**NEED NOT CAMP.**—Final orders regarding the camping of the artillery were received yesterday. Nos. 3, 4, and 5 companies will camp. No. 1 and 2 companies will perform their twelve drills at local headquarters as usual and will be inspected with the rest of the corps. Our city artillerymen were much pleased when they received this information.

**NATURAL HISTORY SOCIETY.**—The Natural History and Antiquarian Society will go to Rocky Point by the 9.30 boat next Saturday. "Ringwood" will first be visited where Hon. Fred de St. G. Brecken will give an address upon Colonel Cumberland, Major Holland and their times. Next the old fort will be visited. Lastly the party will proceed to Holland Cove where the remainder of the day will be spent in field work, study and recreation. Particulars may be learned from the Secretary.

**LAST NIGHT'S BOAT RACE.**—It seems strange that more attention has not been given to aquatic in Charlottetown. Our harbor probably presents, as nice a sheet of water for this sport as can be found, and the crowds who thronged Connolly's wharf and lined the park roadway shows that much interest is taken in boat racing. Perhaps last night's race is the beginning of something better in this regard. The two boats—the Dresser and Roderick four oared lap streaks—and crews belong to the Hillsborough Boating Club, the only organization of this kind in the city, the membership of which, we are glad to hear, is steadily increasing. The course was three miles. A start was made shortly after seven o'clock. The Roderick led the buoy, but was overhauled by the Dresser while coming around, which boat, while coming up the home stretch, continued to gain until she led by about five lengths. The time made was 21 minutes, 46 seconds. The starter and judges went over the course in the steam yacht Flash.

We hear that another race between married and single men will take place next Monday evening. It would be very interesting to see at the same time a single and double scull race.

Alfred A. Taylor, of Margaree says: One bottle of MINARD'S LINIMENT cured a swelling of the gambler's joint, and saved a horse worth \$140.00.

Thos. W. Payne of Bathurst, saved the life of a valuable horse that the Vet. had given up, with a few bottles of MINARD'S LINIMENT.

Warren, of Belvedere, and was for a time in the employ of Messrs. Johnson & Johnson. THE EXAMINER congratulates him upon the good work he has done.

**BASEBALL.**—A very interesting game of baseball was played yesterday at Victoria Park between a team from Scott & McKinnon's sewerage men and a team made up of McLean's men. The captains were, George Potter, of the former, and Bob Wakeland of the latter. Mr. Laurence McLennan was chosen referee. The game was well played. The men exhibited abundance of muscle and wind, obtained, no doubt, by their rigid training in the trenches. Nor did they lack in agility or swift running, which, I presume, is due to the rest they have been enjoying since the work on the sewerage was suspended. A large crowd from the city witnessed the game, and enjoyed the treat immensely. The players were all in the best of humor and adhered strictly to the rules governing the game. They now hold themselves in readiness to play any other team in the province, outside of sewerage men, they being allowed to pick a team from the two which played yesterday. The result of the game was a tie; each side scoring 23 runs.—Com.

**HORSE KILLED.**—The Summerside correspondent of the Guardian says: A horse belonging to Mr. R. E. Sobey was killed yesterday forenoon by being struck by the train. It appears he had become frightened by the approaching train and ran along until cornered in a sharp angle of the field, when he jumped the fence and got on the track. The cowcatcher struck him cutting off one of his legs and otherwise injuring him.

They go up for final examination next year.

**STREET BRAWL.**—Shortly after the excursionists landed from the Jacques Cartier last night, some of the number engaged in a disgraceful squabble which was continued along Great George Street to the great annoyance of the people of the neighborhood. Coats were off, blows were struck and strong language was used. There were about thirty or forty onlookers. It is a great pity the police were not on hand to "run in" those who participated in the disturbance.

**DIDN'T KNOW 'T WAS LOADED.**—An amusing incident took place at the foot of Queen Street this morning. The watering cart was going along doing its work of laying the dust and the usual number of arches were following it. As the cart was going over the crossing the water was turned off and the arches came up closer, one little fellow coming almost up to the sprinkler. Suddenly the water was turned on, and the expression on that little boy's face as he was covered from his neck down would be hard to picture.
