Winter Communication—Improvements Needed.

That the construction of Cape Traverse Branch Railway was not undertaken this year, may be accounted for by the illness and consequent absence from the country of Sir Charles Tupper.

But what we now wish, particularly, to urge upon the Government is the necessity of erecting, as soon as possible, a house in which the men engaged in crossing may find shelter, and of providing a large water boat.

The men engaged in crossing, reside in the farm houses of the settlement. Many of them are two or three miles distant from the point at which the boats leave.

The large water boat is much wanted where the ice is driven upon one or the other shore, and there is a wide stretch of water to cross.

The improvements demanded may be supplied at very small cost. We trust that they may be supplied in good time for next winter's work.

Cape Traverse Wharf.

This wharf has been too much neglected. The sea having washed away its foundations at the outer end, several blocks are now so badly broken that they are quite impassable.

Muck and Lime.

The good farmers of Cape Traverse have solved the difficulty involved in the want of mussel mud. They cart large quantities of marsh and bog mud to their barn yards and piggeries.

Everywhere there is a tendency among cities to bring in adjacent districts. Montreal has annexed all the villages on its outskirts.

The Island Censor-General Again.

The Patriot is still riling from the worst fits of Telegraphic A. It fancies that Abdallah Pacha was shot in the office of the EXAMINER.

Abdallah Pacha, rebel Governor of Damietta, has been shot by his own soldiers. The facts of the assassination are these. He told the black regiment he expected them to fight till the last, and declared that Arabi had turned traitor and fled.

That settles the business pretty effectually. A similar telegram appeared simultaneously in all the live papers on the face of the globe.

The Times' Cairo despatches announce Abdallah Pacha, Commander of Damietta, has been shot by his own soldiers.

That is not so bad. Next day the Patriot's telegraphic column contained the following:

The report telegraphed from Cairo that Abdallah Pacha has been shot by his own soldiers is confirmed.

Now, that is very bad, because the Patriot imposed that telegraphic item on its readers, twenty-four hours after the London Times had contradicted it, and two hours after THE EXAMINER had informed its patrons of the surrender of Damietta.

Canada's Welcome to the British Association.

The Bishop of Ontario, who was in England when the association decided to visit Canada, received a letter from SIR JOHN MACDONALD which contained the following encouragements:

I am delighted to learn from your note of the 7th that there is a chance of the British Association fixing their place of meeting for 1883 in Canada.

They will be received with "all honors" by both Government and people, so soon as it is known that the Association are to visit us, we shall ask Parliament to make an appropriation for the purpose of adding to the comfort of our visitors.

England on the Suez Canal.

The Times of the 21st, in a leader on the Suez Canal, declares that in an age when the control of nations over arms of the sea passing through or commanded by their territory is being everywhere abolished it is impossible that we can allow the directors of a company to arrogate powers as extensive as were ever claimed by Denmark over the Sound.

Some excitement was caused in Troy, New York, on Friday, by the sudden resignation of the Cashier, Wellington, of the Manufacturers' National Bank.

An alarming epidemic of dysentery prevails in some parts of Sweden. In Malmo recently there were about one thousand sick, and the mortality was increasing.

Justice as administered in the petty courts of England is rigorous, if the offender is poor and friendless. Two reputable laborers stole a handful of oats from a field to feed their hungry donkey, and a magistrate sent them to prison for six months.

The electric light will affect the colors of cloths as well as paintings in the same way, but not so quickly, as sunlight.

GENERAL CABLE NEWS.

ALEXANDRIA, Sept. 23.

General Wood, on his march to Damietta, reached Chibirin last evening, and was to remain there until this morning. The railways are blocked by deserters from Abdallah's camp.

It is generally believed that the property valued at £1,000,000 will be confiscated and applied to the indemnification of sufferers by the massacre.

The British troops occupied Damietta. On their arrival the negro garrison instead of surrendering, fled, taking besides plunder, a quantity of ammunition.
