## PEI Fishermen Receiving Unemployment Insurance

Eight hundred and sixty fishermen in Kings and Queens Counties are drawing Unemployment Insurance benefits at the present time, according to the Charlottetown National Employment Office. All the fishing communities such as Rustico, Tracadie, Naufrage, North Lake, St. Peters, Souris, Gaspereaux, Murray River, Murray Harbour, Pinette and Morell, are sharing in the benefits. This is the first time that fishermen have been eligible to draw insurance and they are being paid a total of about \$20.00 per week. It is reported that the merchants where the fishermen trade, have noted that business has been fairly good. Principally the money is being spent on groceries and clothing in opinion of well informed merchants. At the rate of \$2000.00 a week it means that \$2000.00 per month of new money is available to fishermen, in the slack season. This is reaching the individual fishermen in amounts ranging from \$20.00 to \$30.00 a week each. A few may be drawing less than \$20.00 a week. The city of Charlottetown meantime, still continues to have less people drawing benefits than at the same date a year ago.

**Latest figures** compiled by the local office reveal nine hundred and sixty claimants at the present time, as against one thousand and fourteen one year ago; a reduction of fifty-four. On the other hand, taking the whole area of Kings and Queens counties into account, the record total of 4169 people are in receipt of benefits, as against 3134 a year ago. Most of the increase is accounted for by the 860 fishermen who for the first time have come under the protection of the Act.

Annually for the past number of years, there has been an increase in the number of claimants of from five to ten percent. It is believed this can be attributed to people becoming more familiar with the Unemployment Insurance Act, and consequently making sure that for any insurable employment they perform, that Unemployment Insurance contributions are made on their behalf.

The season was particularly opportune for an appreciation of the orchards and vineyards as they leisurely covered the country to Paris. Three days were spent at the famous shrine at Lourdes before crossing the frontier into Spain. The flowers in San Sebastian and Marid presented a panorama of rare interest. It was noted that owing to the extreme heat stores were closed in the villages passed through, so much so that they appeared to be deserted. However around ten p.m. the people started to put in an appearance and business was carried on until midnight. Paved roads on mountain sides
