THE CITIZENS' BAND.—The benefit for the Citizens' Band, given in the Lyceum last evening by the Kickapoo Indian Medicine Company, was very successful. The Lyceum was thronged. The selections by the band added very materially to the enjoyment of the occasion. About $70 was taken for tickets at the door and a goodly number of tickets was disposed of by the members of the band previous to the concert.

THE MONTH'S RECORD.—At the Police Court during the month of November ending yesterday, there were 22 convictions for drunkeness against 26 for the preceding month; 2 convictions for malicious injuries to property; 6 convictions for breach of the Liquor Regulation Act; and 1 conviction for larceny. NO ONE ever smoked "Myrtle Navy" tobacco for a fortnight and then took to any brand in preference to it. It bears its own testimony of its qualities, and it is this testimony which is always convincing. The smoker who uses it is never annoyed by getting it sometimes of good quality and sometimes of bad. The arrangements of the manufacturers for keeping its quality equal are very elaborate and complete, and are the results of many years of experience and close observation.

THE RING.—The fight at the Coney Island, N. Y., Athletic club, on Monday night, was largely of a "fake" character, although the great majority of the five thousand people present were satisfied. The contest was between Martin Costello and Alex. Greggains for a purse of $2 500. For fifty rounds the fight was one which satisfied the crowd, but after that the men commenced fighting for a draw, and the audience was greatly dissatisfied in consequence. For thirty rounds the men "killed" time, and then the fight was declared a draw and the money divided.

Every item of the scheme has been carried out with the utmost fidelity to its Eastern origin.

The ancient Hindoo and Sikh patterns furnished the motive, and the coloring, although subdued, is rich beyond description.

Silver No Good.

GOLD STANDARD IS ONLY POSSIBLE ON BASIS PROVIDED BY ENGLAND.

BRUSSELS, Nov. 28.—Baron Rothschild laid his proposals before the Monetary conference to-day. The document states that a gold standard is only possible on the basis provided by the Monetary system of England; bi-metalism is impossible, silver being unsuitable as a means to settling balance between nations.

"I do not think that a universal agreement respecting the currency in question can be had at the present time, for no two nations are on a similar footing regarding the national wealth.

"Supposing the American government continues in the purchase of silver to the extent of forty-five million ounces per annum, I would suggest the different European powers combine, making yearly purchases of five million sterling silver. They should do this for the period of five years, paying a fixed price for the commodity of 43 pence per ounce. As soon as the standard price of silver should rise above 43 pence, purchases should be suspended until a new price is agreed upon by the powers involved in the scheme.

"I hope and believe that our American friends will find this proposition acceptable, for my own part I have no objection to silver being made the legal tender of England up to five pounds sterling, instead of two pounds sterling as is the case at the present time. In case of this arranegment being perfected the gold market would be relieved as no fresh demand for gold would be forthcoming. After the proposition of the baron was read a motion to appoint a committee to examine into the suggestion was unanimously approved."

Car Floor Red With Blood.

BATTLE ON A NORTHBOUND OHIO RIVER RAILROAD TRAIN.

News of a bloody battle on a northbound Ohio River railroad has reached Gallipolis, Ohio. As a result of the fight the conductor and brakeman are shot and badly cut, a number of passengers are more or less injured and the six drunken offenders, it is supposed, have injuries which are dangerous.

On Monday night six brothers, Williams by name, boarded the train at Huntingdon in a maudlin condition. They at once became obstreperous, and when Glenwood was reached one of them went into the ladies' coach, began using profane language and flourishing his revolver in a menacing manner and threatened to kill everyone in the car.

Conductor Smith grabbed the man and pulled him into the smoker. This angered his brothers and they rushed upon the conductor, at the same time drawing their pistols and knives.

His brakeman at once came to his assistance and the fight was precipitated. In the melee both the conductor and brakeman sustained serious injuries.

The newsboy, hearing the shots and screams, jumped from his seat in the ladies' coach and rang the "riot" bell. The train was stopped and the engineer and fireman dismounted from their cab and proceeded to the smoker with huge clubs, where they beat the Williams brothers until they were almost insensible, and threw them off the train.

Several passengers were badly injured, and the floor of the smoker was red with blood. It is not known whether any of the Williams boys were killed or hot.
