PM Moves Campaign To Alberta

LETHBRIDGE, Alta. (CP)—Prime Minister Diefenbaker brought his Conservative re-election campaign to Alberta Friday with a speech to Lethbridge high school students advocating tolerance and unity.

He told the 1,500 students that people with unorthodox ideas should pursue them if they can be brought into effect for the benefit of all.

He urged students to be "crusaders on behalf of those things that are good and right," and said his own life had shown how radical ideas can be put into effect by the passage of time.

"When I was a boy, women did not have the right to vote. The men thought that women did not have the intelligence to vote."

BOYS APPLAUD

The boys in the audience applauded loudly. He told the girls: "But I'll match you girls against them anytime in the classroom."

Fifty years from now Canada may have a population of 60,000,000 and will be one of the great nations of the world, he said.

"Some say they wish they had been here in pioneer days. You are the pioneers of Canada of the future."

Mr. Diefenbaker was met at Lethbridge airport by more than 200 supporters, including a group of Indians in native dress, led by Senator James Gladstone, an Indian chief and the first Indian to sit in the Senate.

Rape Case Is Adjourned After Plaintiff Testifies

Milton Doucette, Charlottetown, charged with rape, had his preliminary hearing adjourned yesterday to Thursday May 17. The case is being heard before Magistrate James Haslam in city police court.

The plaintiff, Miss Elizabeth Bernice Doiron, 16, Charlottetown, was the only witness to testify at the sitting. She was on the stand about one and one half hours.

Miss Doiron testified that on the night the alleged offence was said to have been committed she encountered the accused in company with another man during the course of her work at Tweels restaurant. She said she knew him slightly, having had a date with him once some time ago. She said she knew the other man quite well. She testified that later, while walking along Great George Street toward her home on Gerald Street the accused and the other man drove up in a car and she accepted an offer of a drive home.

GOT INTO CAR

She said she got into the back seat of the small two-door car and the accused got into the back with her. She stated that on the way to her home he tried to put his arms around her. She said she resisted.

A short distance from her home she said the driver stopped the car and she asked to get out. She was not able to get out however. She then testified that the driver proceeded to a spot in the Spring Park area near Spring Park School, where he parked the car.

She described a struggle, inside and outside the car, with the accused. She stated that at one point a towing truck stopped beside the car and the truck driver had conversation with Doucette. She did not call to the truck driver for aid and the truck drove off.

When she was finally driven home, members of her family called police and a doctor, she said, and she was taken to hospital where she spent the night.

Counsel for the defence in the case is John Holmes. Deputy attorney general Authur MacGuigan QC, represents the crown.

In the only other case on the docket, M.A. MacLean, Souris, charged with false pretenses, had his case adjourned until today.

Mac Urges Calm View

INVERNESS, Scotland (Reuters) — Prime Minister Macmillan Friday night urged his ruling Conservative party not to be shaken by widespread losses in Thursday's municipal elections in England and Wales.

Macmillan told a party meeting here that the setback should be a spur and a stimulas and should not lead to despondency and defeatism.

"A government which made popularity its guide would be unfit to govern," Macmillan said.

Macmillan said time would tell whether the Liberals—main gainers in the elections—were to become a fixed star in the political orbit or remain a flying saucer.

OBSERVANCE PLANNED

QUEBEC (CP) — The Canadian Council of Professional Engineers is planning to observe the centenary of Confederation in 1967 with a 15-minute film showing Canada's engineering developments in the last 100 years and the prospects for the future. Steel Companies Need New Effort

SEIGNIORY CLUB, Que. (CP)—The gravy-train of post-war years has passed and Canadian steel companies must intensify their selling efforts in the face of reduced profit margins, the Canadian Institute of Steel Construction was told Friday.

President E. A. Ford of Montreal, addressing the institute's annual meeting, said some of the steel construction industry's problem's with over-capacity were self-inflicted.

New steels and new fabricating and construction techniques must be developed, he said.

He warned that selling a steel frame against a concrete frame was not a good long-range policy.

"This is not good economics," he said. "We must sell a steel building with all its many advantages. Other trades will co-operate, we must work with them."
