such as the improvement of Education, Administration of Justice, and this of Postal Communication, which should receive the fullest attention from both sides of the House, and to the discussion of which, members should bring minds divested of party spleen or rancor, and be willing to contribute to the utmost of their ability, all that talent, learning or experience may enable them to give to the furtherance of the public welfare and advantage.

We are actuated in our discussion of public matters by no private motives, nor are we retained to advocate any private interests; and, so far from the Hon. Mr. Lord's late pique or personal malice against the Hon Mr. Lord, the contrary is the case, and we have admired—as every body must—the noble use Mr. Lord has made of the wealth of his own earning, in advancing his young relations, and furthering their prospects in the world. W. W. Lord, Merchant, and the Hon. W. W. Lord, M. P. P., Executive Councillor, &c., &c., &c., are two very different beings; in our eyes, we do not think ourselves bound to pay the same respect to the sayings and doings of the politician that we willingly accord to those of the man.

MECHANICS' INSTITUTE.

According to previous announcement, John G. Daly, Esq., delivered a lecture upon the "Reign of George the Third." Having such a wide field, Mr. Daly felt much difficulty in compressing his remarks into the limits of the compass of an hour,—but he did it ably, and he did it well. After presenting an historical view of Europe, during the long and unprecedented Reign of the old monarch, he gave a rapid sketch of his life, and of the lives of some of the most eminent statesmen,—Heroes, lawyers, and others—celebrated for science, and useful inventions during that period of time, whose genius and lustre, made *it*, in very deed, "*a golden reign*."

Mr. Daly read his lecture easily and audibly, and acquitted himself with much credit. He was complimented during the animated discussion that followed; and many privately expressed a wish, that he would soon be induced to lecture again.

William M. Howe, Esquire, will lecture next Tuesday evening, on "Capital Punishment."

In consequence of the second Vice President, having declined to serve, T. Heath Haviland, Esq., M. P. P. at the close of the evening's proceedings was elected, by ballot, to fill that office.

Blooming Rose Division S. of T. Belfast.

At a Meeting of the above Division held at their Room on Friday evening the 26th inst. After the business of the Division was got through, the members entered into a discussion as to the best way, that could be adopted to prevent the sale of Spirituous Liquors in this community, until the passing of the long hoped for Maine Liquor Law. That whereas it did appear, that not later than last summer, there had been more than 1 Rum shop in the whole District, between Belle Creek and Newtown, a distance of about 8 miles, and it being a fact, that there have been 14 different persons selling rum this summer in this community and believing only 2 out of them legally License—Members of the Division strongly condemned the conduct of some of those Retailers, who could earn a livelihood otherwise without beginning at the wicked traffic of rum-selling; and considering them enemies to the youth, as well as the few old rum-drinkers, beside the prosperity of our settlement. Truly it is full time to put an immediate stop to such a state of affairs, and to close the doors of some of these haunts of wickedness who are still persisting in this sinful traffic, and fearing the duty and power of our country Magistrates, and in defiance of the noble exertions of the members of the Blooming Rose Division.

The Division came to the conclusion to pass the following resolution, which was agreed to unanimously.

Resolved, That this Division considering the evil, that Alcoholic drinks have done and may yet do in this neighbourhood, they do hereby form themselves into a Committee to exert their utmost endeavours to arrest the progress of the drinking custom, and will, after the publication of this resolution, without distinction of persons, report every infraction of the law, to the proper quarter, who will be found guilty of selling Spirituous Liquors in less quantities than 2 gallons, unless they have a licence for that purpose, within the bounds of this Division, that is, between Belle Creek and Orwell.—*Com.*

THE COLONIAL LEGISLATURE commenced its sittings yesterday. We have given the proceedings of the House of Assembly furnished by the Reporter, W. M. Howe, Esq., up to their adjournment last night. At the hour we are going to press the House was occupied in reading Despatches relative to the Reciprocity Treaty.

A COLONIAL MAIL arrived on Tuesday morning, the papers contain very little news of interest. We notice that they have felt the earthquake in Nova Scotia and New Brunswick but not much more severely than here.

BANK BILL.—We are sorry to learn that this important measure has been refused the royal allowance, owing to the insertion of the clause, we understand, which provides that 12½ per cent. may be exacted from the bank when it refuses to cash its own paper. This clause is the one which gave rise to most opposition in the Legislature.—*Exm*

TO THE EDITOR OF HASZARD'S GAZETTE.

Sir;

Thinking that the readers of the *Gazette* would like to know how we are getting on in this Island for land, on what was formerly called "Worrell," but now "Government Estate," please to inform them that we had a great field-day here on Monday last. The Public Land Commissioner was here, accompanied by his Aide-de-Camp, Mr. Little, offering to sell the Land to the people at 12s. 6d. an acre, for the first quality; 8s and 5s per acre for inferior qualities; and demanding two years' rent in satisfactory Notes of Hand. Some accepted of the terms, many would not, as they had been promised at the last Election that in no instance would a Farm of 100 acres cost more than £25. You may guess our surprise, when the Commissioner told them, they would have to pay £62 10s. for a Farm of 100 acres; £37 10s. Mr. Editor, makes a very great difference in the price of a Farm, to a man with a family.

In the latter part of the day a gentleman made a speech against the terms of sale, the crowd took his advice, formed themselves at once into a Public Meeting, and appointed him Chairman; they then prepared, adopted, and signed a petition to the House of Assembly, to get the price of the best Farms brought down to Eight Shillings per acre, and to do away with all Arrears of Rent. There is also another petition, handed me by Cooper's Bank, to have the land escheated. The escheaters say, they have now got two strings to their bow, when escheat fails, they have only to comply with the conditions offered by the Commissioner. This is the state of things here at present.

Yours, &c.,
OBSERVER.

Head of St. Peter's Bay,
February 7th, 1855.

TO THE EDITOR OF HASZARD'S GAZETTE

SIR,—In your issue of the 3d instant, I perceive a letter addressed to me, signed "an Importer," asking me to give an account of the different seizures of Smuggled Goods made while I held the office of Land-waiter and Preventive officer. I cannot conceive, Mr. Editor, why such a letter should be addressed to me on that subject, or who Mr. Importer is, unless he is a snatcher in disguise, which I think he is. Yet, I care not. Whether "Importer" is a snatcher or not, or no matter what he may be, I feel it due to the public, that I should answer the question asked me.

I made several seizures while in office, and *on all occasions* sold the goods at Public Auction, and handed over to the Receiver of Island dues the portion of the proceeds of sale that the government was entitled to, according to *Law*. The parties who smuggled these goods were, in no case, prosecuted for the penalties: and because I do not know, as the crown officers were the proper persons to enforce penalties in such matters; on one occasion I was selling two casks of rum at public auction and W. W. Lord, a member of the Colonial Liberal Government, was present and told the parties who were bidding for the rum that they could get *stronger, better, and cheaper* Liquor at Barry's than that which I was selling, but reason for so doing must be, I presume, that Mr. Barry is a tenant of his, and he would therefore prefer putting money into Mr. Barry's pockets, than into the *public chest*, or perhaps the liquor that I was selling belonged to some of *Lord's* friends. On another, occasion when I made a seizure, the party who was unlawfully possessed of the goods, threatened me by saying, that he would get *Cole* to fix me for what I had done, that in seizing any goods which were smuggled by the party which supports Cole's *Government*, as anything of the kind was termed by Tenants Compensation Bill, Bill for appointing Sheriffs and Bill for taking census which were read a first time, and I was not the Landlord's Bailiff. Mr. McDonald presented the Light and Impost accounts for the district of Georgetown—referred to Committe on Public accounts.

On motion of the Hon. Col. Secretary the standard order of the House requiring notice of the introduction of Bills, was suspended to enable him to introduce 3 Bills, brought down as Government measures, viz: Tenants Compensation Bill, Bill for appointing Sheriffs and Bill for taking census which were read a first time, and the second reading fixed for Monday next.

COLONIAL LEGISLATURE.

HOUSE OF ASSEMBLY, Feb. 13.

Hon. George Coles, Col. Secretary; Hon. Jas. Warburton, Col. Treasurer; Hon. Edward Whelan Queen's Printer; Hon. Robert Mooney, Registrar of Deeds; and William E. Clarke, Esq., Collector of Excise, were sworn in as Members of the House, on their reelection after their acceptance of the offices set against their respective names.—

Hon. Col. SECRETARY, by command of His Excellency the Lieutenant Governor, laid upon the Table a Copy of Her Majesty's Commission on the subject of the Patriotic Fund, which having been read by the Clerk, the Hon. Secretary moved that the same be referred to the Committee of Supply. In doing so, he presumed that the House would readily contribute to the object of the Commission, as had been done in the other Colonies.

Mr. COOPER opposed the motion, arguing that it was premature, the House having not as yet ascertained the amount which would accrue to the Fund from the various Public Meetings which had been held in aid of the object. The District which he represented had contributed liberally from private means, and it would be unfair to tax those who had already paid, by an appropriation of the Public Funds.

Hon. Mr. WHELAN in reply to Mr. Cooper alluded to the public meetings held on the subject throughout the Island and in the Hon. Member's (MrCooper's) own district and could state with confidence, that it was the will of the people that the Legislature should make an appropriation out to the fund, as the state of the revenue and the exigencies of the public service would allow. Although the voluntary subscriptions in the Island had been liberal, it would never do for us to fall behind the example set by Canada, Nova Scotia and New Brunswick.

Mr. COOPER thought that as the session had but just commenced, it would be advisable to postpone any action until the aggregate amount of voluntary contributions had been ascertained.

Hon. Col. SECRETARY explained that no particular sum was now demanded. His motion being merely for a reference to the Committee of supply, that the various meetings manifested clearly the feelings of the people on the subject. That the returns of the different collections would shortly be before the Hon. Members, but that he hoped and believed that the House would assist the House, would be voted irrespectively of such returns. That the revenue this year exceeded that of the last by £10000, and that the people of this Island feeling that we have men engaged in the war, were fighting their battles, although not paid or fed by them, would cheerfully contribute what could be spared from the public purse towards the comfort and support of their Widows and Orphans.

Hon. P. EDWARD coincided with the last speaker, and added that they who had subscribed liberally from their private means would have no objection to a public appropriation, while they who had declined to contribute would be induced to do so indirectly by the Legislative grant.

Hon. Mr. WIGHTMAN repudiated the idea of taking the amount of private subscriptions as a guide to the House in fixing the amount to be voted in supply. At a numerously attended meeting held at Murray Harbor, on the subject, not only did the people subscribe very liberally, but expressly authorized their representitives to vote for a public grant. That the Editors of the Newspapers, he found that the sums subscribed by individuals in the Island, bore a greater proportion to their means, than was shewn by the returns of any other part of the Mother Country, where greater personal interest must naturally be felt in the cause.

Hon. Mr. MOONEY deprecated all allusion to the neighboring Colonies—Prince Edward Island had been roused very differently from them. They had cause for gratitude to the British Government, but this Island was downtrodden by the Imperial Authorities, and the method now proposed of augmenting the fund, by taxing the people who did not subscribe to contribute and rendered the term "Patriotic" a misnomer.

Hon. Mr. WARBURTON thought that the amount raised elsewhere was no criterion for the House. He could speak for the people whom he represented, not 20 men there were opposed to the grant, and from his knowledge of his constituents, one of their wish that the grant should be a liberal one.

Hon. Mr. WIGHTMAN moved the appointment of a Committee on Public Accounts. The following gentlemen were appointed: Wightman, McDonald, Perry, Whelan, Longworth, Clarke and Haviland.

Hon. Col. SECRETARY laid on the table a classified statement of the public accounts, by which it appears, that the revenue collected for the last year was £92898 5s 8½d including the sum of £18000 paid for the Worrel Estate, against the receipt of £46033 16s 6d, deducting, however, the purchase money of the Worrel Estate, which cannot be fairly charged to the ordinary revenue of the year, would leave a surplus of £11135 5s 10½d over the expenditure, and after paying the balance of the previous year against the Colony of £2029 15s 6d, would leave the sum of £9105 14s 4½d, clear of Treasury Notes, Debentures and unpaid Warrants.

Hon. Mr. WARBURTON laid on the Table the Treasurer's accounts for the last Year.—Mr. Clark presented the Light and Impost accounts for Mr. McDonald presented the Light and Impost accounts for the district of Georgetown—referred to Committe on Public accounts.

On motion of the Hon. Col. Secretary the standard order of the House requiring notice of the introduction of Bills, was suspended to enable him to introduce 3 Bills, brought down as Government measures, viz: Tenants Compensation Bill, Bill for appointing Sheriffs and Bill for taking census which were read a first time, and the second reading fixed for Monday next.
