

Current Notes.

The fire losses indicate so far this year an aggregate of \$85,000,000 for the United States.

The dome of St. Peter's at Rome lately glistened with a mantle of snow, the first in thirteen years.

There were many million airs at the Vanderbilt ball. It was just too gushingly breezy and resplendently incandescent.—N. Y. Commercial Advertiser.

Hotel, the new tenor over whom European opera-goers are in ecstasies, was formerly, like Wachtel, a cab-driver. His old companions in that trade in Hamburg, where he was discovered, have just presented him with a silver "whip of honor" which cost \$120.

The workmen in the great salt mine on Avery's Island, Louisiana, have recently uncovered a heap of bones which apparently belong to a remote period and are possibly relics of a long defunct mastodon. They are about to be sent to the Smithsonian Institution, where their character and value will be determined.

John Brown—"Ossawatimie John" John Brown, "Rab and His Friends" John. John Brown—Queen Victoria's menial. Which will live the longer in history? The last named, just dead, left millions, but they will not buy immortality. The other John Brown died poor. Which one would you prefer to have been?

A late charge against the industrious almond-eyed Celestial is that he is busy in California in boring out the internal wealth of eagles, half-eagles, and quarter eagles, which he appropriates to his personal gain, and filling the vacancy thus caused with baser metal, passes the depleted coin to innocent and unsuspecting Caucasians. Verily, John is Ah Sin-ful man.

A lawsuit to determine the ownership of a meteoric stone weighing 600 pounds, which recently fell in Emmet, Iowa, is about to be tried. The owner of the land on which it fell claims that it is his for that reason, and the man who saw it fall and dug it up believes the court will hold his title perfect. There will be a chance for flashes of eloquence on that subject.

No fewer than thirty-seven British ecclesiastics, or, at least, very far short of one-tenth of the entire number, became extinct or dormant in the fifteen years 1868-82. The number of deaths of peers during the same period were 309, of peeresses, 234. These figures are exclusive of two Archbishops and eleven Bishops. Altogether, the baronetcies which became extinct or dormant during the fifteen years amount to sixty.

The Great French Remedy, Dr. LeDuc's Periodical Pills.

For the cure of Leucorrhoea or White's Excessive, painful Menstruation, Green Stink, Puffing of the Womb, Catarrh of the Uterus or Vagina, Hysteria, Pain in the Back or Piles, or for the purpose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily, or in very unfavourable conditions, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.
