NUMBERS! It's Perfect for You! DOUBLE-ACTION PORTABLE MILKER

You'll get BIGGER milk cheques!

2 Cow Model

Gentle "Calf-nose" action!

NATIONAL MILKER
Twin or Single Units
"Massage Action" Inflation Test Cups
Get Milk Down Quickly - Safely

Enjoy ALL the advantages of the highest priced Milkers - yet your actual cost of the 2-cow model is lower than most other single unit milkers.

It's easy to explain why the National Milker offers so much more value at such low cost. The secret is simplicity. There is not a single part of the milker which does not serve a useful purpose . . . And the same rugged simplicity which makes possible the low price, is also your assurance of extra years of dependable, trouble-free performance. Your savings are even greater when you consider that there is no expensive installation - no costly pipelines to maintain. It is ready to use the same day you buy it.

- Equalizer Pulsator has only one moving part. Especially adapted for cold climate operation.
- Individual vacuum control for each cow for quicker let-down of milk.
- "Duraglas" Transparent Pails let you see how cows are milking. Rubber bumper hands and boots protect the tough glass pails.
- Inflation test cups give massage action, test cup shells prevent "crawl-up". Eliminates stripping.
- Easy to clean and keep clean. Everything is off the floor; no pails on ground between cows.
- Completely portable - cuts down heavy lifting.
- Low first cost - no extras to buy - no installation cost.

NATIONAL TWO-COW MILKER
