DOMINION PARLIAMENT.

THE RE-DISTRIBUTION BILL

Steamboat Inspection, The Fisheries Act, Etc.

OTTAWA, April 27.

Sir John Thompson announced that the re-distribution bill will be introduced on Thursday.

Mr. Davies enquired for additional papers regarding the dispute between Newfoundland and the Dominion.

Hon. C. H. Tupper said these would be brought down.

Tupper's modus vivendi bill was reported from committee.

The House went into committee on Tupper's steamboat inspection act. The bill was amended so that the Governor-General in Council could make regulations in regard to life preservers to be carried by steamboats.

In regard to a question raised by Hazen about steamboats being allowed to use wooden buckets as well as leather and metallic ones, Tupper said that to adopt rules in force in England, where any kind of buckets could be used, it would be necessary to carry a large supply of hose which would reach any portion of the vessel. This would be a heavy cost, and nautical officers consider it unwise to change the existing rules. Wooden buckets, too, were very liable to get out of order. No representations were made to the Government against the present class of buckets used. Mr. Tupper agreed to take power to deal with the question of buckets by an order in Council, same as was done with life boats, and the bill will be reported.

Hon. C. H. Tupper's resolution regarding lobsters coming up, he said in reply to Davies that all correspondence would be brought down affecting this matter, when he hoped the House would not treat it in a party manner. The resolutions were reported and afterwards referred to his act to amend the fisheries act in which they will be incorporated.

Watson, of Marquette, moved a resolution to place binder twine on the free list. Mulock seconded the resolution. There was a debate taking the usual wide range, after which the resolution was lost, 63 to 107.

The Redistribution Bill.

OTTAWA, April 27.

The obliteration of one constituency in Nova Scotia is occupying attention here. The feeling among members is that Cape Breton will be untouched. The latest proposal involves the obliteration of Shelburne by adding a part to Yarmouth and a portion to Queen's, while still another suggestion is to divide Digby, one portion going to Annapolis and another to Yarmouth.

Quebec Legislature.

QUEBEC, April 27.

Mercier, it is believed, will be expelled from his seat in the House and an election will be ordered in Bonaventure, as the Leader has not yet resigned his seat. Stephens, of Huntingdon, and Fitzpatrick declare that they will give DeBoucherville an independent support.

A Denial.

SIR,—In yesterday morning's Guardian there appeared a letter from the pen of T. L. Chappelle, charging us with selling Carter's Ink to the Merchants Bank of this city. This letter is unworthy a reply, except for the sake of truth. We state plainly, that we have not at any time supplied any of the banks in this Province with *any* quantity of Carter's Ink. This is the last notice we shall take of this individual. As for the definition of a gentleman, we do not wish to discuss the matter with *him*. As to the relative qualities of our inks, the public will judge.

April 26. HAZZARD & MOORE.

It is certainly a Great Tribute to MELISSA that such persistent attempts are made to produce imitations.

Counterfeit money to pass current even among the most ignorant must be made to resemble genuine coin.

In like manner it is found necessary to even copy Melissa patterns and styles in the frantic effort to place imitation goods on the market.

ALL IN VAIN.

The public are not so easily humbugged, and regard with undisguised contempt such an underhand and paltry manner of doing business.

Our MELISSA CLOTHS are manufactured by the largest and best mills in the country. All our patterns are made specially for us, and the mills guarantee they will neither reproduce them in any other cloth nor sell them to any other firm.

We neither deal in Counterfeits nor play Second Fiddle

Copies of Melissa patterns must therefore be obtained from some of the smaller inferior mills in lower grades of cloth.

NOTHING EQUAL TO MELISSA HAS EVER HERETOFORE BEEN PRODUCED either for Ladies' Cloakings or Men's Ulsterings. There is a large range of the most fashionable colorings and patterns to choose from. The Cloth being thoroughly Rainproof, you get in a Melissa Cloak or Overcoat a beautiful fine soft Woolen Garment having all the advantages of a Waterproof without any of the disagreeable or unhealthy qualities.

Melissa Goods are now being sold by all the Leading Dealers throughout the Dominion.

All genuine porous rainproof cloths are stamped in wax with the Melissa trade mark seal, and Melissa Garments have the above trade mark label attached. None other genuine.
