Canadians Put Savings Away At Record Rate; Bank Says

OTTAWA (CP) — Canadians tucked away savings in personal bank accounts at a record rate last year.

Personal savings deposits in chartered banks jumped $736,000,000 to $6,844,000,000 at year's end, an increase which the Bank of Canada reported Thursday was "much the largest on record."

The bank's annual report, tabled in the Commons, said there was more cash in circulation, too. Currency held by the general public outside banks rose by $114,000,000 to $1,781,000,000 during the year.

The report, summarizing 1958 operations of chartered banks, said that although their business loans declined, "toward the end of the year . . . business demand for bank credit began to show definite signs of revival and the seasonal decline in business loans in the final quarter of the year was less than normal."

Business loans declined by $141,000,000 in 1958 and at year's end stood at $2,733,000,000.

But borrowing by individuals, farmers and others more than took up the slack in the general lending by chartered banks. Personal loans rose by 24 per cent or $173,000,000 to $896,000,000; farmers' loans rose by $19,000,000 to $368,000,000, and other general loans increased by $25,000,000 to $140,000,000.

The report said the decline in demand for bank credit "was particularly marked in the categories of iron and steel industry, mining, petroleum and products, forest products and merchandising concerns."
