

THE DAILY EXAMINER.

JUNE 19, 1894.

NOTES AND COMMENTS.

According to the Glasgow Evening News it appears that the latest statistics issued by the German Imperial Health Department give Berlin the honor of being the healthiest city in the world. The death rate is given as only 16.3 per 1,000. The unhealthiest city is Alexandria, which despite its unvarying fine weather, its three hundred fountains and its soft sea breezes, has a death rate of no less than 52.9 per 1,000.

Probably a very good test of the prosperity of a people is the amount of life insurance in force. The life insurance policy is the most largely adopted by the man who has a small income, for the purpose of protecting his family in case of his death. While the population of Canada has only increased since the Crisis went out of power from 12 per cent. to 15 per cent., the life insurance in force has increased from \$36,000,000 in 1879 to \$295,000,000 in 1893. These figures speak for themselves.

Montreal Gazette: There has been few great falls in the commercial world than that of Ernest Wiman. A few years ago he had pushed himself to the front as a publicist, as a framer of political policies, a millionaire and a successful business man, who had the power of turning everything he touched into gold. The events of the past week have shown that his greatly advertised schemes were failures, kept up by the fraudulent use of other people's money, and that he was a failure and a fraud himself. The spectacle is a pitiable one.

It is currently reported that the Government have decided to abolish the agricultural department of the Prince of Wales College. We trust the report is without foundation. Instead of doing away with this branch of the educational system of the Province, the Government should foster it. They should not only have the science of agriculture taught in the college, but the teaching should be exemplified by practical work on the Government Farm. This is essentially a farming country. What benefits the farmer benefits the Province and the people. Agricultural education is a great boon to the farmer and the farmer's sons. Let it therefore be encouraged and extended rather than abolished.

A gentleman writes to the Montreal Times from Hamilton, Maine, that potatoes are delivered at the stores there for 40 cents per bushel; best butter for 17 and 18 cents; eggs 9 cents per dozen; dressed lard \$11, lard \$9 a ton; oats 40 cents, delivered; real 6 cents, best 7 cents and other things equally as cheap. Wages for men on the new railway now building are \$1.25 a day and horses \$3 a day. The place is crowded with men and horses and as very little public work is going on in the state, the prospects are not good for any increase in wages. The Times thinks that the man who still thinks that Canada's condition would be improved by a trade alliance with the United States should ponder over these figures.

The threatened retaliation business in the United States is running the usual course. As an example of the attitude of merchants are representing that the proposed cancelling of the landing privilege would be a great injury to New England. Delegates from Boston before the house committee on foreign affairs represented that "the route through Canada to Boston is a natural one for commerce and to the Western and Northwestern States, and that the Canadian transportation companies have generally conducted it fairly." The delegates also add, "that to enforce such a law, inspired by the building of the new canal, would drive a much shipping from Boston and other New England ports to Canadian ports." This is the view of the matter which Canadians fully understand and appreciate, and hence they regard all threats of retaliation with equanimity.

Hon. John Haggart, Minister of Railways and Canals, addressed his constituents at Frankton a few days ago. In dealing with the tariff question, he spoke as follows:—"The Government have on the most careful inquiries as to the effect of the tariff. Where they have learned that any combine was formed between manufacturers in the United States to raise prices, they have lowered the duties as in the case of lumber in the Province of Manitoba and the Territories. They will not tolerate these combines for the purpose named, and if it is shown in the future that such combines are formed with that purpose in view this Government will kill them combines at the very first opportunity. The design of the Government is by their tariff to keep the home market for the producers so long as they do not abuse the privileges given them, but if they attempt to abuse the privileges given them, they might as well understand at once that the Government will not tolerate any such conduct. I speak as a member of that Government, and I have no hesitation in telling you that we are bound to have been competition and the lowest possible prices to the consumers."

FOUND IN A BOTTLE.—Mr. J. G. McIntyre, of Shipigan, Gloucester, sends the St. John Globe a scrap of paper which he found in a bottle picked up on the shore of Shipigan Harbor on the 12th June. The piece of paper contained this writing in pencil: "To whosoever will find this bottle, we are off Prince Edward Island in lat 49, long 54 north-west. Today at ten o'clock an aerial squall struck us and broke our masts and her sternpost came off, and we are in great trouble. Our schooner is sinking. I suppose we are lost. So good bye! We all belong from P. E. I. We are five aboard. My schooner's name is Lily C; tonnage 94." (SPL) CAPT. C. McKELLEY, June 4th, 1894.

FATALITY AT ST. JOHN.—At three o'clock on Sunday morning the fire bells rang for a call of the firemen to Waterloo street St. John, where a house occupied by three families had collapsed burying all three beneath the debris. The firemen responded promptly and worked hard to remove the debris and rescue those entombed beneath the buildings. They got about five persons out when the cry was raised that one was still missing. With renewed energy the firemen set out to find the missing one who proved to be Miss Alice McCormick, aged 33. All efforts to bring her back to life were in vain. She must have been instantly killed. All the others were rescued, some with very severe bruises.

The earlier symptoms of dyspepsia, heartburn and occasional headaches, should not be neglected. Take Hood's Sarsaparilla to be cured.

ATTEND THE A. O. H. Picnic at St. Dunstan's on Thursday next.

DRAGGED BEHIND A HORSE.

Miss Simpson, of New London, Meets With a Sad Accident.

A sad accident happened near Milton Station this morning. Miss Simpson, of New London, accompanied by her daughter, was coming to town, and on the way they stopped to feed their horse at Mrs. Charles Hooper's Seven Mile House. Mr. Simpson took the bridle off the horse, hanging it on the harness, and proceeded to the house, leaving his daughter sitting in the buggy. The train from the city passed Milton Station shortly after eight o'clock. This horse took fright from the train's whistle and started to run. The buggy collided with a post upsetting it and throwing Miss Simpson to the ground. The horse cleared himself from the buggy, but Miss Simpson got entangled in the reins, and in this way was dragged behind the frightened horse from the Seven Mile House to Milton Station, a distance of nearly half a mile, where she was caught and the poor girl rescued. She was badly cut and bruised and her clothes tattered and torn. People who saw the runaway say that once she was lifted in mid air and carried a distance of from fifteen to twenty feet before touching the ground. The unfortunate girl was conveyed back to Mrs. Hooper's and Dr. Hooper immediately set for her all possible to relieve her sufferings. Slight hopes are entertained for Miss Simpson's recovery.

PERSONAL.

Fred. C. Denison, Montreal, was registered at the Hotel Davies this forenoon. Rev. Alfred Osborne and Mrs. Osborne and family, arrived at Summerside last evening. A. Martin, Valleyfield, and Mrs. J. A. McDonald, Glenafade, were at the Queen Hotel this forenoon. Archbishop Tache still lies in a very critical condition, but the doctors are very hopeful that with his naturally sound constitution he may rally.

George Carter, Esq., who has been visiting Boston and New York in the interests of the fancy goods and toy department of his business, returned home last evening. Mr. James Jeffrey Roche, the talented editor of the Boston Pilot, arrived here last evening via Pictou. He will deliver an address at the commencement exercises of St. Dunstan's College, which are to take place in the Lyceum on Friday evening next.

Mr. Walter P. Doull, of this city, has been engaged by a committee of the Summerside Town Council to prepare plans and specifications for lighting the town by electricity. This is a very important work, and Mr. Doull may be relied upon to give it prompt and careful attention and do it well. Rev. J. Macdonald, of Kinkora, was in the city yesterday. He says the "big" to be held at that place on the 10th July will be the event of the season. Everything that can be done to make it a success in every respect will be done, and all who attend may be sure of having a good time. St. Dunstan's Band and Glee Club will be in attendance, and there will be special trains at reduced fares.

Dr. Angus Macdonald, of Warsaw, Indiana, who is on a visit to his friends here, graduated with honors from the University of Pennsylvania in 1892 and was offered the position of Resident Physician in the Hospital of Philadelphia; but seeing a good opportunity of establishing a practice in the city from which he hailed, he declined this coveted honor. He now commands a large practice, and is a brilliant member of that contingent of which we may so justly feel proud—our Islanders abroad.

Professor Robertson, Dominion Dairy Commissioner, arrived here last evening and left this morning on a tour of inspection of the various cheese factories and creameries throughout the Province. On Thursday afternoon he will address a meeting in Charlottetown, and the same evening he will address a public meeting at Windsor Road. It is understood that before he leaves the Province Professor Robertson will arrange for a monster picnic during the visit of the Governor-General.

The Boston correspondent of the Halifax Herald writes: Captain Norton, editor and publisher of the New York Marine Journal, accompanied by Mrs. Norton and a few friends, will go to Halifax on the steamer Halifax June 26th, will visit the Annapolis Valley, go to St. John, and thence via Shediac to Summerside and Charlottetown, returning to Boston on the steamer Florida. The captain will, no doubt, see much to praise in his paper after his return from the trip—all of which will be just so much benefit to the provinces at large.

The many friends of Professor Harcourt, of Prince of Wales College, hear with regret that it is his intention to leave the Province for Ontario in a few days. During the time that Professor Harcourt has been a resident of the Province he has made hosts of friends. Last evening the members of Zion Church Christian Endeavor Society presented him with an address, accompanied by several volumes of Tennyson and Longfellow, as a small token of their appreciation of his services as President of the Society and teacher and former Superintendent of the Sabbath School.

Special attention is directed to the auction sale of real estate and other property, to-morrow (Wednesday) June 20th, at noon, on the premises, Great George Street. Terms to suit purchasers. June 19 11

USE SKODA'S DISCOVERY, the Great Blood and Nerve-Remedy.

Sherwood Cemetery. Situate at Junction of Royalty and Brackley Point Roads, three miles from Charlottetown. Burial services may be had whenever required, and interments may be made by trains at passenger rates. Prices of Plots and Vaults, 2x15 feet, sold at reduced rate of \$20.00. Single Graves, 2x15 feet, \$10.00. The cemetery is situated on a high and healthy spot, and is well watered. Plots are sold by lot, and are not less than \$20.00. Plots are sold by lot, and are not less than \$20.00. Plots are sold by lot, and are not less than \$20.00.

FOR SALE. The Dwelling House on corner of Prince and Fitzroy Streets, owned and occupied by W. J. Miller. Possession given about 1st October. Apply at Miller Bros., Queen Street. June 14, 1894—d f

GENERAL TELEGRAPHIC NEWS

ATLANTA, Ga., June 15.—A special from Raleigh tells of a 16-year-old girl prisoner who has been received at the penitentiary, and whose case is a remarkable one. She is the plain country girl, long of respectable parentage. A young man, prominent in the community, attempted to assault her. She stabbed him to death. The girl goes to the penitentiary for fifteen years. There she has exhibited great interest through the state, and a strong effort is being made to secure a pardon.

LONDON, June 16.—The Earl of Dunraven moved in the House of Lords yesterday, the second reading of the deceased wife's sister bill. He said the experience of the United States and Canada, which did not forbid a man marrying his deceased wife's sister, was a strong refutation of the objections of the bishops. It was a hardship and a cause of expense that a man to marry his deceased wife's sister and legitimate his children by her, must go abroad to have the ceremony performed. Lord Herschell, Lord Chancellor, spoke in favor of the bill. The Archbishop of Canterbury and Lord Selborne and Dudley spoke against it. The bill was lost by a vote of 129 to 120.

The Prince of Wales, Lord Rosebery and Lord Salisbury supported the bill. Lord Salisbury, the Duke of Norfolk and most of the other peers and some twenty bishops opposed it. TANGIER, June 16.—Abdulle Azize has been proclaimed Sultan of Fez. No militant opposition to his accession was manifested there despite previous apprehension of trouble. His uncle, Muley Ismail, has been appointed Khalif of Fez. A large force of French and Algerian troops have been ordered to the city to watch the course of events in Morocco.

LONDON, June 16.—A coaching exhibition was opened yesterday at the Aquarium. It includes articles of about every sort in driving and riding. Some fine painting and prints are also shown. The Princess Louise lent to the exhibition the sleigh which she used in Canada when the Marquis of Lorne was Governor-General of the Dominion.

MONTREAL, June 16.—Donald Morrison was told this morning that he had been pardoned, and received the news in a transport of joy. The famous Meaganic outlay was sentenced five years ago for manslaughter to eighteen years imprisonment. He is dying with consumption, and can't live long.

LONDON, June 16.—The friends of the colonies in this city are very much chagrined at the statement on behalf of the government made by Mr. Sidney Buxton, parliamentary secretary of the colonial office in the House of Commons, last night, to the effect that the Earl of Jersey, the Imperial delegate to the Intercolonial conference at Ottawa, had received no mandate to give it prompt and careful attention and do it well.

Rev. J. Macdonald, of Kinkora, was in the city yesterday. He says the "big" to be held at that place on the 10th July will be the event of the season. Everything that can be done to make it a success in every respect will be done, and all who attend may be sure of having a good time. St. Dunstan's Band and Glee Club will be in attendance, and there will be special trains at reduced fares.

Dr. Angus Macdonald, of Warsaw, Indiana, who is on a visit to his friends here, graduated with honors from the University of Pennsylvania in 1892 and was offered the position of Resident Physician in the Hospital of Philadelphia; but seeing a good opportunity of establishing a practice in the city from which he hailed, he declined this coveted honor. He now commands a large practice, and is a brilliant member of that contingent of which we may so justly feel proud—our Islanders abroad.

A Shield Against Summer Complaints.

Lactated Food Saves Babies' Lives.

A New Brunswick Mother's Testimony.

The daily use of pure Lactated Food conduces to safety, good health and happiness for the infants of Canada. Physicians declare that Lactated Food is a necessity for infants who are deprived of breast milk. When this nourishing and life-sustaining Food is fed to the infant in summer time, it shields and protects from all the fatal complaints that cut down so many poorly fed babies. A New Brunswick mother, who has used Lactated Food, writes as follows:—"When my baby was born it weighed only four and a half pounds, and did not increase much in weight up to its second month. I was advised to use Lactated Food by a friend, and I am happy to say it worked wonders. My baby girl continued to grow and increase in weight, and now, at sixteen months old, she weighs twenty-five pounds. She was not sick an hour during the hot weather last summer; I am sure Lactated Food was her great preserver. I wish every mother knew of the good qualities of this infant food."

Remember Sale of Furniture at 11 o'clock, and Horses, Wagon and superior Milch Cow at 12 30 o'clock, ship on Thursday, at residence of late William Weeks, Esq. Brighton—B. Bealisto, Auctioneer.

To-day the American Society of Civil Engineers meets in annual convention at Niagara Falls, N. Y.

The sessions will continue until the 27th inst., so that a full week will be given to the discussion of those topics which are of the greatest interest to the members of the profession. There seems to be scarcely any difficulties which modern engineering skill cannot overcome.

We also overcome competition with our magnificent stock of Gentlemen's Furnishings. When we say Furnishings we mean everything save Hats and Boots. Our system of doing business has reduced those goods to a minimum. No matter how slender your purse is, you can be suited at the Star Tailor's.

JOHN T. MCKENZIE, jun 19

Desirable Private Residence!

NEWSTEAD HOUSE.

For Sale by Auction.

I am instructed by the executrix of the estate, to sell by Auction on

Wednesday, June 27th inst.

At 12.30 o'clock, sharp.

On the premises, the desirable Private Residence of the late Hon. Judge Hensley, situated on the east side of Upper Prince Street, comprising one acre of land, with large Dwelling House and outbuildings, all in good repair. The premises are nicely arranged with gardens, lawns, drives, ornamental and fruit trees, making it one of the most desirable residences for sale in the city.

Terms—One-third down, balance may remain for a term of years at 5 per cent.

R. BEALISTO, Auctioneer.

June 14—d f cool

PARLIAMENT OF CANADA.

House of Commons Proceedings.

Better Communication Discussed.

OTTAWA, June 19.

Mr. Perry yesterday moved for a return showing the number of trips of the ice boats between Cape Tormentine and Cape Traverse during the season of 1894. Speaking in this motion he deplored the inadequacy of the service between the Island and Pictou performed by the Stanley. Although the Government was to be congratulated upon the improvement of the service over that performed by the Northern Light, he thought the Stanley would give better service between the capes. He favored the tunnel scheme, but as it would take twenty years to complete he thought provision should be made for a daily service in the meantime. Mr. W. O. Westmorland, defended the Government against the charges of the last speaker that the Government had not carried out the terms of a bill. An hour's effort had been made to give P. E. Island the best possible communication with the mainland. The Stanley had been built, and it was admitted to be admirably suited for winter navigation of the Northern Strait. One question raised by Mr. Perry was worthy of the consideration of the Government and that was whether the Stanley could not do better service between Cape Tormentine and Pictou. He contended that the Government should try the experiment of placing the Stanley on this route. He commended the action of the Government in testing the feasibility of the tunnel scheme. It would be some years before the tunnel could be built, and in the meantime a summer ferry should be established between the capes. This would give the people of P. E. Island a mail twice daily instead of once as at present. It would also place them in closer connection with the I. C. R. trains.

Mr. Davies held that the Government was simply "hamboozling" the people. A pop tunnel would cost from \$15,000,000 to \$20,000,000. Hon. C. H. Tupper—Are you against the tunnel scheme? Mr. Davies declined to commit himself.

A SENSATIONAL SUICIDE.

Ticket-of-Leave Man is the Victim.

ST. JOHN'S, Nfld., June 19.

A sensational suicide occurred here on Saturday. A seaman of the disabled steamer Stockholm City named Harris, while suffering from delirium tremens, gashed himself about the body, losing so much blood that he died in a few hours. He was formerly a medical student at a graduate of Oxford. He committed wilful murder in London in 1881 and was sentenced to be hanged. The sentence was commuted to imprisonment for life, and afterwards to ten years. He was then released on ticket-of-leave. He was a very dangerous character. He tried to set the ship on fire on Friday night, and chased a Roman Catholic priest through the streets with an open knife before he suicided.

The Fitzsimmons-Choyinski Fight.

Boston, June 19.

Under the glare of 10,000 lights at the Boston Theatre last night Bob Fitzsimmons, champion middle-weight of the world and challenger of Jim Corbett turned an almost certain defeat into a glorious victory. Had not the police interfered, it was ten to one that he would have finished Joe Choyinski in another punch. As it was, the match was declared a draw in the fourth round.

Hooper Gets Twenty-five Years.

THREE RIVERS, June 19.

Hooper has been sentenced to 25 years in the St. Vincent de Paul Penitentiary for having attempted to drown his wife at Louisville. He made a speech protesting his innocence.

THE DAILY EXAMINER.

JUNE 19, 1894.

NOTES AND COMMENTS.

According to the Glasgow Evening News it appears that the latest statistics issued by the German Imperial Health Department give Berlin the honor of being the healthiest city in the world. The death rate is given as only 16.3 per 1,000. The unhealthiest city is Alexandria, which despite its unvarying fine weather, its three hundred fountains and its soft sea breezes, has a death rate of no less than 52.9 per 1,000.

Probably a very good test of the prosperity of a people is the amount of life insurance in force. The life insurance policy is the most largely adopted by the man who has a small income, for the purpose of protecting his family in case of his death. While the population of Canada has only increased since the Crisis went out of power from 12 per cent. to 15 per cent., the life insurance in force has increased from \$36,000,000 in 1879 to \$295,000,000 in 1893. These figures speak for themselves.

Montreal Gazette: There has been few great falls in the commercial world than that of Ernest Wiman. A few years ago he had pushed himself to the front as a publicist, as a framer of political policies, a millionaire and a successful business man, who had the power of turning everything he touched into gold. The events of the past week have shown that his greatly advertised schemes were failures, kept up by the fraudulent use of other people's money, and that he was a failure and a fraud himself. The spectacle is a pitiable one.

It is currently reported that the Government have decided to abolish the agricultural department of the Prince of Wales College. We trust the report is without foundation. Instead of doing away with this branch of the educational system of the Province, the Government should foster it. They should not only have the science of agriculture taught in the college, but the teaching should be exemplified by practical work on the Government Farm. This is essentially a farming country. What benefits the farmer benefits the Province and the people. Agricultural education is a great boon to the farmer and the farmer's sons. Let it therefore be encouraged and extended rather than abolished.

The threatened retaliation business in the United States is running the usual course. As an example of the attitude of merchants are representing that the proposed cancelling of the landing privilege would be a great injury to New England. Delegates from Boston before the house committee on foreign affairs represented that "the route through Canada to Boston is a natural one for commerce and to the Western and Northwestern States, and that the Canadian transportation companies have generally conducted it fairly." The delegates also add, "that to enforce such a law, inspired by the building of the new canal, would drive a much shipping from Boston and other New England ports to Canadian ports." This is the view of the matter which Canadians fully understand and appreciate, and hence they regard all threats of retaliation with equanimity.

Hon. John Haggart, Minister of Railways and Canals, addressed his constituents at Frankton a few days ago. In dealing with the tariff question, he spoke as follows:—"The Government have on the most careful inquiries as to the effect of the tariff. Where they have learned that any combine was formed between manufacturers in the United States to raise prices, they have lowered the duties as in the case of lumber in the Province of Manitoba and the Territories. They will not tolerate these combines for the purpose named, and if it is shown in the future that such combines are formed with that purpose in view this Government will kill them combines at the very first opportunity. The design of the Government is by their tariff to keep the home market for the producers so long as they do not abuse the privileges given them, but if they attempt to abuse the privileges given them, they might as well understand at once that the Government will not tolerate any such conduct. I speak as a member of that Government, and I have no hesitation in telling you that we are bound to have been competition and the lowest possible prices to the consumers."

FOUND IN A BOTTLE.—Mr. J. G. McIntyre, of Shipigan, Gloucester, sends the St. John Globe a scrap of paper which he found in a bottle picked up on the shore of Shipigan Harbor on the 12th June. The piece of paper contained this writing in pencil: "To whosoever will find this bottle,
