

German Dirigible Nears Port After Record Crossing

EMPEROR AND FAMILY REACH PALESTINE

Hindenburg To Reach Lakehurst This Morning

Giant Airship Nears New York After Speedy Atlantic Crossing.

(By Louis P. Lochner, Copyright 1936 By The Associated Press) (A. P. By Guardian's Special Wire)

ABOARD THE ZEPPELIN HINDENBURG, EN ROUTE TO THE UNITED STATES, May 8—Capt. Ernest Lehmann, master of the Hindenburg, predicted late today the giant German zeppelin would reach New York by four a.m., A.S.T., and would land at Lakehurst, N. J., before five a.m., A.S.T.

A brisk east wind which came up late in the afternoon, giving added speed to the huge airship, caused Capt. Lehmann to state this belief.

Although expressing regret that the Hindenburg would not fly over New York in daylight so that she might be better observed, he said it was important to achieve fast time.

The passengers enjoyed themselves participating in a broadcast to the mainland.

If the Hindenburg reaches Lakehurst at four a.m. A.S.T. tomorrow, she will have established a new trans-Atlantic record of 60½ hours, at an average speed of better than 70 miles an hour.

Favorable Weather

LAKEHURST, N. J., May 8—A forecast of perfect weather conditions for the landing of the German dirigible Hindenburg cheered Lakehurst naval air station officers tonight as the giant ship wirelessed it would land about 6:30 a.m., A.S.T. tomorrow.

The forecast said the winds early tomorrow morning would be west to northwest, with a velocity of six to eight knots.

Residents of the metropolitan New York area will have to rise early if they wish to view the ship as the message from the Hindenburg said it would arrive over Manhattan between five and six a.m., A.S.T., shortly after daybreak. If it reaches the air station at 6:30, it will have completed the westward crossing of the North Atlantic in 62 hours, a dirigible record.

The old Los Angeles, which was to be transferred from the station hangar to an outdoor mooring mast tonight, set the previous record of 81 hours in 1924. The fastest trip of the Graf Zeppelin, companion ship of the Hindenburg, was 93 hours, 22 minutes, in August, 1929. MacKay Radio reported at five p.m. A.S.T. today that the gigantic craft was approximately 450 miles east southeast of Nantucket Lightship. She was flying at a speed of 60 knots (about 64 miles an hour) in perfect weather after a stormy night.

View Iceberg

The Associated Press correspondent aboard the Hindenburg reported that the passengers got a thrill when a huge iceberg, bathed by the sun, was sighted. Capt. Ernest Lehmann of the Hindenburg manoeuvred the craft so they could obtain an exact view of the traditional menace to shipping.

The course followed by the Hindenburg indicated Nantucket Lightship would be the first landfall and that she would fly over Long Island before appearing over New York in the early hours.

Weather was splendid Friday morning when the zeppelin emerged from a storm into bright sunshine over the Grand Bank off Newfoundland and turned south-westward. The course had been changed to the north Thursday night when the zeppelin encountered heavy rain and a 40-mile-an-hour headwind.

Slight Swaying Despite the bad weather, passengers were not expected to be rescued until dawn.

Authorities foresaw possibility of extreme suffering through the night with the temperature near the freezing point and no snow and a lot of rain in the snow and rain.

The United States Weather Bureau said the mercury would go far below freezing.

Five buses were caught on the Pass, along with half a dozen trucks and more than 20 automobiles.

Claim Lobster Price Drop Is Seasonal

(C. P. By Guardian's Special Wire)

BOSTON, May 8—Commenting on reports that the New England lobster market had been glutted by recent big shipments from Nova Scotia, officials of the Massachusetts Fisheries Association stated today: "There is nothing to be alarmed about."

"The recent drop in lobster prices of 32 cents is a usual seasonal drop and is not as great this year as last," the officials stated. They interpreted it as the usual flooding of the market by first catches.

"Prices will gain and steady this year as the season approaches," according to the Massachusetts Fisheries Association.

Seeks Haven In Land Of His Forefathers

(P. by Guardian's Special Wire)

JERUSALEM, May 8—Emperor Haile Selassie, sad and dejected, arrived today with his large entourage to go into exile in the land of his forefathers.

Six days after fleeing his capital of Addis Ababa before the arrival of the Italian forces the Emperor arrived at Haifa aboard the British Premier Enterprise. He continued to the holy city by special train.

The Emperor's features were haggard and drawn but he was resplendent in a white uniform, leggings and spats. When he disembarked at Haifa a band played the Ethiopian national anthem.

The Empress Mennen, Crown Prince Asfa Wofan and the two princesses left the boat first, followed by the little Emperor, who walked ashore.

Hundreds of cases laden with gold and silver and some 11 tons of personal baggage were taken from the cruiser by sailors and dockworkers. Among the Negus' belongings were boxes of cases of liquor.

Haile Selassie was under the protection of the British Government until he arrived here. Now, it is understood, the British authorities regard him merely as a private citizen.

Wailing Ghost Walks Again

OTTAWA, May 8—The sudden drop in warm weather will cause a wailing ghost to stroll again in Ottawa's park, the slope beside the parliament buildings. Tom Reid (aka New Westminster), known as "The Flyer on the Hill," who practices on his bagpipes in his room every night after supper will again take to the great outdoors and play in the moonlight.

Recently his bagpipes almost became the matter of a minor political scandal when it was found he used New Orleans molasses to keep the leather bag soft and not that from the West Indies.

Tom, who is a Scot by birth and speaks with Scotch burr, was questioned whether he used molasses or honey. "Molasses," said he. "It's cheap." "And which particular brand do you use?" he was asked. "An 'A' particular sa lang's it's cheap deuch," he answered, adding, "New Orleans is the cheapest."

According to the Piper on the Hill there are extravagant pipers who use whiskey and sugar to keep their pipes in shape but he finds such measures "far too dear" and thinks it a better plan to take the molasses inwardly and then blow into the pipes.

Boy King's Rule Over Millions

With the death of his father, King Fuad I of Egypt, 16-year-old King Farouk becomes the oldest of three boy-monarchs who rule today. The youngest of the three, King Ananda, 10, rules in absentia over 11,000,000 people in Siam. Twelve-year-old King Peter II of Jugoslavia has approximately 16,000,000 subjects, while King Farouk's kingdom has a population of approximately 14,000,000. Actions of all three will be supervised by a regency until they reach a suitable age.

Ruined Harar In Italian Hands

Fascist Conquest Of Southern Ethiopia Completed.

(By Andree Berding, Associated Press Foreign Staff Writer) (A. P. By Guardian's Special Wire)

ROME, May 8—Italy's dashing "hell on wheels" column moved into Harar, press dispatches reported today, to complete the Fascist conquest of southern Ethiopia.

Under command of Gen. Rodolfo Graziani, the black-shirted troops occupied the "garden city" of Emperor Haile Selassie's kingdom only 30 miles south east of Diredda, divisional point on the Djibouti-Addis Ababa railroad.

(Violent riots, similar to the attacks in Addis Ababa, preceded the Italian occupation of Harar, dispatches from Djibouti declared.)

City Pillaged

(St. Sidney Barton, British Minister at Addis Ababa, informed the Foreign Office in London the consul at Harar had reported looting and burning in the city.)

In Rome, diplomats looked ahead to the sessions tomorrow night of the Fascist Grand Council and the Italian cabinet at which Ethiopia's annexation to King Victor Emmanuel's kingdom will be proclaimed.

The government will make no concessions in its conquered East African kingdom, these sources declared, in return for possible lifting of financial and economic sanctions.

WILL RECEIVE \$40,000 FOR NATIONAL PARK

Island's Share Of Federal Grant Revealed By Premier On Return From Ottawa.

Of the \$140,000 authorized for new national park projects in the Maritime Provinces, Prince Edward Island will receive \$40,000, Premier Campbell informed a Guardian representative yesterday, on his return from Ottawa. This expenditure will be additional to the sum of \$95,500 voted in the supplementary estimates for expenditures on Dominion public works within the Province, the Premier explained.

Visits Here

MR. C. C. FERGUSON
General Manager of the Great West Life Insurance Company.

PRAISES MARITIMES ON SHOWING

Maritime Province governments, both provincial and civic, were to be congratulated "upon the excellent showing they have made in that not a single default was necessary during the recent troubled years," Mr. C. C. Ferguson of Winnipeg, general manager of the Great West Life Insurance Co., said last night in Charlottetown on his first visit to his native province in five years. "Public financing in certain other parts of Canada is far from being satisfactory," Mr. Ferguson stated.

Soundness of financing by governments and municipalities in the Maritimes was "in contrast not only with Western Canada but with the great province of Ontario where municipal defaults have been very numerous."

The Great West Life manager was born in Marshfield, P. E. I. He left the Island 30 years ago as an actuary with the organization he now directs. He was made general manager in 1915.

"I have observed a really great improvement in Charlottetown. The amount of paved streets has noticeably increased. The buildings are being well kept up and altogether there is an air of prosperity about the place. This is the impression I have gained after an absence of five years," Mr. Ferguson said commenting on local conditions.

In the West farmers are looking forward "with more than the usual optimism" to the coming crop year, the insurance manager thought.

The Western Canada has remarkable recuperative powers so one good crop with good prices will go a long way.

SYDNEY MAYOR FACES CHARGE

Five Charged With Forcible Entry Of Home.

SYDNEY, N. S., May 8.—The name of Sydney's chief magistrate, Mayor S. E. Muggall, was added today to those of Chief of Police W. R. Tracey, two police officers and two city workmen, all charged with forcible entry of his home by a former Sydney policeman, Charles Rowe.

Information against the Mayor was laid by Rowe's lawyer just before the trial of the other five began. He will appear in court Monday, the day on which judgment on the others will be handed down.

Rowe, occupant of a house on Admiralty property bought in for taxes by the city, claims the officers and workmen came to his home and lock down windows and doors. The building is on a stretch of land the city plans to beautify.

Testifying today, Rowe said he had received notices from the city to leave the house but that no papers had been served him under the Overriding Tenants Act and no Supreme Court action for eviction taken. He added that he had received a letter from the city clerk requesting him to vacate the premises by May 1.

BRITAIN PUTS NEXT MOVE UP TO HITLER

Questionnaire Submitted To Berlin In Seeking Basis Of Negotiations.

(A. F. by Guardian's Special Wire)

LONDON, May 8—Great Britain has put the next move in negotiations for peace in Europe up to Chancellor Hitler, it was disclosed today.

The long expected questionnaire submitted to Berlin by the British Government has as a major point the stand that Germany should include Soviet Russia, Latvia and Estonia in her proposed non-aggression pact. These pacts in the German view would substitute for the Locarno Treaty, denounced by the Reich.

A series of questions was laid down in the questionnaire for Germany to clarify before Britain considers that negotiations for treaties can open. It was shown in the government white paper con-

Late King's Will Names Regency

CAIRO, Egypt, May 8—The late King Fuad's will, naming a regency council of three to rule until the 16-year-old King Farouk attains his majority, was opened tonight before a joint session of Parliament.

The three nominated are former premiers Tewfik Nassim Pasha and Adly Yeghen Pasha and Marmoud Fakhr Pasha, former disarmament conference delegate. Their names must be approved by Parliament.

Parliament formally proclaimed Farouk king.

WILL EXTEND AIR SERVICE

St. John and Halifax To Be Linked By Air.

(C. P. By Guardian's Special Wire)

SAINT JOHN, N. B., May 8—Airplane passenger service between Saint John and Halifax will be established this summer by the Maritime Airways, Commissioner A. E. Massie told the common council today.

He was authorized by the council to enter into an agreement with Maritime Airways for use of the airport by that company as well as of space in the airport buildings.

A twin-motor plane, a passenger ship of the most modern type, will be used in the Saint John-Halifax service, and present plans call for two round-trips a day between here and the Nova Scotia city, if business warrants.

The plane that will be used is now being completed in England and will be shipped to Canada within the next week or so.

Raging Blizzard Isolates Colorado Mining Town

TRINIDAD, Colo., May 8—Caught in a raging blizzard which isolated this mining town of 11,000 more than 150 persons were snow-bound tonight aloft lofty Raton Pass between here and Raton, N.M.

The town of Morley, Colo., on the north slope of the mile and a half-high pass, was completely cut off from the outside. Two buses reached here late today, having ploughed through a snow-piled mountain highway which was impassable for hours.

Snow and heavy rains spread over much of the "dust-bands" of the prairie states during the day, bringing hope for spring crops and bringing prediction of a break-up in the prolonged drought.

Despite efforts of the new Mexico Highway Department and bus companies, the stranded groups on the Pass, scattered over a stretch of road more than four miles long were not expected to be rescued until dawn.

Authorities foresaw possibility of extreme suffering through the night with the temperature near the freezing point and no snow and a lot of rain in the snow and rain.

The United States Weather Bureau said the mercury would go far below freezing.

Five buses were caught on the Pass, along with half a dozen trucks and more than 20 automobiles.
