FIRST: HOW ABOUT CURTAINS? Is there any single thing that adds more to the beauty of a room. The variety we are now showing is the largest yet imported by us. It includes the new, the novel, the serviceable and the economical. Speaking of economy, reminds us that the Curtains we show at 66c., \$1.25 and \$1.80 are worth a deal more money—but we want your trade, and are willing to make the prices as near the vanishing point as possible. Notice particularly the large variety of pretty patterns we show. BEER BROS.

SOMETHING FOR THE CHILDREN! 'Tis true we have not all sizes of this line of Hosiery—if we had, you would be paying much more money for the same goods. DRESS GOODS FOR SPRING!

We are now showing a magnificent line of NEW AND FASHIONABLE MATERIALS in all the latest Colorings. As far as Styles and Colorings are concerned, there appears to be a larger demand for Plains and less for Fancies. This is readily explained by the increased popularity of Silk, which is being, and will be, not only used as a fabric for dresses, but largely for trimming and kindred purposes, and thus provide the necessary coloring for the plainer material.
