Strange, but True

The child that cannot digest milk can digest Cod-liver Oil as it is prepared in Scott's Emulsion. Careful scientific tests have proven it to be more easily digested than milk, butter, or any other fat. That is the reason why puny, sickly children, and thin, emaciated and anæmic persons grow fleshy so rapidly on Scott's Emulsion of Cod-liver Oil and Hypophosphites when their ordinary food does not nourish them.

THE EXAMINER

THE LONDON TIMES

SOME OF THE VICTORIES WON BY THE THUNDERER.

The Actual Management of the Paper Always in the Hands of Mr. R. C. Freeman, the Times War Correspondent, in McClure's Magazine.

In these days of blatant journalism it is refreshing to recall some of the great deeds of the Times, and to remember that they were allowed to speak for themselves. It organized the historic campaign against the Congo Laws, and put victory into the hands of Richard Cobden; it crippled the French Republic of 1848, and aroused England against the pretension of that more than human tyrant Napoleon III. It preached a crusade against Russia, and even when the Crimea was invaded, it indicted the generalship of the British commander-in-chief and compelled the Prime Minister, Lord Aberdeen, to resign his office.

It is not too much to say that John Walter the second was the most commanding, the most creative, and the most many-sided editor the world has ever seen. The constant impression is that John Thaddeus Delane, who afterwards occupied the editor's chair, was absolutely independent of Mr. Walter, but the truth is that the editor was always under control. Mr. Delane had the strategic mind, the personal magnetism, the profound intuition, the firm hand, the self control and equanimity of a born general.

Don'ts for Bicyclers. The Wheelmen Should Avoid Searching and Searching for a "Century." Don't wheel up a steep hill. Leave that sort of thing to fellows who haven't enough sense to go in when it rains.

As Mr. Walter advanced in life he became first a magistrate, then high sheriff, and later on member of parliament for his country. In and out of parliament he was always the same—inscrutable, immovable. He declared war in 1824 on Lord Melbourne's Poor Law, and prophesied that the union workhouse system organized on such a scale would partly depopulate the country.

It is impossible to say when the drift toward the towns will cease, or be equalized by the contrary drift from the cities toward the country. We see both tendencies at work at the present time, and every student of sociology is at liberty to predict for himself what is going to be the result of these very interesting population movements.

We see both tendencies at work at the present time, and every student of sociology is at liberty to predict for himself what is going to be the result of these very interesting population movements.

In a certain sense the editor, Mr. George Earle Buckle, and the acting manager, Mr. C. S. Moberly Bell, representing John Walter and his son Arthur—are supreme in their respective departments; but the final authority is still exercised on vital questions by Mr. Walter. He is a grave, well-read man, with strong convictions. There is something leanline about his head and face, and still there is not a gentler heart in England.

DR CHASE'S OINTMENT CURES ITCHING PILLS, ECZEMA, SALT RHEUM. H. L. Lisle, representing Gansing Bros., St. Stephen, N.B., says: "Chase's Ointment cured me of a very obstinate case of itching eczema. It is nothing like any other I have used."

ODDS AND ENDS.

Delays are dangerous. Do not delay a single moment but send for a bottle of Miller's Emulsion of Cod Liver Oil if you are threatened with consumption or lung troubles.

It is rumored that the Dominion Government intends putting two hundred thousand dollars in the next estimates for a new Custom House in Ottawa.

Bad Blood Between Them.

The delicate sister in the city, suffer more than they care to tell. The dark rings round the eyes, headaches, dizziness, palpitation or rheumatic twinges, broken a run-down system, the blood is poor, and is a bar to enjoyment of life.

A Good Deal in a Few Words.

Practically all the Clyde engineers are idle, as the bulk of them refused to go to work a few mornings ago at a protest against the action of the shipbuilders in ordering a partial lockout.

That Pale Face.

For Nervous Prostration and Anæmia there is no medicine that will so promptly and infallibly restore vigor and strength as Scott's Emulsion.

Wore Gleaned Gloves Seven Years.

John Siron, mason, Aultsville, Ont., had salt rheum so severe that for seven years he wore "gleaned" gloves. "I used a quarter of a box of Chase's Ointment. It cured me. No trace of salt rheum now."

COMFORT FOR THE GUARDS OF BROOKLYN BRIDGE CARS.

It doesn't seem much of a snap to be a guard on a Brooklyn Bridge car when nipping winds are carving around, and the thermometer is making a big effort to lower its own record.

MR. JAMES HAMILTON, sparmaker, Paradise Row, St. John, March 30th, 1894, declares:

"I have been suffering terribly since my recent injury, from severe pain in my back and side. I used PRUSSIAN OIL as the most efficacious remedy, and with this comforting protection they can enjoy even the wildest days without suffering from cold.

He Was Nearly Killed.

The modiste has her domain, but Priestley's black dress fabrics have made the modiste's work a pleasure. They drape so gracefully, they fit so easily; they wear so well. And their new "Eudora" (learn even Priestley's records) This is the newest black dress fabric about which the ladies are full of praise. It comes in black only, and it is finer, and has a more exquisite glow, a greater width and weight, than the Henriettes.
