

LBJ Calls Conference On Water

WASHINGTON (AP) — President Johnson is summoning governors, mayors and congress members from New York, New Jersey and Pennsylvania to a special White House conference next Wednesday on water shortage.

He acted Saturday after being told that those populous states "will face a water impasse in early September" because of a continuing drought.

Johnson decided to hold the conference after receiving from Interior Secretary Stewart Udall a report which said "common prudence requires" that all water-users in the Delaware River Basin "act on the assumption that this unprecedented drought will persist for at least one more year."

Press Secretary Bill D. Moyers said the two senators from each of the three states as well as the dean of the House delegation from each also would be invited.

Smog Called Top Danger To Humanity

LOS ANGELES (AP) — Persons who expect the world to end in a nuclear flash are wrong, says meteorologist Norris Neiburger. Humanity, he predicts, will smother in smog first.

"All civilization," he said in an interview, "will pass away, not from a sudden cataclysm like a nuclear war, but from gradual asphyxiation in its own wastes."

Neiburger, a professor at the University of California at Los Angeles, advised imagining the amount of smog that would accumulate if every one of the 800,000,000 Chinese drove an automobile that burned gasoline.

"This isn't too imaginative," Neiburger said. "Everybody in Los Angeles drives a car, and as the living standards of the rest of the world rise, all the Chinese, Indians and Africans will demand and get the same freedom of moving about that Americans and Europeans have."

"The villain is the internal combustion engine," Neiburger said. He doesn't believe all the ingenuity science and modern engineering can muster will make the internal combustion engine possible to live with. If mankind continues as it is, he said, filling the atmosphere with the poisonous fumes from automobiles, it will make the planet uninhabitable within 100 years.

August Seen Hectic Month In U.S. Steel

CLEVELAND (AP) — Intensification of labor contract negotiations and pressing by steel users for deliveries before Sept. 1 are making August a hectic month in the steel industry, Steel magazine says.

The magazine points out that the United Steelworkers of America, has served notice that it will terminate its contract Sept. 1 and is free to strike then.

"In the push to fill orders, some mills are handicapped by under-supplies of semi-finished material," Steel says. "Producers depleted in-process and finished steel inventories in the drive to make shipments ahead of May 1, the previous strike deadline."

"Nothing more than a short strike is expected, if there is one; nevertheless, steel users don't feel safe without adequate and balanced inventories."

WORK AGAINST STRIKE
 The magazine says the Viet Nam situation and the step-up in U.S. military preparedness are working against a long strike.

"Under the circumstances, steel companies, the union and the government will feel pressure to prevent a strike, or at least make it a short one," it adds.

Steel said the push to make August deliveries is keeping input production high. Output last week was 2,607,000 net tons and is expected to continue near that level this week.

The magazine's price composite on finished steel also was unchanged at \$151.80 a net ton.

BUILD UP FORCES
 TAIPEI, Formosa (AP) — Communist China has increased sharply the strength of its armed forces on the big island of Hainan, off the south China coast, the official Chinese Nationalist central news agency reported Saturday.

CLAIMS TO BE 100

MOSCOW (AP) — A 100-year-old shepherd with a 30-year-old daughter has turned up in the Caucasus, the Soviet publication Nedelya (weekly) reports. Shiraly — he has no other name — attributes his old age to "a good nature and having many children."

He said he married his present wife, his third, 60 years ago when she was 27.
