We're CRACKING DOWN on HIGH PRICES

Newspapers have carried reports about higher food prices. While it is true that some prices have increased—due to high processing, transportation and distribution costs—the CO-OP prices scores of your favorite foods at, or below, levels of several months ago. We promise you this—we will resist by every means any and all unjustified price increases. We will search the wholesale markets even more diligently for the best buys of the week—every week! Join us in cracking down on inflationary prices. The more families we serve . . . the lower we can make—and keep—our prices!
