On Wednesday, Febuary 8th

Admission 20c and 10c.
Ticket holders in costume free.

THE DAILY EXAMINER

FEBRUARY 3. 1899.

YESTERDAY'S ELECTIONS.

We congratulate Mr. DesRoches on his victory and Mr. McQuarrie on the splendid fight he has made in the face of many difficulties. Mr. McQuarrie will be more successful at the next oppotunity. His opponent, Mr. Reid, had the advantage of being identified with the Tryon Cloth Factory and the Tryon Dairying Company, —both important interests in the district. All the same he is the representative of a party that has been false and disappointing to the electorate, a party that is falling and that ought to fall.

Some electors in the country indulge the hope that Mr. Farquharson's administration of affairs will be better than that of his predecessors, and that it may be advisable at the present juncture to side with those who are in power at Ottawa. We have no doubt that, if it were not for this hope, the Government would, with all their advantages, have suffered a signal defeat in the bye-elections. In the interests of the Province we shall be glad if this hope is realized. But the Liberal party in this Province has sown to the wind. It has been false to its promises and outrageous in its acts. We cannot expect that the mere fact of a change of leadership will result in a complete change of the party's course of action. Having sown to the wind, it must reap the whirlwind. The electors will again—unless a miracle be performed—suffer disappointment; and Mr. McQuarrie will have his opportunity at the general election. However this may be, we hope that the men now in the Legislature will stay there until the end of the term, and not go office-hunting or take advantage of the first good opportunity that presents itself to desert the duty to which they have been elected by the people.

Towards the close of the contest the Government papers and speakers made a strong point of the fact that the Opposition has not issued a platform setting forth the future policy of the party. It is possible that many electors, who did not take time to consider that the Government is also without a policy, were caught by this cry. Mr. Farquharson has been in office for several months. He ought to have taken the people into his confidence long ere this. There is an excuse for the Opposition in the well-grounded fear that if they publish their policy it will be stolen by their unscrupulous opponents. But there is no excuse for the Government. They hold the fort; and their policy cannot be appropriated. The fact that Mr. Farquharson has not set forth a policy, is a sufficient proof that he has no policy, but is merely proceeding by the rule of thumb and waiting for something to turn up. Under these circumstances, it is more than probable that the political condition and financial position of this Province will be worse before they are better.

—A $2.400.00 contract has been let at Miminigash to Mr. Alexander McDonald of Glengarry. It will be interesting to know if all the parties to whom work was promised prior to the elections will be employed.

AGRICULTURAL EDUCATION.

A correspondent of the Halifax Chronicle proposes an Agricultural School for the Maritime Provinces. He says:

"In order that we have a school worthy of the name, organized and equipped as well as the best in the Dominion, would it not be better for Nova Scotia, New Brunswick and Prince Edward Island to unite. If this can be done then we will have the strength and support of the three provinces to guarantee the success and permanence of the undertaking. Then we will have a first class, up-to-date agricultural school and model farm that the people of the Maritime Provinces can point to with pride.

"The question of locality is not germain to the discussion at this stage. First, let the provinces agree as to the necessity for such an institution, and determine on giving it united support. When this is done and a full commital of all interested is made beyond withdrawal, then the question of locality can be considered, and failing to agree a provision in the scheme can be made, whereby disinterested persons can be chosen to make the selection. Here is something for our local Government to consider."

This proposition looks well. It would suit Prince Edward Island—if only the school and farm were here. But we apprehend that it is not practicable from the fact that our soil is unlike that of Nova Scotia and New Brunswick and that the Strait would have to be crossed either by the farmers of Nova Scotia and New Brunswick or by those of Prince Edward Island before any lessons could be learned. Our farmers do not personally take advantage of the Experimental Farm at Nappan (1) because they will not go there, and (2) because it is not certain that the results of experiments conducted there can betrelied upon by farmers here. For these reasons we need an Agricultural School and Experimental Farm of our own. An Agricultural School and Model Farm for the Maritime Provinces would not suit us unless located here.

LLOYD'S REPORT.

According to the returns compiled by Lloyd's Register of Shipping, it appears that, excluding warships, there were 584 vessels of 1,401,087 tons gross under construction in the United Kingdom at the close of the quarter ended 31st December 1898. This immense volume of new shipping is without precedent in the history of the ship building industry

Of the vessels under construction in the United Kingdom at the end of December, 504, of 1,066,998 tons, were under the supervision of the Surveyors of Lloyd's Register with a view to classification by that society. In addition, 40 vessels of 119,010 tons were building abroad with a view to classification. The total building at the present time under the supervision of Lloyd's Register, is, thus, 544 vessels of 1,186,008.

—A western Prince correspondent writes that "the mails were never so exasperatingly irregular. It is either a feast or a famine, a cart-load of matter or nothing. One is tempted awfully to swear. If Mulock would only give a little of the attention he is giving to stamp fads (for honors later) to our desperate case, surely something would be done." The Examiner has protested promptly, but the Liberal Party is running the show and we must only remember this, as well as all the rest, when the moment of reparation arrives.
