Electric Railway Bill—Government House and the Park Roadway. MONDAY, March 30.

House met at 3 p. m.

Mr. Warburton presented a petition from himself and others asking for the incorporation of a company to be called the Charlottetown Electric Company, having for its object the construction and running of an electric railway or tramway in the City, Common and Hoyalty of Charlottetown, and the county of Queen's County, and for the supplying of electric energy or power and coal or other gases, for lighting, heating, motor and other useful purposes.

Mr. Warburton explained that the object of the bill was to secure the right to operate a railway over the city and common, as well as throughout Queen's County. He thought the time was not far distant when the last part of the measure would become operative, and he believed, further, that it would be the means of solving the vexed question of communication with other parts of the Province. Some time ago he had given a member of the City Council a rough draft of the bill for submission to that body. Since that time, however, he had gone over the bill more carefully and had made some changes, which he would fully explain to the Mayor and Council. He asked that the bill be first read in public, and before it came up for a second reading, the bill, as introduced, could be carefully considered by the City Council and the members of the House.

The petition was received and read, and a bill in accordance therewith submitted. Hon. Mr. Farquharson hoped the Company would not be asking for too much, as he was opposed to monopolies of every description.

Hon. Mr. Peters thought that in view of the importance of the measure it should be dealt with in an especial manner. He therefore moved that it be referred to a special committee of five to investigate. The motion was put and carried, and the following committee was appointed: Warburton, H. C. Macdonald, Prowse and James E. Macdonald.

The House then adjourned until 3 p. m., on Tuesday.

Hon. Mr. Peters gives notice of his intention to introduce a bill settling the question of the claim of the city to a roadway in front of Government House. He also gives notice of a bill providing for the sale of Government House property after the terms of the present Lieutenant-Governor shall expire.
