

HIGH SCHOOL HOCKEY CHAMPIONS

The Summerside High School hockey team won the Provincial hockey championship for the 1957-58 season, defeating Alber-

ton and Souris in sudden death playoff tilts. The winning team, **FRONT (left):** Allison Laughlin, David Weale, Gerald Gay, Greg

IN MEMORIAM

HELEN MASTERS
There passed peacefully away to a land that is fairer than day to a P.E.I. Hospital on March 31st, Helen L. Masters, beloved daughter of Mrs. and the late William Masters, Vernon River. After a long and painful illness of nine months.

Entering the Montreal General Hospital last July after a week of observation it was found necessary for surgery treatment. Everything possible was done and after two months she was accompanied to the Island by her mother and trained nurse and entered the P.E.I. Hospital for further treatment but of no avail and on the above mentioned date she passed away to be forever with the Lord.

She leaves to mourn her loss her mother and one sister Betty, Mrs. Bruce Jones Pownal, her kind sunny disposition endeared her to old and young alike, always a smile instead of a frown and always ready to help those in need.

She received her early education in the public school and worked her way through college taking a course at McMaster University and later at the Comptometer School, Montreal. From there she was employed by the Robert Simpson's Co. and that job she held until her passing.

The funeral service was held in the home and despite the poor condition of the roads was largely attended. The service was conducted by Rev. H.L. Milton, Pastor of the United Baptist Church, Charlottetown, assisted by Rev. A.S. Weir, Vernon, bringing words of comfort to the sorrowing.

The church choir sang the hymns "Jesus Saviour Pilot Me" and "Will The Circle Be Unbroken" "Bye and Bye".

Palbearers were Arthur Richards, Arthur Wright, Reginald Masters, Clarence Redmond, Everett Wood and Merrill Murphy. Flower-bearers were Preston Richards, Victor MacLean, Harold Richards, Alfred Richards. Burial took place in the United Church Cemetery, where she was tenderly laid to rest beside her father, three brothers and sister. Funeral services were under the direction of N.D. MacLean, Charlottetown.

CARD OF THANKS

Mrs. William Masters and family wish to sincerely thank Dr. Giddings, Matron and staff of the P.E.I. Hospital and special nurses for their kind understanding to alleviate the pain and suffering of the late Helen Masters; Rev. H.L. Milton and all other clergy for their kind visits and spiritual guidance; and to all kind friends and neighbours who sent flowers, cards and messages of sympathy; and a special thank you to Mr. and Mrs. Arthur Richards and family, Mr. and Mrs. Clarence Redmond for their many acts of kindness and generosity during their sad bereavement.

Re-affiliation Services Held By CGIT Group

The C.G.I.T. of Cornwall United Church held their Re-Affiliation service with the W.M.S. in the Church vestry, April 29. Jeanne MacMillan, president of the group conducted the service; other members of the group taking part were, Norma Howard, Donna Wilson, Gail Lowther, Vivian Drake and Mary Hyde. During the service the members of the group rendered a special number.

Weather Log From Ellesmere Island Shows Some Cold Days

By DAVE MCINTOSH
Canadian Press Staff Writer
OTTAWA (CP)—"This month (December) was again rather cold. Temperature fell below minus 50 degrees on all but three days of the month."
This is an excerpt from the log of Charles Harington of Calgary, leader of the four-man winter scientific expedition based at Lake Hazen on Ellesmere Island, 450 miles from the North Pole.

A plane which landed more supplies at Lake Hazen March 29 brought out Harington's log which now is being examined by Arctic experts of the Defence Research Board, sponsor of the expedition.
Other members of the team are C.I. Jackson, J. M. Powell and D. I. Smith, all of Montreal. They and Harington are post-graduate students at McGill University. They will be joined at the end of this month by a dozen more board scientists for further research. The Lake Hazen camp will be abandoned late this summer.

Kissless Bride Gets Annulment

BOSTON (AP) — Mrs. Harriet Masterman Bentley, attractive Beacon Hill matron, was granted a marriage annulment from James H. Bentley of Manchester in Suffolk probate court Tuesday after she testified she had been a "kissless" bride for four years.
The Bentleys were married in 1951 and she told Judge John V. Mahoney she left her husband in 1955.
Before the marriage, she testified, she expressed interest in having a family and, she said, he agreed.
"After the marriage," she said, "he told me why he married me. He wanted someone to take care of his laundry, clothing, food and home."

entering Canada. In addition the group has made a lovely afghan which they plan on sending to Korea.

This service marks the climax to a busy season for these girls; they have participated in a concert program; they took part in a Church Youth Service, and now they form the nucleus of the newly organized Junior Choir.
At the close of this impressive service a social hour was held in which games were played and in which a most appetizing lunch was served by the members of the W.M.S.

No Funds To Send Canadian Artists To The World Fair

By KEN METHERAL
Canadian Press Staff Writer
BRUSSELS (CP)—For lack of funds to send Canadian artists to Europe, the main exhibition auditorium of the world fair may be empty Aug. 25, the day set aside for Canada.
"We are still hoping to arrange something, but right now it looks as if the auditorium will be empty," T. L. Bullock, chief Canadian information officer said Friday.
"We have the artists in Canada but we haven't the money to get them here."
The \$2,750,000 budget makes no provision for live appearances by organizations such as the Stratford Shakespeare Festival Players or the National Ballet of Canada.
The money shortage has forced cancellation of plans to bring over the CBC Symphony Orchestra and dashed hopes that pianist Glenn Gould and soprano Lois Marshall might come.

AMONG THE FARMERS

THE MARKET SQUARE
For a great many years the market square has so far as many farmers are concerned been the centre of the city. In the old days it really was a market square where loads of hay, straw, wood, vegetables and other farm produce was displayed and hand to hand deals made between producer and consumer. However, of late years the market square has become a parking place for automobiles and the horse and sleigh or wagon almost a novelty.

Now, to complete the transition the market building has disappeared and the stalls which offered the produce of the farm direct to the urban housewife are a thing of the past. Whether in the days of the modern supermarket the farmer's market has a role to fill will be a question for argument and whether the market building facilities will be replaced is also a question. In any event many farmers will have found less reason to plan attendance on market days, attendance which has become almost tradition with some people.

WEATHER COMPARISONS

The early spring continues the pattern for mild weather which has been set throughout the winter. Grass is at least three weeks ahead of normal and leaf development on the trees almost comparable to that of Ottawa and this is quite unusual. Although seeding has started in the west, Manitoba was blessed on April 28 with a snowstorm and temperatures down to 10 deg., a condition which barley above ground would likely not stand. From the standpoint of the grass and hay crop May is an important month, if it is cold and dry this crop will not be satisfactory. Generally early springs do not produce the best crops but this

Price Spread of Food Products
has come and gone with the producer apparently showing more interest than the consumer in the matters under review. There is probably very good ground for believing that the consumer has just as much at stake in this matter as has the producer. It will certainly help the Commission to do a much better job if it has information indicating the viewpoint of both.
Food is big business today and generally the grocery bill continues to increase as living and nutritional standards improve and inflation continues. The food dollar has to cover a great deal more than food and items such as transportation, packaging, processing and profits built very largely in the total, a situation for which the farmer is receiving more than his fair share of blame.

THE FOOD SHOW
Reports by those who attended indicate that the A. P. E. C. Food Show in Moncton was a success. On Tuesday afternoon and evening when the show was open to the public it was estimated that 10 thousand people took advantage of the opportunity to view the 68 different displays of a very wide variety of Maritime produced food. The Prince Edward Island dairy industry was well represented by the booths of Central Creameries Limited, Amalgamated Dairies Limited and the P.E.I. Dairymen's Association. Efforts of this kind can do a great deal by way of informing the public, over 4 thousand receipt pamphlets were very quickly passed out from the dairy booth and the interest on the part of the consumer was very encouraging.

MEMBERSHIP
The Federation is now studying the setting up of a plan of membership which will involve, it is hoped, the support of a great many more farmers. If the plan is to operate successfully it involves the co-operation of the dairy plants and the dairy farmers of the province. Once details are agreed upon the plan will be announced and the reaction of the island farmers solicited.
MONDAY MEETINGS
Federation members a d farmers generally are reminded
