Insulin Blamed In Will Case

SHERBROOKE, Que., June 14— Hearing of lengthy Superior Court proceedings in which 10 relatives of John C. Holland, former owner of the Stanstead Journal, are challenging the will he made on Feb. 18, 1949, will be continued all this week. On Saturday the hearing was adjourned until today by Mr. Justice William Mitchell.

Mr. Holland died on March 15, 1949, less than a month after he made the will. His 10 cousins, nephews and nieces have challenged legality of the will on the grounds that Mr. Holland was not mentally capable at the time he dictated it. They are opposed by the Canadian Red Cross Society and the Salvation Army to which organizations Mr. Holland bequeathed a residual amount believed to be between $100,000 and $150,000.

Left $1,000 Each

In the will Mr. Holland appointed Wesley H. Bradley, K.C., and Charles Jenkins, joint executives of his estate. He gave $1,000 each to the 10 relatives and an equal amount to Dr. A. H. Carson, a United Church minister. He also left $500 each to his two nurses. And he stipulated that the residual amount be divided equally between the Salvation Army and the Red Cross Society.

Through their attorneys, John T. Hackett, K.C., of Montreal, and Stewart Willis, the 10 relatives are attempting to prove that the late publisher was "mentally deteriorated" when he signed the will.

One of the principal witnesses heard here last week was Dr. I. M. Rabinocitch, well-known Montreal expert on diabetes. He testified that many of Mr. Holland's actions, cited by relatives in support of their contention that he was mentally deteriorated, were actually due to the effects of insulin injections.

He said he had known Mr. Holland in a professional capacity and his patient had reacted in such a manner to the drug that he was obliged to reduce the daily quota. He said that between 1944 and 1946 when he was treating Mr. Holland he never saw any evidence of mental depreciation. He said his patient was weaker physically, but showed no signs of being weaker mentally.

"A patient suffering from insulin reaction has difficulty in forming words, suffers from disorientation, loss of memory and hallucinations," he said. "Sleepiness is the most common symptom, and an insulin reaction can even be accompanied by paralysis."

When the doctor was asked if he had any personal experiences with such cases, he replied: "Unfortunately, hundreds."

The hearing is expected to last almost another week.

DEATH YESTERDAY

(Continued from Page 1)

that the original civic airport was opened in Summerside. He was one of the foremost of those who agitated for the present dial system, the first of its kind in this province and on the night that it went into operation he was present and dialled the first message. This was about his last public appearance.

He was for several years a President of the Canadian Weekly Newspaper Association. In his younger days he was a member of the 82nd Regiment of P.E.I. and in the First World War enlisted for service and was "on command" taking drafts of men from Canada to England.

It was largely due to his press representations that Summerside today enjoys its fine public library.

Always interested in the youth of the town he gave unsparingly of his time to the Boy Scout Movement and was for a time provincial chairman of the Air Cadet League of Canada.

A past president of the Summerside Board of Trade, he also served with that body for several years as chairman of the air mail service committee. He was also a member of the Summerside Rotary Club.

Prominent in the Masonic Lodge, he was a Past Master of Hiram and Lebanon Lodge Number 3, a thirty-second degree member of the Albert Edward Lodge of Perfection, member of the Kilkbth Chapter Rose Croix, and a member of the Nova Scotia consistory.

His wife is the former Florence Alward of Summerside and he is survived by one son, William R. of the Board of Public Utilities of Charlottetown.

Two sons made the supreme sacrifice in World War Two, Arthur and John Robert of the R.C.A.F.

He is also survived by one brother, Victor, in the Canadian west and one sister, Mrs. Dorothy Sharpe, Summerside.

The funeral will take place from his late residence on Sunday to St. Mary's Anglican Church for service at 3.00 P.M. — S

BOMBAY, India, June 14 — (AP) — Manuel Garreton, former Chilean Ambassador to Turkey and once a member of the United Nations Korean Commission, was freed today of a charge of smuggling $350,000 worth of gold into India. The court said the Indian Government wanted to drop the charge for "political and diplomatic reasons."

C.N.R. Shipments During Past Month

Increase in the export of pulpwood and decrease in the export of potatoes from this Province during the month of May highlight the report of railway shipments as issued by the Charlottetown office of the Canadian National Railway Superintendent.

Compared with the same month last year potato shipments dropped almost fifty per cent from the total of 1,374 carloads, to 716 carloads in May, 1951. Pulpwood on the other hand jumped from 2 carloads in May, 1950, to 664 last month. Lumber also was shipped to the amount of 16 carloads last month as against none in the corresponding month of 1950.

In the import shipments railway coal showed one of the greatest drops with only one carload coming in last month against 42 last year. This is due no doubt to the use of diesels. Fertilizer imports have also dropped drastically with 231 carloads imported against 388 carloads last year. Gas and oil shipments climbed from 150 to 199, and shipments of autos rose from 41 carloads in May 1950 to 68 last month.

Other shipments for last month, with the coresponding month in 1950 in brackets, are as follows:

"TOP RATED" B-A 88 & 98 GASOLINE
"You know I'm pretty stubborn about admiring one gasoline is better than another . . . but this B-A 88 gasoline has made a real difference to my car. I'm getting more power and pickup than ever before! And talk about economy! For my money B-A 88 gives me more per gallon—in every way—than anything I've tried."
"I'm one of those 'show me' birds myself . . . but I figure I hit a winner when I decided on B-A 98 for this new car of mine. Up hills . . . or on the straight-away, B-A 98 sure answers the demands of a high compression engine. And you're right about B-A economy. There was a difference in my gasoline bill the first month I used B-A 98!"
