has a long, hard and doubtful battle to fight. It is pretty certain that nothing will be done about the matter here for a fortnight yet, and that is all that may be considered certain. Senator Ferguson will leave for home on Tuesday, not to return until after Dominion Day. Bishop McDonald Detained at Moncton. MONCTON, June 17. Bishop Cameron passed through here on Saturday en route from Europe, accompanied by Bishop Sweeney, of St. John, and Bishop McDonald and the Rev. Dr. Walker, of Prince Edward Island. The two latter remained at Moncton and conducted services in St. Bernard's Church. A Fight Stopped. CONEY ISLAND, June 17. Young Corbett and Eddie Pierce met on Saturday night. In the third round Pierce was knocked down and out. The police arrested the principals and refused to allow the Dixon-Enright fight to go on. Zimmerman and Johnson, NEW YORK, June 17. Zimmerman and Johnson are to race one mile at Asbury Park in July for \$10,000. Five Lines on K and L. I find the people around here prefer Dr. Chase's Kidney-Liver Pills to any other I have in stock. They are a wonderful pill. Send three dozen at once, I am nearly out. P. S.—Send by post, J. W. Ireland, Gourock. Summer underwear, a choice stock at low prices at J. B. Macdonald & Co's. June 17 61. Gent's tan boots at slaughter prices. See our window.—J. B. Macdonald & Co. June 17 61.
