**Mr. Davin Scores a Point But Fails on Division.**

**THE GOVERNMENT AND THE DAIRY INDUSTRY.**

**Messrs. McDonald and Martin Plead For Weak Factories in This Province.**

OTTAWA, May 13.—Mr. Davin rose when the orders of the day were called yesterday afternoon and complained that Mr. Bain, who was in the chair when his motion for tariff amendment was proposed on Tuesday, did not call for "yeas" and "nays."

Mr. Laurier's version of what occurred did not agree with Mr. Davin, as the Premier claimed that Mr. Davin did not call early enough for a division. Mr. Laurier, however, remarked that after all there was no interference with Mr. Davin's liberty as he had still an opportunity to propose his amendment on a subsequent motion for supply.

The Premier was rather paralyzed when, five minutes later, Mr. Davin took him at his word. When Mr. Fielding moved the house into committee, he repeated his amendment and supported it by a speech of considerable length. As a reply to this speech the western gentlemen began excusing their votes and explaining they were getting the kind of tariff they deserved in instalments, waiting for more.

Messrs. Taylor, Craig and other conservatives assailed the tariff in general, but Mr. Craig declined to vote for Mr. Davin's motion. He was in favor of protection and did not propose to censure the Government for not adopting the policy of free trade.

Most of the speakers on the opposition side declined to vote for the amendment, though supporting Mr. Davin's proposition that a grave breach of faith had been committed. Ten opposition members voted for the amendment, either as a declaration for free implements or as a condemnation of the breach of faith.

The yeas numbered 121, including members of both parties. This was the first recorded division of the session.

The House went into committee and took up the agricultural vote.

On the vote of \$100,000 to promote dairying in the west, Mr. Fisher explained that \$5,000 would be required for advances to the patrons of Nappan. The other \$95,000 was intended for the Northwest.

It is intended to withdraw from the management of the cheese factories in Prince Edward Island, as the cheese business was now self-supporting.

Messrs. Macdonald and Martin expressed regret that the department was withdrawing from their province. They did not object to abandonment of well-established concerns there, but there were a number of weak ones recently started which would suffer seriously if left to themselves. They both testified that the late government had done the Island great service in promoting and patronizing the cheese industry there at the beginning.

You can't wear more than one dress at a time! and you may as well have the latest and best. New fresh stock, the production of the looms of 1897 is better value, and cheaper than any previously produced. Don't be deceived by seeming cheapness, and buy old goods recklessly; but examine the quality and finish, look critically at the style and be convinced that it will suit you better, pay you better and altogether please you better to buy only the best; which is the new. The always busy store offers you only the best. Be wise therefore and look through our stock; we can suit you beyond the shadow of a doubt.—Stanley Bros.

LATEST NEWS BY WIRE AND MAIL.

MONTREAL, May 11.—The health authorities have discovered several cases of lumpy jaw among cattle at the eastern abattoir in this city. The cattle, which came from Ontario, have been seized by Dr. McEachern, dominion government veterinary inspector, and will be destroyed. It is not known whether they were for export or local consumption.

WASHINGTON, May 11.—The state department, today, received a despatch from United States Consul Little at Tegucigalpa, the capital of Honduras, stating that the revolution has come to an end.

NEW YORK, May 11.—The passenger committee of the Trunk Line Association at its meeting today decided to accept bicycles as personal baggage between States, except between Canada and the United States. Between these points they will have to be checked and paid for as regular baggage.

LONDON, May 11.—The Paris correspondent of the Daily Chronicle says that the anonymous subscription of a million francs to the Charity bazaar fund is now known to be the collective donation of members of the Rothschild family.

ST. THOMAS, Ont., May 10.—Captain Dunn of the Government cruiser Petrel, made an important seizure on Saturday. While the Petrel was on the way from Round Bay to Port Stanley the captain espied three United States tugs in Canadian waters. The Petrel gave chase, but the Yankees succeeded in getting away. Captain Dunn however, succeeded in capturing 77 nets and about a ton and a half of fish. The seizure is worth about \$400.

BRUSSELS, May 11.—The Brussels Exposition was formally opened at two o'clock this afternoon in the presence of the Ministers, the diplomatic corps, and the civil and military authorities. Immense crowds were present. M. de Mot, president of the Executive Committee, and M. Nysens, Minister of Public Works, made speeches. The inaugural cantata was sung by a choir of 1800 voices. King Leopold arrived on the ground at 2.45 p. m.

BERLIN, May 11.—While visiting the Industrial School of Berlin, the Emperor presented a number of books to the school library, and inscribed on the fly leaf the motto: "My strength belongs to the world and my Fatherland."

LONDON, May 11.—Dr. Nansen has just received from the English government a complete set of the reports of the Challenger expedition, a gift the value of which amounts to many thousands of dollars. His ship, the Fram, is now undergoing alterations in view of the expedition which is to leave Norway in the spring of next year, under the command of Captain Sverdrup, the destination of which is kept a profound secret. It is believed, however, that the object of the expedition will be the exploration not of the North Pole, but of the Antarctic.

SEATTLE, Wash., May 11.—The rush to the Yukon by way of the inland steamers and Dyea has ended for the season, on account of the melting of the snow between Dyea and Sheep Camp, making the transportation very difficult. A large amount of freight has accumulated on the beach, and a rate of nine cents a pound is charged by packers for carrying over the range. Many miners will go up the Yukon when the river is free from ice in June. Wonderful stories come from the Klondike gold fields. It is said that a Mrs. Berry in two minutes panned out \$247 from the dirt in the dump of her husband's mine, and it was estimated that there was \$100,000 worth of pure gold in one of these piles of dirt, the result of a few days' work.

**A Question of Quality.**

If you pay no regard to Quality—you'll find really Cheap things everywhere. But if you shop with eyes wide open the really GOOD things are hard to find. When we buy our goods we look sharp FIRST for Style Newness and Quality—if they're RIGHT we see about Price—if not, 50 cents on the dollar won't tempt us to buy, for we have a reputation at stake. That's why this is a SAFE Store—whatever you buy here is right—no matter how low the price, it's the best the price can buy.
