A DISPATCH from Ottawa to the St. John Telegraph says:—"The Government have offered George Macleod, of Charlottetown, \$10,000 in settlement of his claim for injuries received on the Prince Edward Island Railway."

THE St. John Telegraph says one of the most miraculous escapes from a very serious accident in the history of railroading in New Brunswick was that experienced by the Quebec Express on Saturday morning at Quispamsis station, on the Intercolonial Railway.

THERE is no foundation for the rumor circulated by the St. John Telegraph that Hon. Joseph Pope, manager of the Government savings bank at Charlottetown, and father of the late Minister of Marine and Fisheries, will be superannuated on the 1st of July, and that the position has been offered to Percy Pope, son of the Minister of Marine.

CRICKET.—At a recent cricket match, in England, between Hampshire and Surrey, the scores made in the inning were 229 and 650—the largest score ever made in a first-class match. Mr. W. W. Read secured 168 runs, consisting of one 7, one 6, two 5's, seventeen 4's, nine 3's, fourteen 2's, and singles. We should judge from this that, as yet, the game has hardly been brought to perfection here.

SHEPLIC has lately been quite lively with fires, murders and attempted suicides. The Telegraph reports that, "on Thursday, an elderly lady of unsound mind, made her way to the river near Mr. W. Hamington's mill and threw herself into the water, desiring to leave this world of trouble. The mill was quickly stopped, when some of the hands rescued her, for which she did not thank them."

Mr. Alexander made a special study of the Greek language, and distinguished himself as an original worker in that department. We learn that he intends to spend the summer in Germany, in company with Dr. Schurman, of Dalhousie College, Halifax.

VALUABLE GOLD DISCOVERIES.—One of the best gold discoveries so far in Halifax County has just been made on the old DeWolf property at Montague, close to the celebrated Rose lead. Three leads, respectively 33, 11 and 7 inches in width, have been found about 12 feet below the surface and give indications of a rich yield. The richest appearing lead yet discovered in the Chezzetocod district, one five inches in width, has also just been found by Mr. John E. Anderson a little to the Eastward of the Oxford Mining Company's property.—Chronicle.

THE Civil Service Examination began this morning at 10 o'clock. This examination is divided into three parts—a Preliminary which took place to-day—a Qualifying, and a Promotion Examination. There were six applications made to take the Preliminary and Qualifying, but only five candidates put in an appearance. There are three applying for examination with a view to promotion. We may state that only those who pass the Preliminary are allowed to try the Qualifying Examination; at the same time inferior positions in the Civil Service are open to those who pass the Preliminary successfully, but are not prepared to be examined further. The Qualifying Examination will be held on to-morrow and Thursday, the Promotion on Friday and Saturday.

Crops are very much injured.

An English brig lying in the harbor at Corruna, recently hoisted at her mainmast a Fenian flag. The flag was green with a white cross in the centre. At the same time she was flying a small English flag at the foremast. The English consul sent a messenger aboard to order the captain to lower the green flag; but the messenger met with rough treatment on the vessel. He then summoned assistance of the Spanish coast guard, and eventually a party of armed sailors boarded the vessel and removed the objectionable flag. An inquiry has been instituted into the circumstances of the affair.
