MISCELLANEOUS.

Paucity of Large Towns in Russia.—St. Petersburgh, Moscow, and Odessa, are the only cities whose population exceeds 100,000; indeed, there is some doubt whether that of Odessa reaches this figure. There are only four towns containing more than 50,000 inhabitants each, and 18 or 20 with a population exceeding 15,000. In fact, it has been computed from the official reports, that there is only one town with an average population of 7000, in an area of 130 square miles. Now, the result of this is obvious. The absence of any market renders it unnecessary for the proprietor, who has no facilities for transporting his grain to a seaport, to grow more than sufficient for his own consumption; and the peasant only cultivates land enough to yield the produce required to support his own family.—*Russian Shores of the Black Sea.*

Religious Worship.—There has just been published a Parliamentary volume containing a report and tables concerning religious worship, as exhibited by the census of Great Britain, 1851. The volume has reference to England and Wales 35 different religious communities or sects—27 native and indigenous, and 9 foreign. Taking the population of England and Wales at 17,927,609 there was present at the most numerously attended services on Sunday, March 30, 1851, the number of 2,971,258 members of the Church of England, 3,110,782 Protestant Dissenters, 249,389 Roman Catholics, and 24,793 of other bodies. According to the census tables, the religious bodies in England and Wales have 34,467 places for worship, and the number of attendances on the census Sunday was 10,896,066. It is estimated that 7,261,032 persons attended some religious service on that day.

Sunday-schools in Great Britain.—At the time of the census, there were more than 250,000 teachers in Sunday-schools instructing, every Sunday, in religious knowledge as many as 1,800,000 children. The total number of Sunday scholars on the books of the schools was about 2,400,000, and about two teachers to every fifteen scholars.

Oil, from Cotton Seed.—An establishment for the manufacture of oil from cotton seed has been started in New Orleans. It is asserted that the oil is of a bland, pleasant taste, possessing all the qualities of olive oil, that it burns with great brilliancy, and is peculiarly fitted for using upon machinery, on account of not gumming or drying. If the oil is really valuable, the manufacture will be an important one, for the quantity of raw material is unbounded.

A French Lady, at Athens, established in 1849, a prize of five thousand francs for the Jewish damsel who, after close examination, should be declared the most proficient in the Hebrew language. It was divided between a young lady of the city of Nancy and another of Strasburgh, 2,300 to the other. The Three Grand Rabbis of the Central Consistory of France, and several eminent Hebrew scholars, were the judges. They found the competitors thoroughly versed, and worthy in an absolute sense, of what was awarded.

Yankee Calculation.—The *Hallowell Gazette* says that some cute Yankee has estimated that the ocean contains 26,000,000 of cubic miles of water—a quantity about equal to that which all the rivers of the earth would disgorge in 40,000 years. The amount of heat received from the sun in a single year would be sufficient, if equally distributed, to melt a crust of ice 32 feet thick, enveloping the whole earth. According to the technical reckoning, the solar heat which annually rise from the sea-water in the form of vapour would, if properly directed, exert an influence equal to sixteen billions of horse-power.

A lady passing along the street one morning last week, noticed a little boy scattering salt upon the sidewalk, for the purpose of clearing off the ice. 'Well, I'm sure, said the lady, 'this is real benevolence.' 'No it' aint, ma'am,' replied the boy,' *it's salt.*

An old maid excused her celibacy from "never having seen the man for whom she'd be willing to cook three meals of victuals every day of her life."

Punch asks the Table-turners if they ever turned a square table round.

The following are the latest "American novelties." The *Boston Post* calls November and December the *embers* of the dying year. And the *American Courier* is guilty of the following story: "A bundle of *Harper's Magazine* being thrown from an express-train on the Hudson River Railroad, was caught in the running gear, and strewed for half a mile along the track, until the wheels of the engine, tender, and carriages, were literally *tired* with reading."

APPRENTICE WANTED.

A SMART BOY, of about 12 or 14 years of age, with a good English Education. Apply at this Office.

WILLIAM HEARD,

THANKFUL for past favours, begs to intimate the ARRIVAL of the *Nugget*, direct from England, with the following *GOODS*,

For Christmas presents, a splendid collection of *Jewelry*. The whole will be sold at the lowest figure for cash.

Charlottetown, December 9, 1853.

GLEASON'S PICTORIAL.

ON the first of January next, *Gleason's Pictorial* will commence its *sixth volume*, and will appear vastly improved in all respects, with a superb new heading, new type and dress throughout, and will be printed upon the finest paper. As the proprietor of the *Pictorial* has purchased the entire good will of Barnum's New York *Illustrated News*. and has merged that journal in the *Pictorial*, the public will reap rhe advantage of this concentration of the strength of the two papers upon one, both in the artistic and the literary departments. The same brilliant host of contributors and artists will be engaged on *Gleason's Pictorial* as heretofore, aud a large addition is also made to the corps, both in talent and number. The most liberal arrangements have been completed, and such as will enable the Proprietor to produce by far the finest illustrated journal yet published, and much superior to the present issue of the paper. The columns of the *Pictorial* will constantly be beautified by all that can please and instruct in art and nature, and its literary department will fully sustain the high reputation it has so long enjoyed.

The pages of *Gleason's Pictorial* will contain views of every populous city in the known world, of all buildings of note in the eastern or western hemisphere, of all the principal ships and steamers of the navy and merchant service; with fine and accurate portraits of every noted character in the world, both male and female. Sketches of beautiful scenery, taken from life, will also be given, with numerous specimens from the animal kingdom, the birds of the air, and the fish of the sea, and will present in its mechanical execution an elegant specimen of art. It will contain fifteen hundred and sixty-four square inches, giving a great amount of reading matter and illustrations—and forming a mammoth weekly paper of sixteen octavo pages.

Terms:—Three dollars per annum.

Published every Saturday by F. GLEASON.
Corner of Tremont and Bromfield Streets,
Boston, Mass.

Subscriptions received at G. T. Haszard's Book Store.

The Wonder of the World!

Devines' Compound Pitch Lozenge.

THE Great Remedy is at last discovered, and COUGHS, COLDS, ASTHMA. COSTIVENESS AND CONSUMPTION have lost their terror, and vanish as as if by magic before this Sovereign remedy. Was it ever before known that, *Hopeless cases of Consumption were crred for less than $5?*

Truly, if any individual is to be pitied, and needs sympathy, it is the consumptive,—always expecting to get well, and yet the painful evidence of decay almost "makes the inner soul shrink with the outer flesh."

"Some bloom as roses bloom,
And live as roses live,
A single morning space!"

While others, in more mature life,—by some imprudence and a slight cold neglected,—in the hectic flush, the painful cough,
"The prints of their parting steps appear."

All we ask is this one question:—If you have got mucous membranes, or any other members of the body that are "heirs to ills."—are you not interested in this *great remedy*, Devines' Compound Pitch Lozenge

Sold by W. R. Watson and T. DesBriasy & Co., at Apothecaries' Hall.

FOR SALE.

The Renowned Remedy!

HOLLOWAY'S OINTMENT.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS—A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Muyor of Boston, Lincolnshire.

To Professor Holloway,

Dear Sir,—Mrs. Sarah Dixon, of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules, as to diet, &c, she was perfectly cured, and now enjoys the best of health.

I remain, Dear Sir, yours truly,
(Signed) J. NOBLE.

Dated August 12th, 1852.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated January 12th, 1853.

To Professor Holloway,

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Oinrment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant,
(Signed) ELIZABETH YEATES.

A DREADFULLY DISEASED ANCLE CURED AFTER BEING GIVEN UP BY THE FACULTY, AT MALTA AND PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King-st., Norwich.

Copy of a Letter from Captain Smith, of Great Yarmouth, dated January 19th, 1853.

To Mr. Dixon,

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicines:—Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, had a very bad ulcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his ancle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which, by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly,
(Signed) JOHN SMITH.

Albert Hotel, Great Yarmouth.

SURPRISING CURE OF A BAD BREAST, NERVOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr. T. F. Ker, Chemist, &c., Lower Moss-lane, Manchester, dated February 12th, 1853.

To Professor Holloway,

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mr Martha Bell, of Pitt-street, in this town, had been for a considerable time laboring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result; in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, and the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain dear Sir, yours faithfully,
(Signed) T. FORSTER KER.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Cancers	Sore-throats
Bad Breasts	Contracted and Stiff Joints	Skindiseases
Burns		Scurvy
Bunions	Elephantiasis	Sore-heads
Bite of Mosquitoes and Sand Flies	Fistulas	Sore-nipples
	Gout	Soft Corns
	Glandular swellings	Tumours
Coco-bay	Lumbago	Ulcers
Chiego-foot	Piles	Wounds
Chilblains	Rheumatism	Yaws.
Chapped hands	Scalds	

Sold at the establishment of Professor Holloway, 244, Strand, (near Temple Bar,) London, and by all respectable Druggists and Dealers in Medicines throughout the Civilized World, in Pots, at 1s 3d, 3s 3d, and 5s each.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot.

DR. CHALMERS' WORKS.

[*"To commend these works is superfluous; they have met with universal approbation from the British press and public. That the periodical press, representing so great a variety of religious and political opinion, should have so generally noticed them, and that too with high commendation, is a circumstance exceedingly rare, if not altogether unparalelled. They have charms for the merely literary man, and they will obtain a hearing for evangelical truth in quarters from which it would otherwise be excluded."*]—*Kitto's Journal.*

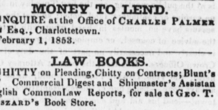
LAW BOOKS.

CHITTY on Pleading, Chitty on Contracts; Blunt's Commercial Digest and Shipmaster's Assistan English CommonLaw Reports, for sale at Geo. T. Haszard's Book Store.



AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

Prof. Valentine Mott, the distinguished Surgeon of New York City.

Doct. A. A. Hayes, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Ira L. Moore, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. Southwick, Esq., one of the first merchants in New York City.

C. A. Davis, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.

Prepared by James C. Ayer, *Practical and Analytical Chemist*, Lowell, Mass.
