THE DAILY EXAMINER.

APRIL 16, 1891.

Notes and Comments.

—The Montreal Gazette remarks that the iron heel of the Canadian Pacific Railway must have become popular in Manitoba since the people found out what the Northern Pacific's competition really meant. Mr. Greenway, who wanted the Canadian Pacific Railway's blood in 1888, now wants to give it a bonus to extend its lines throughout the province.

—The publication of the text of the Blaine-Bond treaty book has produced a strong feeling against it in Newfoundland. The treaty shows that the wily Blaine got to the leeward of the innocent and gullible Bond, and his treaty, if assented to, would have been Mr. Blaine's notable success. The correspondence shows that Mr. Bond had no credentials at all from Lord Knutsford to negotiate, and was simply commissioned by Sir William Whiteway to represent the views of the Newfoundland Government to Sir Julian Pauncefote. Nevertheless, Mr. Bond proceeded as though he was a full-fledged ambassador. Three draft conventions were proposed, the first by Sir Julian Pauncefote, which was rejected by Mr. Blaine; the second by Mr. Bond, of which Sir Julian knew nothing, which was also rejected by Mr. Blaine, and the third by Mr. Blaine as a counter-proposal, which was accepted by Mr. Bond, but of which Sir Julian knew nothing, and which was rejected by the Imperial Government, at the instance of Canada. Mr. Blaine's draft is an ingenious document in which the wool is most successfully drawn over the eyes of unsuspecting and innocent Mr. Bond, and which, while of little practical benefit to Newfoundland, secures enormous advantages to the United States at the expense of Canada.

News Notes.

Great Britain has more shipping in and out of Argentine ports than all other ports combined.

During the past week there were 1,216 deaths in New York City against 1,100 the week before.

A company is being formed in Buffalo to tunnel under the Niagra River between that city and Fort Erie.

A Detriot despatch says rafting of logs from Canada will be conducted on a larger scale than ever this year.

The Italian customs receipts for March, show a reduction of $9,000,000 compared with the same month in 1890.

Statistics show that more goods are now being imported into Mexico from the United States and less from Europe than in former years.

The Manitoba Government has agreed to give a bonus of $1,500,000 cash to the Hudson Bay Railway when the road is completed.

The draft constitution drawn up by the Australian Confederation Convention is to be submitted to a popularly elected convention in each colony.

A reward of 20,000 florins has been paid by the Bulgarian Government to the man who was instrumental in the capture of the murderers of Minister Beltcheff.

ODDFELLOWS' NATAL DAY.—The Oddfellows of this city have arranged an excursion to Summerside on April 27th. Return tickets will be $1.00 each.

DAMAGE TO WHARVES.—Queen's wharf was badly damaged late yesterday afternoon or last night by floating ice. The greater portion of the head of the wharf up to the warehouse has been carried away. Lord's wharf has also been damaged by floating ice.

Why go about hawking and spitting when Nasal Balm will remove very vestige of your catarrh, and thus relieve you of this disagreeable habit? In cases of cold in the head, Nasal Balm gives instant relief, and there is no case of catarrah it will not cure if used according to directions. A single bottle will convince you of its merit. ap13 1w

THE LAWN TENNIS CLUB'S ENTERTAINMENT.—The tickets for this entertainment are selling rapidly. All those who desire to attend are advised to secure tickets before Monday next, when the plan of the hall will be exhibited at Reddin's Drug Store, and persons holding them may select seats. See ad. in another column.

Nature requires aid in correcting irregularities at this season, and for both men and women no other remedy equals Dr. Williams' Pink Pills as a spring blood tonic. They supply all the constituents necessary to enrich the blood and build up the system. Sold by all dealers, or sent post paid on receipt of price—50c per box, or five boxes for $2—by addressing Dr. Williams Med. Co., Brockville, Ont. ap10 1w

THE REVERE HOUSE PROPERTY.—It has been currently reported among shippers and others interested in increased facilities for the shipment of produce that railway extension to Pownal, if not to Connolly's Wharf, would be followed by the removal of the Railway Station to a more central position, and as the property referred to was in the market for sale, and the only available grounds for the purpose indicated, it was fondly hoped that such representations would be made by the Board of Trade, backed up by other influential representations of our Island interests at Ottawa as would lead to the securing by the Dominion Government of this valuable acquisition to railway property in Charlottetown. It seems, however, that no practical action has taken place in the matter. It has also been the "town's talk" for a long time that the grounds known as the Revere House property would be the most desirable site obtainable within the city limits for a hotel commensurate with the requirements of Charlottetown, and it was expected that a Company for that purpose would be formed and thereby a long-felt want supplied. This movement has also failed to accomplish the desirable object in view, and now this centrally situated property has been divided into building lots, and advertised by the owners to be sold on Wednesday next, the 22nd inst., at 12 o'clock noon. All chances, therefore, for securing the Revere House property for railway or hotel purposes may be considered among the things that are past.

Ox gall soup, Brunswick black and all household requisites—Reddin's Drug Store.

City Council.

THE adjourned regular monthly meeting of the City Council was held last evening. Councillor Crabbe was the only absentee.

The by-laws levying and specifying the rates of assessment for general civic and water purposes, were read a third time and passed, and ordered to be published in THE EXAMINER, Patriot, Herald and Watchman for two weeks.

Councillor Hughes asked when the Sanitary Officer was to be appointed.

Councillor Morris said that when the Recorder returned to the city a special meeting would likely be called for that purpose.

Councillor McCarron asked for information in reference to Queen's Wharf, which, he said, had lately been damaged by the ice. He thought it was time the wharf was put in proper repair.

Councillor Morris said that the wharf would be thoroughly repaired when the difference between the lessee and the city was arranged.

Councillor Beer, from the committee appointed to wait upon the Water Commissioners in reference to the putting in of free hydrants in certain parts of the city for the benefit of the poor, reported that the Commissioners were opposed to putting in the hydrants at all. The Commissioners informed him, he said, that such a course would mean a considerable loss of revenue, as many persons who could well afford to pay for the water would take it from the public hydrants where they could get it free. They instanced the fountain on Queen Square as a case in point. When that fountain was put there several persons on the Square stopped taking the water and got their buckets and jugs filled at the fountain. He was also told that some persons called at the Commissioners' office and asked the clerk when the free hydrants would be put in; if he thought they would be opened before the next quarter. The Commissioners said that while they were opposed to granting the hydrants in question, they were not against allowing poor people to have the water; in fact they would willingly put a free tap into the house of any worthy person who was too poor to pay for it. There was a number of people living in Essory's lane who could not get the water and the Commissioners arranged with Mr. Worth to let them have the use of the tap in his premises near by. Mr. Beer also brought the matter of pumps and wells before the Board. He said that he had spoken to the City Medical officer on the subject and ascertained that that gentleman would be ready with a strong report when the Council wished.

Councillor Horne thought that at least a few of the pumps should be kept in good working order for the use of horses and cattle.

Councillor Morris was of opinion that samples of the water in the different wells throughout the city should be analysed, and that the wells found to be bad should be closed up.

Acting Sanitary officer Cameron, in response to enquiry, reported that men were at work on the sewer leading from the Davies House, with a view to remedying the nuisance complained of by the Messrs. Duchemin and others. He said also that he had seen Mr. Duchemin and he appeared satisfied with what was being done.

Councillor Taylor said he was not surprised at the answer Councillor Beer got from the Water Commissioners. It was just what he expected. But we should have the free hydrants anyhow. The people must have water. The fountain at present on Queen Square was no good. There should be one there like that on Lower Queen Street.

Councillor Hughes spoke in favor of putting a hydrant at Admiral Bayfield's corner, where it would be of much benefit to the people from the country coming into town. He thought there should be a box drain from each hydrant.

Mayor Haviland said that if the Council wished he would get the Health officer to send in his report about the wells at an early date.

Councillor Morris thought that an analysis of the water in the wells would be the best course to pursue at present.

Councillor Douse said that this was not the right time of year to have the analysis made.

The Mayor was of a similar opinion.

Councillor Eden, who was on the free hydrant committee with Councillor Beer, also gave a synopsis of the interview had with the commissioners. He said the commissioners were prepared to make suitable arrangements with any citizens who were too poor to pay for the water.

Meeting adjourned.

Personal.

John McLean, M. P., Souris, is at the Davies.

William Campbell, Esq., M.L.C., Melville, is at the Davies.

Hon. D. Rogers, Summerside, is in the City to-day. He is at the Davies.

R. M. H. S.

MRS. ROSS,—Your "Magic Healer" Salve is worth its weight in gold for frost bites. I suffered for twenty-two years with a sore toe from being frost-bitten, when one box of your Salve made a perfect cure of it. I used it in the following manner:—The wound was washed clean every second night with warm water and Castile soap; then I applied the Salve lightly, and in a few weeks it was thoroughly cured, and has been perfectly sound for the last three years.

Yours gratefully,
ISAAC WINCHESTER.

DR. JAMES' NERVE BEANS

NERVE BEANS are a new discovery that relieve and cure the worst cases of Nervous Debility, Lost Vigor and Failing Manhood; restores the weakness of body or mind caused by overwork, or the errors or excesses of youth. This Remedy absolutely cures the most obstinate cases, when all other TREATMENTS have failed even to relieve. They do not, like other preparations advertised for Lost Manhood, etc., interfere with digestion, but impart new life, strength and energy in a quick and harmless manner peculiar to themselves.

Sold by druggists at $1.00 per package, or six for $5.00, or sent by mail on receipt of price. Address THE JAMES MEDICINE CO., Canadian Agency, St. John, N. B.

Write for pamphlet. Sold in Charlottetown, wholesale and retail, by George E. Hughes and Reddin Bros. d&w 1 yr—api

THREE GRAND SHOW DAYS!

Tuesday, Wednesday & Thursday.

We have pleasure in announcing our Show Days for TUESDAY, WEDNESDAY and THURSDAY of Next Week. We will have unusual attractions, as our variety of Novelties and Bargains surpasses anything hitherto shown by us. You are respectfully invited to attend.

BEER BROS.

E. W. T.

MANY NEAR SIGHTED PERSONS who come to us to have their eyes tested cannot see the above size letters ten feet off. Some cannot see letters more than twice the size at that distance, and yet never wore glasses. This is a great mistake, as progressive Myopia, or Near-Sight, leads to blindness. By the proper fitting of Glasses when first required, and attention to advice which we give free, further progression in near-sight is prevented and sometimes disappears.

E. W. TAYLOR,
