

There's a Difference

between gloves made to sell, and gloves made to wear.

We have no place here for the merely-made to sell variety.

We have no gloves here that are not the best gloves at the price.

Not "just as good", but THE BEST YOUR MONEY CAN BUY.

Perrin's gloves may have same equals—if so they don't show up—often.

Certainly they have no superior? new ones are in,

75c. 80c. \$1.10, \$1.35, \$1.45 \$1.85, and every pair guaranteed.

THE NEWS FROM OTTAWA

A Sweeping Gerrymander Bill

COUNTY LINES MAY OR MAY NOT BE OBSERVED.

Major Herron, Inland Revenue Dept. Dead—Another Sudden Death.

[SPECIAL TO THE EXAMINER.]

OTTAWA, March 20.—The exports for February fell off a quarter of a million, and the imports increased \$900,000.

The report for the eight months showed a decrease of nine millions. The Government's bill to Gerrymander the constituencies is far more sweeping than was at first supposed.

It will apply to nearly every province. County lines will be followed only when it suits the convenience of the Government to do so.

Major Herron of the Inland Revenue Department, died suddenly on Saturday afternoon of apoplexy.

Thomas Brown, brother of Trainer Brown of the Ottawa Amateur Athletic Association was found dead at the C. P. R. depot yesterday.

CZAR'S PEACE PLAN.

Russian People Said to Have Been Kept in Ignorance of it.

BOSTON, March 17.—One of the best informed men on the inside of Russian affairs says that all knowledge of the Czar's peace proposition has been kept from the people of Russia, except as they may have heard of it through papers which have been stealthily carried into the empire. It is the policy of the Russian Government to keep the people absolutely ignorant regarding the movement, for fear that a demand will be made for exemption from military service, or for lower taxes in the interest of peace. It is believed that the Czar is perfectly sincere in his offer to promote a partial disarmament, but that the nobility who surround him are not at all of his way of thinking, and are only planning for the aggrandizement of Russia by trying to procure a cessation of preparations for war until the Siberian railway is completed. The Czar is said to be kept in ignorance of many public matters by the officials who surround him, and who conceal what is not for their purpose. The prediction of those conversant with the situation is that the coming conference at The Hague will have no practical results, because the other European powers know the situation in Russia too well to trust the fidelity of the Czar's subordinates to carry out his desires.

Carters' for Wall Paper

A man's health is the rope which he climbs to success. If he can keep his health, he will go on to success. Yet his health is the very thing he neglects more than anything else. It is easier to keep health than it is to regain it. When a man feels himself running down, when he realizes a loss of vitality and energy, he must call a halt. The strands of his rope are parting rapidly. Dr. Pierce's Golden Medical Discovery has helped thousands of men in just this condition, it makes health, it makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble—dyspepsia—kidney disease—rheumatism—consumption—skin disease, the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

Send 31 one-cent stamps to cover cost of mailing only, and receive a free copy of Dr. Pierce's Medical Adviser, Address, World's Dispensary Medical Association, Buffalo, N. Y.

U. S. RECIPROCITY TREATIES.

Negotiations with Britain, France and Germany Resumed.

WASHINGTON, March 17.—Negotiations for reciprocity treaties with Germany and France have been resumed, and there is still a prospect that a treaty may be negotiated with Great Britain, covering the British West Indies. These several treaty negotiations were interrupted some months ago by the service Mr. Kasson, the United States Reciprocity Commissioner, was obliged to give to the Canadian Commission. As this work is closed, Mr. Kasson is free to resume the negotiations with the other countries, and he has written to inform them that he is at liberty to proceed.

THE GOVERNORSHIP.

SIR,—There have appeared at two different times recently in the Patriot letters recommending the Hon. D. Farquharson as the proper man to fill the gubernatorial chair soon to be vacant in this Province, and commending his fitness in terms by which it is evident that it could only have been written by one who was interested. In these effusions there are set forth at considerable length several reasons why Mr. Farquharson is suited for this office. But, to my mind and I venture to assert to the mind of every elector, both Liberal and Conservative, Mr. Farquharson is the least likely man to suit in the position, and it is only necessary to look back a very short time to see that he has not the confidence of the people, or even of his own party, or why was he relieved from office by the School Board and later on by the Board of Merchants Bank of P. E. Island, the latter body of men being for the most part composed of the same political blood as One aspirant,—and at the last moment when he saw all hope was gone, after using every subterfuge he had the sense to resign and save himself from being ignominiously "turned down" by the shareholders of the bank. There are also wide-spread reports of dissatisfaction in the government since our seeker took the helm; and, if this is true, would it not be better to appoint a gentleman who would at least be popular with the people and let Mr. Farquharson run his little coffee-pot steamer at twenty-five dollars per day, and try to extract himself from some of his political tangles. But I can assure you from the sentiments I hear expressed on all sides, if Mr. Farquharson is appointed to the Governorship there are dozens of the leading Liberals who will never again vote for a party who would appoint such a man when there are men like Hon. Senator Yeo, Hon. Daniel Davies and others to choose from.

A VOICE FROM EAST RIVER.

THE OLD WAY

Of Treating Dyspepsia and Indigestion by Directing a Dangerous and Useless One.

We say the old way, but really it is a very common one at present time and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others to greatly diminish the quantity usually eaten, in other words, the starvation plan is by many supposed to be the first essential.

The almost certain failure of the starvation cure for dyspepsia has been proved time and again, but still the moment dyspepsia makes its appearance a course of dieting is at once advised.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a man suffering from dyspepsia, because indigestion itself starves every organ and every nerve and every fibre in the body.

What the dyspeptic wants is abundant nutrition, which means plenty of good, wholesome, well cooked food and something to assist the weak stomach to digest it. This is exactly the purpose for which Stuart's Dyspepsia Tablets are adopted and this is the method by which they cure the worst cases of dyspepsia, in other words the patient eats plenty of wholesome food and Stuart's Dyspepsia Tablets digest it for him. In this way the stomach is nourished and the overworked stomach is rested, because the tablets will digest the food whether the stomach works or not. One of these tablets will digest 3,000 grains of meat or eggs.

Your druggist will tell you that Stuart's Dyspepsia Tablets are the purest and safest remedy for stomach troubles and every trial makes one more friend for the excellent preparation. Sold at 50c. for full sized package at all drug stores.

A little book on stomach diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich.

A GREAT record of cures, unequalled in medical history, proves Hood's Sarsaparilla possesses merit unknown to any other MEDICINE.

600 pairs ladies kid gloves, absolutely first-class, goods that sell regular at \$1.25, \$1.35, and \$1.50, Weeks & Co's price 85c. See them before purchasing.

Smuggled Goods.

CORNWALL, Ont., March 15.—Customs officers are making men's warm for smugglers in this vicinity. Two extensive seizures of tobacco, cigarettes and cigars, have been made at Catesau, and another at St. Raphaels, Glengarry county. The fourth seizure within two days was made here today when a large quantity of contraband goods was confiscated.

Eggs in Halifax.

HALIFAX, March 17.—Eggs remain 18 cents per dozen wholesale in the Halifax market, but any day there may be a decline and a marked decline is certain very soon. As soon as P. E. Island eggs arrive in any quantity the drop will come. We are paying more for eggs in Halifax than they are in Montreal.

The Talbot Arrives.

[SPECIAL TO THE EXAMINER.]

PORTSMOUTH, March 20.—The British cruiser Talbot, with the body of Baron Herschell on board, arrived here yesterday.

LOSS OF THE CASTILIAN.

Captain Barrett's Statement.

YARMOUTH, March 17.—Captain Barrett says: When about 8 miles from Portland at the half way rock, as it is called, I shaped the ship's course and found the compasses accurate. I took my bearings from the rock in the usual way. The night being clear, and having no desire to spare myself and waste time by giving the Nova Scotia coast to wide a berth I shaped my course so as to clear Seal Island by 16 miles. I could have kept further south and gone comfortably to bed. At the usual hour I went below, giving orders to take soundings at one o'clock and to report to me the depth of water. My instructions were complied with and at 1 o'clock 67 fathoms were reported. This was exactly as it should be and I directed soundings to be taken at 2 o'clock. At this time, 37 fathoms were recorded. We use on the boats of the Allan company, you know, Lord Kelvin's patent lead, which records the depth without requiring the stoppage of the ship. A little later other soundings were taken which were satisfactory and indicated nothing unusual.

At half past three, however, I ordered the man to go and sound again. He did so and I was startled to hear the ring on the telegraphic which is used to transmit the result of soundings when no time is to be lost by sending a man to report verbally. Seventeen fathoms was indicated. I knew then the danger was imminent, and thought that I had been forced into shallow water by the tides. I ordered her head to be hauled to the southward and went into the chart room to consult my charts. I had been in there but a brief space when the first officer, who was on the bridge, shouted that there was something white on the starboard bow. I came out of the chart room at once, but, being somewhat dazed by the light, was unable to see what he pointed out. The ship's head was then swinging, with the helm hard a port.

Suddenly we felt a bump and then we came to a sharp standstill. I seized the telegraph and sounded full speed astern. But she was hard and fast on the rock and remained motionless. I had not the faintest idea where we really were, though it was quite clear and the horizon could be seen. I thought we must be on Blonde Rock, though that seemed hardly possible, because in that case we would have heard the bell buoy. As to the rest we have already heard it. I was pleased indeed when the passengers were safely off. I remained on the steamer as long as I could possibly be of use there. The steamer in my opinion cannot be got off Gannet Rock."

Far East Situation.

LONDON, March 17.—At the annual meeting of the associated chamber of commerce, the Hon. Henry Stafford Northcote, presiding, a resolution was passed urging the British Government to obtain the "open door" in China, and prior British rights in the Yan-tee-Kiang Valley. Major Flood Page, in behalf of the London chamber of commerce, moved a resolution expressing satisfaction at the "cordial and closer relations with the United States" and urging her majesty's government to utilize every opportunity for co-operating conducive to the maintenance of the feeling of security of the vast commercial and financial connections of the two nations. It was adopted unanimously.

Our Canadian Representative.

[SPECIAL TO THE EXAMINER.]

MONTREAL, March 20.—Alderman Rainville, of this city, is expected to be the Canadian government representative at the Paris exposition.

A LONDON CASE.

Proving the Value of Dodd's Kidney Pills in Kidney Disease.

LONDON, March 20.—Mr. Charles Dean, stableman at the City Hotel, comes forward to add his quota to the mass of evidence in favor of Dodd's Kidney Pills.

Mr. Dean states that he had for three years suffered from severe cutting pains in the small of his back. At times they were so great that he had to lie down to get relief.

Several remedies were used without benefit. A doctor prescribed for him, saying his kidneys were affected, but no good resulted.

Finally he took a friend's advice and used Dodd's Kidney Pills. The usual result followed. Three boxes cured him out and out.
