get a standing Army of their own, as England says they must, she being no longer willing to bear the burthen of their defence.

RIFLE SHOOTING MATCH.

The Annual Volunteer Rifle Competition, which commenced on Government House Grounds on the 29th, terminated at 2 o'clock yesterday. The weather on Thursday was everything that could be desired for such an occasion. The sky was clear and bright, with scarcely a breath of wind. Friday, however, opened less auspiciously. When the firing began, and while it continued, there was quite a stiff breeze blowing at right angles to the line of the bullets, and the clouds, which were dark and lowering for hours before, rained down copious showers in the afternoon. The number of spectators was not so large as at former competitions; but the muster of volunteers far surpassed our anticipations, and we must do them the justice to say that, while their soldierly bearing bespoke the efficiency of their discipline, their orderly behaviour no less strikingly showed their sense of propriety and self-respect. Not an accident of any kind occurred to mar, or cast a shade over the proceedings.

This year there were only two ranges, viz: 200 and 500 yards, with five rounds at each. The size of the targets at the former was six feet by four; at the latter, it was eight feet by six. Points and hits were counted throughout. The total number of competitors was 88. Of these 33 were disqualified from competing at the second range, they having failed to score 10 at the first. At the close of the first day's firing, Donald Crocket headed the list with 26 points and one round to fire. Allan Stewart, of Dundas Rifles, Southport, came next. He scored 24 points, with two rounds to spare; at the first range he made 16. Had there been a disposition (and we are glad there was not) on the part of the people to gamble, we believe that on Thursday evening, the majority of them would have staked two to one on Crocket.

It will be seen by the subjoined list of prizemen, that Fortune is as fickle as ever in the distribution of her favors. The man whose youthful brow she crowned last year with the victor's laurel, is, on this occasion, passed over; and that coveted distinction placed upon another. Pollard, McGregor, McKinnon, McRae, Laird and McLaren, have either fallen in her estimation, or occupy no place there at all. After all, there may be wisdom in the old jade's caprice. The names appear below in the order of merit, after the ties were fired off:

Prize.	Competitor.	Company.	Total Points.
1	Allan Stewart,	Dundas,	27
2	Donald Crocket,	Gray's,	26
3	Noah Harper,	Gray's	24
4	Lieut. A. Darrach,	Bayfield,	24
5	Alex. Horne,	Victoria,	23
6	Peter McDonald,	Orwell,	22
7	Josiah Laird,	City Artillery	22
8	James McLaren,	New Perth,	22
9	John C. Lawson,	Bayfield,	21
10	Daniel McKinnon,	Prince of Wales	21

About two o'clock the Volunteers marched up to Government House, and were kindly invited to take shelter from the rain, in the hall, where the prizes were distributed. So soon as the prizemen had been formed in line, His Excellency and Mrs. Dundas entered the hall. They were followed by Mrs. Alexander, Mrs. George Wright, Miss Wright, Colonel J. H. Gray, Lieut. Colonels P. D. Stewart, T. Heath Haviland, John Longworth, A.D.C., F. Longworth, Major Hodgson, A.D.C., Major R. H. F. Smith, Capt. DeBlois, &c. His Excellency addressed the Volunteers present, in a speech of considerable length, and of great practical importance. He regretted, he said, that he could not see them oftener assembled in Charlottetown where large numbers of them could be drilled together, and go through those evolutions which formed so necessary a part of every soldier's training; and where they would have an opportunity of becoming acquainted with each other. They all had occupations at home which engrossed their time and attention, and he knew how difficult it was for them to tear themselves away from these occupations. In alluding to the proceedings just brought to a close, His Excellency spoke in complimentary terms of the practice that had been made, and expressed his belief that it would bear comparison with the practice of any of the other Colonies; nor did he think it would present an unfavorable contrast to that of the competitors of the mother country. This year the ranges had been changed from 200 and 400 to 200 and 500 yards, in order that we might be able to institute a fair comparison between the firing made here and at home at these distances. His Excellency also referred to the inefficiency of the old musket, and showed the great advantage which both our soldiers and volunteers possess over the brave men who, armed with former weapons, followed Wellington through the victorious fields of Spain and Belgium. In illustration of this fact, he might state that at the battle of Salamanca it required an expenditure of 3,000,000 musket shots, and 6000 cannon balls, besides repeated charges of cavalry, to put 8000 men *hors de combat*. This was about one casualty for every 400 shots. He could also state that a gentleman who was now present saw a volley fired at 300 yards range, which emptied only three saddles. In 1838 experiments were made to test the accuracy of the old muskets, which resulted in the introduction into the regular service of the Minnie rifle. It was now superseded by the Enfield, which they had been using for the past two days, and after repeated trials the Whitworth rifle, with which Her Majesty opened the Wimbledon competition in 1861, was found to be far superior to either of its predecessors. Having expressed a hope that the day was not far distant when breach loading rifles would take the place of the present weapon, His Excellency referred to the interest he had always taken in the Volunteer movement, and, as it was probable this would be the last competition he would see in this Colony, he must request those whom he was now addressing, when they returned to their homes, to assure their comrades that wherever his future lot might be cast, the Volunteers of Prince Edward Island would occupy a prominent place in his recollection, and live in his esteem. His Excellency presented the National Rifle Association medal to Mr. Allan Stewart, who immediately after had the honor to receive the first prize (£10) from Mrs. Dundas. In distributing the remaining prizes, Colonel Gray, Lieut. Col. Stewart, and Lieut. Col. Haviland spoke; but both time and space, we regret to add, prevent us from giving even an outline of the very appropriate speeches of these gentlemen. When all the prizes had been disposed of, McGregor, formerly of the Pownal Rifles, but now of the Dundas Company, was called to the front, and presented with the National Rifle Association medal for the year 1862, this being the first public opportunity of doing so since its arrival. After three hearty cheers for His Excellency, Mrs. Dundas, and Mrs. Alexander and the ladies—a compliment as well timed as it was deserved — the Volunteer Band played "God Save the Queen," and the company separated.

The Umpires, Lieut. Col. Longworth and Capt. Deblois discharged the delicate duties entrusted to them in a most satisfactory manner, as did Major Smith those of acting Quarter Master General.

The firing for the all comers' prizes was concluded to-day. David Harper, Thistle Corps, won the Whitworth Rifle, making 31 points, and James McLaren of New Perth, who made 29 points, took the second prize.

"The Northern Kingdom"—by a Colonist—Dawson Brothers, Montreal.

Such is the title of a little pamphlet which we received lately from the publishing house of Messrs. Dawson Brothers, Montreal, and which purports to deal with the future condition of the British American Provinces. It is written with considerable ability, but who the writer is, we have no means of ascertaining. We think, however, that he will make no great impression on the minds of British Americans. The public mind in those Provinces, so far as we have been able to form an opinion of its tendencies, is not prepared for the acceptance of the views put forth by the author of the pamphlet. He assumes that there will be an almost immediate separation of the Colonies from Great Britain; and when that event occurs, he proposes that an independent Monarchy should be established, taking a Prince of the Royal House of England for a King—with one Legislature for all the Provinces—one tariff, one currency, one judiciary, but no titled aristocracy. "A Colonist" may be right in his surmise that the day is not far distant when separation from the Mother Country will take place,—she is now shaking us off as gently as she can; but he may rest assured that if we are released from the direct control of one of the greatest monarchies in Europe, the British people on this side of the Atlantic will adopt a new and different form of Government. Monarchy without an aristocracy would be a wretched farce—an aristocracy in British America we won't and cannot have,—we are too democratic in our feelings and ideas for that; but we may and will no doubt have before long a form of government that will be an improvement on the American system — which, notwithstanding the present civil war, is not essentially a failure, though "a Colonist" tries to shew that it is. As to one Legislature for the whole of British America, none of the public men in these Provinces — at least, no considerable number of them, will favour such an idea. As to uniformity in our tariffs, currency, postal regulations, and in all other matters in which one Colony is as much concerned as another—those are things which we should all pray for under any form of Government, and we hope the Convention at Quebec will hasten its advent. There is not the least reason to apprehend that Prince Edward Island will be a sufferer by the change. If we go into the Federation, we may be confident we do so with the conviction that Landlordism in Prince Edward Island will be speedily abolished; and most certainly will the undue influence of the Proprietors at the Colonial Office be knocked in the head

THE UNION DELEGATION.

The Delegation on the question of Colonial Union will re-assemble at Charlottetown on Wednesday next, and proceed thence to Quebec in the Canadian Steam Yacht *Queen Victoria*, where the deliberations of the Convention will be resumed about the 10th instant. The Nova Scotia and Newfoundland Delegates will be here on Wednesday morning, and they, in the Steam Yacht, will call for the New Brunswick Delegates at Shediac, and then steam up the St. Lawrence. The Delegation from this Island will consist of the following persons: — The Hon. Col. Gray, Hon. E. Palmer, Hon. W. H. Pope, Hon. George Coles, Hon. A. A. McDonald, Hon. T. Heath Haviland, Hon. Daniel Davies, Hon. Edward Whelan.

We shall take good care to make our readers thoroughly acquainted with the sayings and doings of the Convention, so far as we shall be enabled to take public notice of their acts. As one of the Delegates, the Editor of this paper will use his best exertions to advance the best interests of the Colony, and will keep his readers advised thereupon.

NEWFOUNDLAND.

The R. M. Steamer Merlin, Sampson, master, arrived at Halifax on Monday night last, from St. John's, N. F., with dates to the 20th inst.—The papers received contain but little of interest.

The Hon. Lawrence O'Brien, President of the Legislative Council, is administering the Government of Newfoundland.

We notice that H. M. Steamer "Media," Commander D'Arcy S. Preston, had arrived at St. John's, from Halifax, to take the place of H. M. Steamer "Vesuvius."

The "Commercial Journal" speaking of the Cod fishery says: "A few fine days since our last issue have enabled our merchants to despatch a number of vessels, and the fish has been shipped off as fast as it has been received from the Outports. Several Spanish vessels have arrived for cargoes since our last, but their arrival has not in any manner influenced the price of fish, and we continue our quotation of twenty-three shillings for merchantable."

The news from the Labrador is very conflicting but we trust a fair voyage has been secured there, though we cannot expect a catch to the extent we anticipated from previous reports.

From Bermuda.—H. M. S. "Galatea" arrived from Bermuda at ten o'clock last night, having on board 2 officers and 78 men of the Royal Artillery, 1 officer and 75 men of the Royal Engineers, and 1 officer and 50 men of the 2nd Queen's. Col. Hattie (sick) and lady came passengers. Dr. Gallagher and several of the crew died on the passage, and since the arrival of the Galatea in port many of her hands have been removed from the ship. The troops disembarked at the dockyard this morning, and marched to Point Pleasant where they are encamped.

Two officers of the Royal Artillery have died since last reports, viz: Lieuts Scott and Molsworth.

Lost Overboard.—On Monday morning, the 26th instant, Capt. Dominique Chaissong, of the schooner *Change*, was knocked overboard by the tiller, in consequence of the tiller-rope giving way, and lost, between Governor's Island and Point Prim, shortly after leaving this port for Souris Capt. Chaissong wore a *Guernsey* frock at the time of his death. His father wishes us to state that any person who may pick up the body and forward information to him at Rollo Bay, will be rewarded for their trouble of taking care of the remains.—*Weekly*.

We observe that the Steamboat Wharf is undergoing repairs, and a large block added thereto; the work is rapidly progressing under the superintendence of Mr. N. F. McKelvie, and will when completed be one of the most substantial wharves of the city.—*Ib*.

Public Benefactress.—Mrs. S. A. Allen has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequalled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp and arrests the fall; the hair if grey, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth. For ladies and children, whose hair requires frequent dressing, the Zylobalsamum, or World's Hair Dressing, has no equal. No lady's toilet is complete without it. Every Druggist has it for sale.

Alexandra Royal Arch Chapter, No 100, R. S.—On Friday evening last the above Chapter held their annual meeting, when the following officers were duly installed: J. S. Carvell, 1st Principal Z.: Adam Murray, 2nd do. H.; Neil Rankin, 3rd do. J.; N. F. McKelvie, Scribe E.; F. A. Flint, Scribe N.; John Bell, Treasurer; John Ross, 1st Sojourner; W. G. Shutherland, 2nd do.; Morin Lowden, 3rd do.; James Connell, Janitor.—*R. Weekly*.

We learn that the fever had raged badly among the shipping at Bermuda.—*Express*.

An Agricultural Society has been formed in Antigonish, and a constitution and code of bye-laws passed. A Board of officers have also been appointed. At the meeting, Mr. John Randall was appointed to proceed to P. E. Island to select Stock, and that the said Stock be sold at the Fair to be held by the Society, on the 13th of October next.—*Ib*.

Owing to the cool weather which prevails, late grain is ripening very slowly in Pictou. The potato rot has made its appearance in several localities and in some cases has made rapid progress. The later crop is unusually good, and of excellent quality, and would be a great pity that it would be so seriously injured.

Newfoundland intends sending two Delegates to Canada to be present at the Intercolonial Conference. Messrs. Carter and Ambrose Shea, have been selected. Mr. Shea arrived at Halifax in the *Merlin*, and Mr. Carter proceeds to Canada direct.

A Quebec paper says that private letters from different parts of the surrounding country, speak of serious damages done to the standing crops by the recent heavy rains. Should the weather continue wet, it is feared that more than half the grain crop, still unhoused, will be lost.

An Adventure with Bears.—The curiosity of many of the inhabitants of West River, East Point, was much gratified on the morning of Tuesday, the 1st ultimo, in having had the pleasure of examining two bears which were killed on the previous evening by Mr. James Robertson of said place. Mr. Robertson having been informed late in the afternoon that a sheep had been killed in the pasture lands of his neighbor, Mr. David Young, loaded his gun and hastened to the spot. He had not been there more than five minutes when a little boy who accompanied him pointed in the direction of a fence close by, and there sure enough was Bruin already arrived. The huge brute nimbly leaped over the fence and made towards the carcass of the sheep. Mr. Robertson took aim and fired, and down tumbled his bearship to rise no more. On going to examine the brute, they had scarcely time to remark, "What a monster we've killed!" when they heard a rustling amongst the leaves, and looked, and lo! what a sight; the woods seemed alive with bears running in every direction, and it appeared as if the whole tribe had assembled to have a feast of "fat things" at Mr. Young's expense. Two of them, however, ran up on trees, and perched amongst the branches, whence one of them was immediately dislodged by a second shot from Mr. Robertson's gun. He then loaded the third time, and was preparing to fire, when to their great amazement, they heard behind them another bear growling, and rushing furiously towards them through the bushes. Fearing it might be the other one, Mr. Robertson wheeled about and stood on the defensive, knowing that to meet a bear robbed of her whelps, on a dark night, and with a single gun, was not a position to be envied. He stood thus for a minute awaiting her *deboucher* from the thicket; but whilst waiting, the one on the tree slipped down and both immediately disappeared, much to the chagrin of Mr. Robertson, who regrets that any incident should have occurred to prevent his making a clean sweep of the lot. Much praise, however, is due him for courage and vigilance in thus watching over the interests of our neighborhood, as this is not the only instance of the kind in which he has been successful in destroying some of the marauders, thus saving a large amount of property in this district. The larger of the two measured about five and a half feet from the snout to the rump, and in his maw were found not only the farmer's mutton, but also a considerable portion of his peas and wheat.—*Com. to Pro*

St. Andrew's Church, Brackley Point Road.—On Saturday, the 25th instant, the Sabbath School here was examined in presence of the congregation; the scholars acquitted themselves in a manner reflecting the greatest credit, both on themselves and their teachers; a number of prizes was awarded to the most deserving. Too much praise cannot be given to Mr. John R. Thompson, student of Queen's College, for his disinterested labour in organizing and superintending this school during his vacation, and in various other ways promoting the welfare of the congregation. It is pleasing to see such examples of Christian zeal, and no less pleasing to see such appreciated. Before leaving for the season to prosecute his studies, Mr. Thompson was presented with a purse containing the handsome sum of £5, contributed by the scholars and members of the congregation.—*Com*.

Holloway's Pills are decidedly the best remedy for all disorders of the stomach and bowels, the liver and kidneys. They act with so decided an effect, and yet so gently, that people of the most delicate constitutions may take them with the most perfect confidence. They do not contain a single grain of mercury or other noxious substance, being composed exclusively of rare balsams. They are, therefore, equally safe and efficacious; and as a family medicine, nothing yet invented or discovered can be compared with them for a moment. With these inestimable Pills at hand, together with the printed directions affixed to each box, no other medical advice or assistance can be needed in any ordinary case of sickness.

Crinoline in Commotion.—The *Times* Paris correspondent says:—"An announcement in the fashionable journal *La Sport*, that the ladies in Vienna have definitely abandoned crinoline in consequence of its condemnation by the Empress of Austria, has been received with a universal shout of defiance. The *Pays* and *La Patre* could not in the wild paragraphs about English aristocracy exhibit more fury than do the journals at this presumption of a Teutonic autocrat. Paris, always considered as the seat of fashion, to be placed after a barbaric city in her despotic right to lead the *modes*, is intolerable. Hitherto the *modistes* of the Boulevards have always been consulted before any fashion could be recognized in a civilized land, nor will they suffer themselves to be dethroned from a government which they have hitherto held by universal consent.—The threatened rebellion against their power will be met with contempt and disgust.—It is only from Paris that a bonnet, a plume of feathers, can acquire a legitimate recognition. The overthrow of an empire is not to be treated lightly, and the Empress of Austria and the ladies of Vienna are placed without the ban of the world of fashion."

Abe Lincoln's Latest.—"Did you ever see a wild goose a floatin' on the ocean?" asked the President of the Secretary of the Treasury, in the words of the Old Zip Coon. "Well, answered the Secretary, "I guess I have." "Why, then," says Abe, "you ought to know what it's like; but if you don't, I'll tell you, between ourselves, mind, so don't you go tellin' nobody else. A wild goose a floatin' on the ocean is like the Union, and our trying to restore the Union is like swimmin' arter the goose—a wild goose, Chase. And, Chase, you know as well as I do that the end of a wild goose chase, is *gone goose*."

Coughs, Hoarseness, and the various Throat Affections to which public speakers, military officers, and singers are liable, relieved by *Brown's Bronchial Troches*. Having a *direct* influence to the affected parts, they allay pulmonary irritation. The freedom from all deleterious ingredients render *Brown's Bronchial Troches* a safe remedy for the most delicate female, or youngest child, and has caused them to be held in the highest esteem by clergymen, singers, and public speakers generally.

THE MIGHTY HEALER.

Let not disease, with its fangs, pray upon you, until the cold hand of death hurls you to an untimely grave. Shake of the feeling of despair and hopelessness, so liable to come upon the invalid. The plant born of the Sun, we place within the reach of all. We care not what may be the specific form of the disease. The cause, the fountain of the disease itself, is impure blood, and through the different channels of the lungs, the stomach and the vital organs, JUDSON'S MOUNTAIN HERB PILLS will pass, mingling with the blood, search out and grasp and then expel, all hurtful poison that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease, in any form, will dissipate and vanish. As the Sun, with its glorious beams, first causes the morning dew to rise as mist, then growing stronger, casts his burning rays upon it—and behold 'tis gone—so cleanse the blood, and disease, like morning dew, retreats and vanishes. There is no blood purifier equal to JUDSON'S MOUNTAIN HERB PILLS.

New York papers announce the death of Park Benjamin, in his fifty-fifth year. Mr. B. was born in Demerara, was a student at Harvard, and a graduate of Trinity College in Hartford. He was a lecturer and poet, and contributed many interesting things to the leading American periodicals.

Married,

At Georgetown, on the 24th ultimo, by Ezra Wickwire, Esq., J. P., Mr. Alexander McAuley to Miss Ann McDonald, both of Lot 54.

On the 15th ultimo, at the residence of the bride's father, by the Rev. D. B. Parnther, Mr. D. J. Richardson, to Miss Eliza A. Binns, eldest daughter of J. C. Binns, Esq.

Died,

At the Parsonage, Buckingham, C. E., on the 8th ultimo, the Rev. William Morris, aged 64 years. Mr. Morris was born in the town of Newtonbarry, County of Wexford, Ireland, and emigrated to Canada while quite a young man, he settled in the city of Quebec, where, for many years, he acted in the capacity of teacher in the "British and Canadian School." To the important office of Superintendent of Schools in Lower Canada he was soon afterwards appointed, and with the sanction of the Legislature he published several elementary school books, which supplied a desideratum then greatly felt. Mr Morris subsequently turned his attention to the work of the holy ministry, and received ordination at the hands of the late Bishop Mountain, of Quebec, about 30 years ago. Since then, up to the time of his death, he laboured faithfully and zealously as an ambassador of Jesus in various corners of God's great vineyard. For a period of 12 years he ministered to an attached flock in Buckingham. There are few men indeed on whose character a constraining sense of duty leaves a deeper impress than that which was daily exhibited in his walk and conversation. He was at all times "willing to spend and be spent" in his Master's service. Indeed, it was while he was engaged as the herald of peace at a distant station, that he received the first premonitions that his warfare was soon to cease. Having returned home, he meekly bowed to his Father's chastening rod. For a season he was subjected to bodily sufferings, as a necessary discipline for Heaven, but these he was enabled to regard as not worthy to be compared with the glory about to be revealed to him. His hour having at last come, this devoted servant of Christ passed away peacefully into the "rest which remains for the people of God." By his death the parish has lost a friend and a faithful guide. The poor has lost a kind and benevolent father—one whose hand was ever ready to relieve and succor the needy and distressed. The deceased was a man thoroughly educated. His preaching was marked by simple earnestness, and that "charity which is the bond of perfectness." His life was a beautiful example of that religion to which he was devoted. Over his remains let the Scripture epitaph be engraven, "Blessed are the dead who die in the Lord." To this brief tribute to the memory of our departed brother, no words more appropriate can be added than the following, selected from one of the prayers of the Liturgy to which he was so strongly attached:—"We bless thy holy name, O Lord, for all thy servants departed this life in thy faith and fear, beseeching Thee to give us grace to follow their good examples that with them we may be made partakers of thy Heavenly Kingdom." — Com. to the Canadian Churchman.

[The deceased gentleman was brother to John Morris, Esq., High Sheriff of Queen's County.—Ed. Isl.]

In Charlottetown, on the 1st September, of typhus fever, Bridget, second daughter of Mr. Thomas Wynne, Lot 65, aged 23 years. At Lot 65, on the 29th, of typhus fever, Mr. Thomas Wynne, aged 56 years, leaving a disconsolate wife and six children to mourn the loss of an affectionate husband and loving father. May they rest in peace.

At Big Bush, Lot 44, on Wednesday, the 17th ultimo, after a lingering illness, which she bore with patient resignation to the Divine Will, Ann, the eldest daughter of the late John McEachern. PRINCE OF WALES COLLEGE
AND
GRAMMAR SCHOOL.

THE Trustees have resolved, in the meantime, to dispense with the Entrance Examinations; and have, accordingly, authorised the formation of classes in the College for beginning the higher branches.

In order more thoroughly to promote the general efficiency of the Institution, especially in regard to the common branches, it has been arranged that the advanced pupils in the Grammar School shall have the privilege of interchanging with the College department, without any additional charge,—the fee being, as formerly, £3 per annum.

It has further been resolved to reduce the College fee to £6 per annum, for one of a family, to £5 for the second, and £4 for the third, (students from the Country being admissable at half those rates). Also to admit students as formerly without restriction as to time.

A CARD.

THE Subscriber having, for the last four months, been engaged in making large and important additions to his Factory, the CITY TANNERY, and which are now on the eve of completion, he deems the occasion to be one on which it most certainly behoves him to make some manifestation of the very grateful estimation in which he holds the liberal patronage which, for a period of six years — the time which has elapsed since he established his Factory—has been extended to him by his numerous friends in Town and Country; and which has not only incited him to the extension and improvement of his premises for manufacturing purposes, but also enabled him to meet the very heavy outlay thereby incurred.

To those friends, therefore, he now begs leave to tender his sincere and grateful acknowledgments for the very large amount of patronage for which he is already indebted to them; not doubting that his future endeavours, on a more extended scale, to supply them, on the most reasonable terms, with the very best articles in his line, will, on their part, be met by a corresponding appreciation and encouragement of his enterprise.

The additions which he has made to his Factory, and the improvements which he has effected therein, are such as will enable him in future to manufacture about

Eight Thousand Sides of
SOLE LEATHER,

a year, besides his former usual quantity of UPPER LEATHER; and having, besides, succeeded in obtaining the services of an experienced
