### Protestant Leaders To Tour Russia From U. S.

NEW YORK AP — An eight-member delegation of American Protestant leaders was named today to make a 10-day visit to Russia in an effort to increase "mutual understanding."

It will be the most broadly representative church contact with religion in Russia in 40 years. The group will go under sponsorship of the National Council of Churches, the largest religious agency in the United States. It includes 30 Protestant and eastern Orthodox denominations with 35,500,000 members.

The trip, to begin March 9, will be the first part of a two-way exchange, with Russian Orthodox Church leaders coming to the U.S. in June.

In announcing plans for the trip, Dr. Eugene Carson Blake, council president, said:

**MEASURE OF GOODWILL**  
"While we cannot be sure that agreement can or should be reached at many points, we do hope that under the guidance of Almighty God this exchange of visits will contribute toward a large measure of understanding and goodwill."

The delegation will include presiding heads of several major American denominations. Among them are:

Rev. Henry Knox Sherrill, presiding bishop of the Protestant Episcopal Church, Dr. Franklin Clark Fry, president of the United Lutheran Church, and Dr. Blake, administrator of the Presbyterian Church in the U. S. A.

Also going are prominent officials of the Methodist, American Baptist and Congregational Christian churches, and church specialists in international affairs.

The council decided seven months ago to try to arrange such an exchange for the purpose of "increasing mutual understanding and making manifest the spiritual fellowship which is ours in Christ."

**FAVORABLE RESPONSE**  
Patriarch Alexei, primate of the Russian church, responded favorably, saying that "with brotherly love in Christ we are ready to meet your delegation" and expressed hope a Russian group could visit the U.S. to "get acquainted with the church life in America."

After conferences with State Secretary Dulles in Washington, the exchanges were set.

### Eagles Defeat Souris Aces 8-5

The high-flying Georgetown Eagles won a convincing 8-5 victory over the visiting Souris Aces, before a large crowd at the Georgetown rink on Saturday night.

The first period ended in a 2-2 tie, on goals by P. Cheverie and J. Cheverie for Souris and a pair by San ny MacNeill for the Eagles. The sandwich session ended with both teams again all tied up 4-4.

In this period the scorers were: for the eagles, MacNeill and MacSwain and for the Aces, Jenkins and C. LaVie. In the final period the Eagles took command on goals by Publicover who sank a pair, and singles by Martell and MacNeill. For the losers it was MacIntyre who was the goal-getter. The game was handled by the Veteran Arbitrator from Souris, Edmund LaVie and Georgetown's Gordon Lavers.

### Grim Picture Given Of Hydrogen Bomb Dangers

By ROBERT RICE  
Canadian Press Staff Writer  
LONDON (CP)—Britain's civil defence planners have brought up-to-date the official manual on the dangers of thermonuclear weapons—and the picture they paint is grim.

The new booklet takes a 10-megaton hydrogen bomb as a "convenient size" for calculating effects of the heat, blast and radioactivity generated by the explosion.

This size, equivalent to 10,000,000 tons of TNT, is 500 times as powerful as the first atomic bombs dropped 11 years ago on Japan. The old manual was based on the effects of the first bombs.

No reason is given for choosing a 10-megaton bomb as the example.

"No particular size of hydrogen bomb can be regarded as standard," says the booklet, "and both larger and smaller types can be made."

**MUCH CAN BE DONE**  
Nevertheless, says the manual an immense amount can be done to save lives, to minimize fire dan-

**REMEMBER WHEN**  
Jack Sharkey, attempting a comeback, lost a decision to Tony Shucco 20 years ago tonight at Boston. The Boston fighter who held the world heavyweight crown in 1932 fought his last fight a few months after the Shucco date, and was knocked out in the third round by Joe Louis, then on the way up.

Get under cover, it tells Britons, and stay there. Don't come out for at least 36 hours.

The pamphlet says the best place to escape the deadly dust is in a cellar, but since most British houses have no basement, it tells Britons to cut a hole in the floor in the centre of the house and dig a slit trench in the ground.

### Will Seek Conference On Liquor Advertising

WINNIPEG (CP)—Manitoba will attempt to arrange a conference of all provinces and the federal government on the question of liquor advertising.

Attorney-General H. H. Hryhorczuk said Saturday that until the conference is held and some uniform system of liquor advertising worked out, he would not like to make any definite commitment on what action Manitoba would take if TV programs, to be shown here, were sponsored by eastern breweries.

The attorney-general implied he would favor banning of any liquor or brewery advertising on television in Manitoba at present, as the government does in publications published in this province.
