An Overworked Word.

Among many sins of the lazy and shiftless penman, the most flagrant is the overworking of that humble and indispensable word and. This abuse is growing rapidly, even with some who might otherwise claim to be good writers. Nothing is gained by it, of course, and a great deal is lost. There is neither sense nor humanity in breaking the back of a harmless and helpful beast of burden, so that it becomes an object of horror to the fastidious and of commiseration to the charitable. For such cases another Bergh should arise and form a new society, which might protect the innocent and prosecute the offenders. A critical journal, noticing the last amusing work of a popular novelist, pointed out a sentence containing twenty-two (or was it twenty-seven?) inflictions of this mild connective. The proof-reader was evidently in abeyance here, or he would have suppressed most of the ands, displaced the commas by periods or colons, and cut the overgrown sentence into six, or perhaps thirteen. This way of writing is like that of the preacher who does not know when to stop, or of the magazinist who exceeds his limits because he had no time to make the article shorter. Any of these calls to mind the youth of 6 feet and 12 years only, all whose strength had gone into his length. Compression, with consideration, is a good way to gain force, and inconsiderate expansion and repetition, even of the mere copula, a sure way to lose it. When Mr. Fields was editing the "Atlantic," he once offered Dr. Holmes $100 for an article of six pages (or thereabouts), and less if it was longer. Yet Dr. Holmes could never have indited a sentence like this:—

"He rang the bell and was admitted and entered the parlor, and took a chair and waited some time, and at length Clarinda came down and apologized for the delay, and he invited her to ride, and she agreed, and they started, and the horse ran away and they were both thrown out, and she was killed and he badly hurt and——" so on ad infinitum, through details of the funeral and his subsequent career.

Nobody, it may be presumed, writes this way on purpose; it is because, like the majority of juvenile delinquents, they "didn't think."

A Paradox.

"Third edition! Here's yer third edition!" yelled a New York newsboy in the afternoon.

A man who might have been, from his appearance, a professor in a country college stopped him.

"Give me a copy of the first edition," he said.

"Ain't none," replied the boy.

"But, my boy," remonstrated the man earnestly, "there must be. The presence of a third entity presupposes the existence of a first and second. Indeed there can be no third unless there has been a previous first and second. That is an axiom."

The boy opened his eyes in astonishment and doubt.

"Come off, cully!" he ejaculated. "You don't know nothin' about New York evenin' newspapers. Here's yer third edition!" and away he went yelling at the top of his voice,—Detroit Free Press.

Could not get Insured.

Rejected by Straight Line and Mutual Companies.

But now insured in both.

"Should I die while I am in a position to pay my insurance premiums, my family will owe their support to Scott's Sarsaparilla. Two years ago I applied to two companies for insurance, $1000 in each. My face was a mass of pimply blotches and my urine did not stand the test. One doctor in examining me said I could not pass, but that my trouble was curable. He advised an alterative medicine, and I commenced taking Scott's Sarsaparilla. Both companies rejected me, but four months later, after I had taken five bottles of your remedy I am thankful to say both accepted me as a risk—one being a stock company, the other a mutual. The examiner who previously examined me, remarked "I never saw such a change in any man." This is indorsed by Mr. J. Todd, the popular druggist, corner Queen and Crawford Streets, Toronto.

Scott's Sarsaparilla builds up debilitated constitutions, imparts strength, vigor and vitality, clears and purifies the blood. It cures skin diseases, rheumatism, gout, indigestion and all complaints arising from poor or poisoned blood. Of all druggists, $1 per bottle.

ABSOLUTELY PURE

Sound Reason.

The late Rev. Dr. William L. Breckenridge, of Kentucky, used to tell this story of an Irishman who desired to have a letter written home to his friends in the old country. It was at a time when provisions were so abundant in the West as to be almost without value.

After mentioning a good many things that he wished to have written to his friends in Ireland in regard to America, Patrick said:—

"Tell them that I get all the meat I can eat three times a week."

"And what do you mean by that?" asked the writer. "Don't you get all the bacon you can eat three times a day?"

"Yes, your riverence," was the prompt reply.

"Well, then, what do you mean by writing to your friends in Ireland that you get all the meat you can eat three times a week?"

"Faith," said Pat, "and that is more than they will believe."

Her Gift.

The minister's eyes swept with intense searching the apathetic faces of his stylish worldly congregation He had made an impassioned appeal for help in the support of a little mission church among the mountains—a section where rough men and women knew scarcely anything of God and the religion of Christ He had hoped to inspire the people with the spirit of giving, to make them feel that it was a sweet, blessed privilege, and—he had failed A sense of desolation crept over him

"God help me!" his lips murmured mutely He could not see the bent figure of little crippled Maggie in the rear of the church—a figure that was trembling under the fire of his appeal

"Lord Jesus," the little one was saying brokenly, "I an't got notin' ter give; I want the people in the mountains ter hear 'bout my Savior O, Lord, I ain't got nothin' ter—"

What was it that made that child catch her breath as though a cold hand had taken hold of her heart? "Yes you have, Maggie," whispered a voice from somewhere; "you've got your crutch, your beautiful crutch what was give ter you, an' is worth a lot o' shinin' dollars You kin give up your bes' frien' what helps you ter git into the park where the birds sing, an' takes you ter preachin', and makes your life happy"

"O, no, Lord," sobbed the child, choking and shivering "Yes, yes, I will He gives up more'n that fer me"

Blindly she extended the polished crutch and placed it in the hand of the deacon who was taking up the scanty collection For a moment the man was puzzled; then comprehending her meaning, he carried the crutch to the front of the pulpit The minister stepped down from the rostrum and held up the crutch with shaking hand The sublimity of the renunciation unnerved him so that he could not speak for a moment

"Do you see it, my people," he faltered at last; "little crippled Maggie's crutch —all that she has to make her life comfortable? She has given it to the Lord, and you—"

There was a moment of silence The people flushed and moved restlessly in their cushioned pews

"Does any one want to contribute to the mission cause the amount of money this crutch would bring, and give it back to the child who is helpless without?" the minister asked gravely

"Fifty dollars," came in husky tones from the banker

"Twenty-five"

"One hundred"

And so the subscribing went on, until papers equivalent to six hundred dollars were lightly plied over the crutch on the table

"Ah, you have found your hearts—thank God Let us receive the benediction," almost whispered the minister as he suddenly extended his hands which were trembling with emotion Little Maggie, absorbed in the magnitude of her offering and the love that had prompted it comprehended nothing that had taken place She had no thought of the future, of how she would reach her humble home, or of the days in which she would sit helpless in her chair as she had once done Christ had demanded her all, and she had given it, with the blind unquestioning faith of an Abraham She understood no better when a woman's arms drew her into a close embrace, and soft lips whispered in her ear: "Maggie, dear, your crutch has made six hundred dollars for the mission church among the mountains and has come back to stay with you again Take it little one"

Like a flash of light there came a consciousness that in some mysterious way her gift had been accepted of God and returned to her, and with a cry of joy the child caught the beloved crutch to her lonely little heart; then smiling through her tears at the kind faces and reverential eyes she hobbled out of the sanctuary—Gertrude M Jones in Christian Observer

OLDEST KNOWN BIRD.

Prof. H. G. Seeley Tells of It in a Recent Publication.

"The Solenhofen slate of Bavaria," writes Prof. H. G. Seeley, in his recent little volume, "The Story of the Earth in Past Ages," makes known numerous insects and other forms of terrestrial life of this period, including the oldest known bird.

"A bird is known by its feathers; though there is no reason why the coverings to the skin should not be as variable in this group of animals as among reptiles or mammals It is, therefore, remarkable that the oldest known bird, the archaeopteryx has feathers as well developed as in the existing representatives of the class and similarly arranged. The animal is an elegant, slender bird, which is chiefly remarkable for showing teeth in the jaws. About twelve, short and conical, appear on each side of the upper jaw.

"The bird was larger than the robin in its body and had a tail of which there was a bony core some six inches in length. The wings were quite as well developed as the legs and there are some evidences that the former could be applied to the ground as are the forelegs of quadrupeds, although the feathers show the wings to have been constructed on the same plan as the birds of to-day.

"The Solenhofen stone, in which so many of the remains of fishes, reptiles and insects are found, is the same as that used for lithographic purposes, being of exceedingly close texture and of remarkable smoothness when prepared for its work."

MUSHROOMS AND TOADSTOOLS.

Rules by Which Food Can be Distinguished From Poison.

The common mushroom never grows in the woods Remembering this, the collector will not eat supposed mushrooms found in the woods, and may thus save his family the unpleasant necessity of a coroner's inquest The gills of the common mushroom are pink or dark brownish purple, but can be distinguished only by accurate knowledge of their individual appearance A large genus, the lactarius, is known by its exuding milk when the stems or caps are broken Many of this species are esculent None of them is poisonous, several of them are large, white and showy; with two exceptions, they grow from the ground, and are found in the woods in large quantities, tasting, one is disposed to think that spontaneous combustion has occurred in the mouth, but it loses its fiery qualities on cooking, and, though it is a coarse species, is much more tender and savory than many of the vegetables we eat Here let me say that in cooking all varieties of mushrooms, they should be cooked precisely as is the oyster The time of cooking should be determined by the consistency of the variety Salt, pepper, and butter are the only necessaries as seasoning, and the aim should be to preserve as nearly as possible a natural flavor It is culinary heresy to soak them with gravies or smother them with foreign flavors

Palettes of famous painters form an interesting collection in the possession of M. Beuginet of Paris. His collection numbers over 100 specimens, chief among which are the palettes used by Corot, Troyon, Delacroix, Benjamin Constans, Bonnat, Rosa Bonheur, Detaille, Puvis de Chavannes and other artists of celebrity.—Philadelphia Ledger.

Scrofula

Infests the blood of humanity. It appears in varied forms, but is forced to yield to Hood's Sarsaparilla, which purifies and vitalizes the blood and cures all such diseases. Read this:

"In September, 1894, I made a misstep and injured my ankle. Very soon afterwards,

A Sore

two inches across formed and in walking to favor it I sprained my ankle. The sore became worse; I could not put my boot on and I thought I should have to give up at every step. I could not get any relief and had to stop work. I read of a cure of a similar case by Hood's Sarsaparilla and concluded to try it. Before I had taken all of two bottles the sore had healed and the swelling had gone down. My
