the previous consent of the Canadian Parliament, and they, therefore, cannot confer upon their Delegates powers which they do not themselves possess.

The Committee fully appreciate the motives which induced the Delegates from Nova Scotia and New Brunswick to adopt the Resolution, and they agree with the Delegation as to the desirableness of bringing Prince Edward Island into the contemplated Union.

The Committee are of opinion that every proper exertion should be made for that purpose, and recommend that the subject of the adjustment of the land question should be fully discussed by the delegates from the three Provinces in London, in a liberal spirit. Should the result of the discussion be, that, in the opinion of the Delegates, pecuniary compensation should be given to the Proprietors, for the surrender of the Proprietory rights, the Committee would further recommend that the Canadian Delegation be authorized to join with those from the Maritime Provinces, in a strong representation to the first Government and Parliament of the United Provinces, in favor of their granting the compensation agreed upon by them.

On Sunday morning last, about 5 o'clock, whilst the Brig "Ann" was reaching in under Cape George, topgallant sail and mainsail being stowed, a schooner was seen running down, winged out. Our look-out hailed the vessel, but the night being very dark, and the schooner showing no lights, she was not observed until close under us; and before anything could be done, (the only man on the deck of the schooner having left the helm to call the rest of the crew) she ran right under our bows, carrying away her mainmast, and then passed astern. The Brig not having way to stay, I hauled up the trysail, run ship, and launched a boat, but could save only one man the schooner having gone down, carrying with her the remainder of the crew (two in number) and one female passenger. The vessel's name was 'Arrora' William Crawford, Master, from Crapaud, P. E. Island, and bound to Halifax, N. S.

AN EFFECTUAL WORM MEDICINE.—The combination of iegredients used in making Brown's Vermifuge Comfits is such as to give the best possible effect with safety.

Worms in the stomach cause Irritation and prolonged sickness, and can be removed only by the use of a sure remedy, which will be found in the Comfits.

I have been afflicted with a troublesome humor in my face for six years and tried many prescriptions to little or no avail; but having heard of J. B. Fitch's Golden Ointment I was induced to try a box, by the use of which I was cured; and believe it my duty to recommend it to the public.
