Problem Of Runaway Films Tackled By U.S. Producer

By BOB THOMAS
HOLLYWOOD (AP)—Ever since Hollywood has been talking about runaway film production, it has not had any film anything about it—until now.

Elements of the film industry labor lobby have been lamenting for two or three years the flight of movies to foreign lands. The problem is being attacked in concrete terms and with some success.

George Stevens has been cast in the part of crusader for home-based filming. He denies any such grandiose role, saying he merely wants to make The Greatest Story Ever Told sensibly and well.

Stevens resisted attractive offers to allow the Christ story to be made in Mexico. Stevens appreciates the quality of Hollywood craftsmen. But he has determined that the \$10,000,000 he intends to spend will be better spent in the U.S.

"Production has already run away," argues the producer-director.

Union Is Urged To Support NDP

ATLANTIC CITY, N.J. (CP) Toronto union official Sam Kraisman has urged the International Ladies Garment Workers Union to give all financial support to the New Democratic Party in the June 18 Canadian election.

Kraisman, manager of the ILGWU cloak and suit locals in Toronto, addressed 1000 delegates at the union's convention here.

He said the Progressive Conservative and Liberal parties in Canada were financed by large corporations and that by and large these corporations were financed by United States investors.

In other words, he said, it was all right for U.S. capital to finance political parties in Canada but all wrong, according to the critics, for U.S. workers to help Canadian workers to elect what he called a decent government.

The report on Kraisman's speech was issued by a public relations representative of the union.

Douglas Files Election Papers

REGINA (CP)—T. C. Douglas, national leader of the New Democratic Party, Monday officially became a candidate in Regina constituency for the June 18 federal election when he filed his nomination papers.

Deadline for filing isn't until June 4 but Mr. Douglas said he was getting his in early because he has a busy schedule ahead of him.

He is the first candidate in the constituency to file his papers.

Astronaut Believes Frost Caused Fireflies In Space

By VERN HANGLAND
CAPE CANAVERAL, Fla. (AP)—Malcolm Scott Carpenter leapt about 100 miles into space fireflies. He said he had to do, come satellite, he saw the fireflies on the walls of his Aurora 7 spacecraft.

If there were no tiny sparklers in the rowy dawn, a bang with his finger would produce some. And if there already were some of the dancing lights, a wall-pat would increase their number.

Carpenter, relating this in his first written account of the glimmering objects were fireflies—or, more specifically, frost flakes.

He suggested that somehow frost accumulates on the capsule walls during the short but frigid orbital nights, and then come off in puffs at dawn when there is a force to motivate them.

SAY NO MOISTURE
To argue that there is no moisture at orbital altitudes to precipitate on the metal exterior of a spacecraft suggests that:

1. Possibly sufficient frost accumulated during the climb through the atmosphere to last until the orbital night.
2. Perhaps steam from the systems of the spacecraft itself is enough to build up a frost source.

National Aeronautics and Space Administration scientists suggested that the particles—reported by astronaut John H. Glenn, and by his predecessor in space, Soviet cosmonaut Yuriy Gagarin—might be flecks of paint.

Both Glenn and Tliov said they did not see the objects were paint specks.
