MARY HAWORTH

This Pair Is Immature Try To Dissuade Them

Dear Mary Haworth: What is wrong with a doctor who would have an affair with one of his patients? Regrettably, my daughter is the patient in this case. The man is a very prominent specialist who has pursued this affair for almost a year. Shouldn't some regulatory authority be informed of his misconduct? My daughter refuses to do anything about it; and I am afraid she is heading for a great deal of trouble, as she is married and has a wonderful family. The doctor seems to have some sort of hold on her. She thinks highly of your advice; so please won't you write something that might induce her to stop this foolishness. Or perhaps there is something I could do? Very sincerely, G.S.

OUR EVALUATION
Dear G.S.: A doctor who would have an affair with one of his patients is psychologically immature and emotionally sick. He just isn't seeing straight. He has lost perspective. If indeed he ever had it, on his professional obligation to be a source of health, strength and sanity to the clients who consult him. As for the specialist involved with your daughter, he is exploiting her limited knowledge of life. I suppose, and deftly befuddling her with the implication that it's a big achievement for an obscure female like her to be on intimate terms with a man of his distinction (presumably). She probably day dreams of him as if he were Caesar and she Cleopatra—a man of such emi-

FASHION

PUT IT down in black and white that black and white is a huge success in every fashion category. Black and white plaid cotton makes a useful daytime dress, with a fringe-edged collar giving an extra touch to the casual open neckline. The skirt has a box-pleated effect at the waist, is unpressed lower down. A black leather belt and black buttons complete the picture.

nence, to her way of thinking, as compared to ordinary fellows in her walk of life, that she actually feels flattered to be his accomplice in sin.

GUILTY PAIR
Since your daughter is the devil's advocate in this matter, in essence defying your concern, and giving her mixed-up allegiance to wrongdoing, it seems useless to try to "inform" on the doctor. Even if there were a professional group specially set up to police the morals of doctors, and I don't know of any, it would be necessary for you to prove your allegations, before disciplinary measures could be launched. And you can hardly expect the doctor and your daughter to testify against themselves.

Perhaps the best you can do, on behalf of decency and honor in the circumstances, is to wash your hands of their waywardness, insofar as direct interference is concerned. Leave the reckoning to God, and pray that He will give it His attention and induce a healing change of heart.

Remember it took St. Monica 20 years of praying to fetch son Augustine back by God's grace from the brink of perdition and establish him as one of the pillars of Christianity. This fact of history is recorded for us in "The Confessions of St. Augustine," freshly translated, in a recent edition, by Sheed and Ward. M.H.

TICKLING QUESTION
Dear Mary Haworth: Recently I took a job in an office employing 40 people, where the male personnel are addressed as "Misses" So-and-So, regardless of job classification. But all the females and some are executives, are referred to by their first names—such as Doris, Jane, etc. I dislike addressing a man as Mr. when he calls me by my first name; and am thinking of leaving. Perhaps I am overly sensitive, and would appreciate your opinion. E.B.

WE FAVOR OLD SCHOOL
Dear E.D.: I hold to the old school theory that male and female associates in business do well to practice a certain formality in manners and language, to help keep alive a spirit of mutual respect and deference. It is subtly presumptuous or patronizing of the men in your office to use female first names consistently, while requiring the formal address for themselves. But in your shoes, I'd rather call them Mister than Tom, Dick or Harry; because to that extent, you maintain your dignity. M.H.

Careful Cooking Needed To Keep Flavor In Peas

Fresh green peas are a delicacy already maturing in warm sections of the country and being marketed nationally. By the fourth of July they will be ready in New England.

"Green peas must be carefully cooked to preserve their delicate flavor," observed the Chef. "In France, often no water is used. Instead, 3 tbsp. butter is melted in a heavy pot or casserole and 3 c. shelled green peas (3 lbs.) are added.

other side. Allow 8 min. altogether.

Top each lamb slice with small thin slice of maitre d'butter.

CHEF'S JUNE SALADETTE
Toss together 1 c. cooked green peas, ½ c. each shredded celery and sliced fresh or canned mushrooms sautéed in olive oil, and 1-3 c. not-sweet French dressing. Garnish with pimiento strips and cress.

COVER WITH PEA PODS

"Cover the peas with a layer of washed green pea pods to add extra flavor," he continued. "Put on a lid and simmer very slowly, about 10 min., or until tender. I cook them in a casserole in a slow oven."

"No not allow the butter to brown. Remove the pea pods with tongs. Season the peas to taste with salt and pepper and serve piping hot."

"This is a good example of the preparation of a real gourmet food, based on saving delicate natural flavors."
