N.B. Member Urges Fair Floor Price For Potatoes

OTTAWA (Special)—Liberal MP Herve Michaud (Kent, N. B.) Tuesday night demanded that the Federal Government establish floor prices for potatoes that will "give the farmers a fair price for their crop each year."

Mr. Michaud said farmers in his own Province, in Prince Edward Island and in other provinces agree that potatoes are not adequately protected now, "in view of the constant fluctuations in the market price of potatoes it is particularly important for producers of this important crop to have some assurance that they will receive a fair price for crop each year," he said.

He quoted to the House a June 7 editorial from The Guardian calling for establishment of support prices following the visit of a delegation from P.E.I. led by Agriculture Minister Eugene Cullen.

"I hope the minister and his colleagues will soon meet this request," Mr. Michaud said. Prime Minister John Diefenbaker last February said that "there is a distress price below which all agricultural products cannot fall."

Mr. Michaud said, "of course all honorable members who have read the Agricultural Prices Stabilization Act will realize that only nine agricultural products receive this support." "Producers who want other products protected must convince the government of the need to do so."

"If the Prime Minister believes that this Act includes all Agricultural products I invite him to announce a price for this year's potato crop which will assure the farmers of New Brunswick a fair price relationship to other products," he said.

Mr. Michaud spoke during the debate on the budget presented last week by finance minister Donald Fleming. "The Canadian farmer is certainly the forgotten man as far as this budget is concerned," said Mr. Michaud.

On Monday Agriculture Minister Harkness stated that the Federal Government had offered 45 cents a bag assistance payment to P. E. Island growers.

Commencing at 6:00 p.m. Saturday the sets will be manned continuously for 23 hours.

Members of the government-sponsored disaster services committee and the local Red Cross are expected to be on hand to inspect the installation and determine its effectiveness.
