

THE WORLD'S BEST SELLING FARM TRACTORS AND EQUIPMENT!

MASSEY-FERGUSON

35 DIESEL

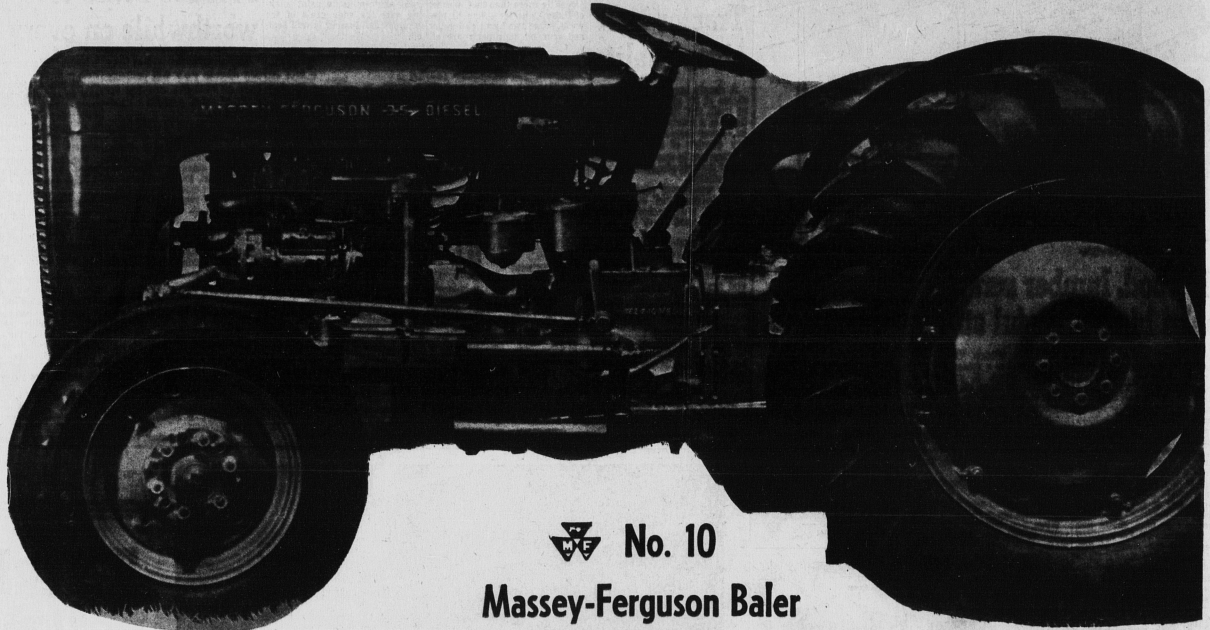

Now you can have the world's best selling tractor with Massey-Ferguson's own diesel engine. It's a real hustler that will do more work on a gallon of fuel than any other 3-plov tractor you've used. Official tests prove that it has 12% more power than before... and it will turn three furrows on 1 1/2 gallons of fuel per hour. It has outstanding economy on light loads as well as those where it proves amazing lug-gins ability. This is a quality tractor, with features carefully engineered for long life and the kind of dependable, year-in, year-out work that cuts your cost of farming.

35 MASSEY-FERGUSON

DELUXE

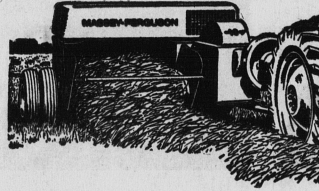

GASOLINE

What has made the MF 35 the world's best seller? Farmers everywhere like the way the Ferguson transfers weight from implement to rear wheels automatically when you need more traction. They know this ingenious system leads the field in precise, fingertip control of implements. The dependable gasoline engine delivers full 3-plov power at low cost.

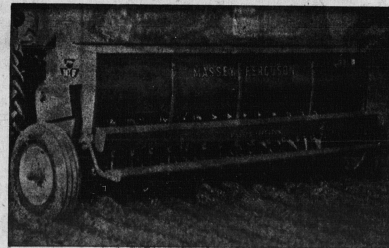

No. 10

Massey-Ferguson Baler

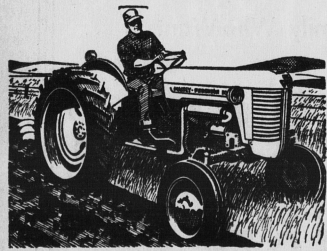

This is the big-capacity baler that ends the messy, time-wasting daily greasing chore. Cuts you man-power needs in half with the new MF 21 bale thrower. Handles 10 to 12 tons of hay an hour, and handles it right. Keeps leaf chattering at the minimum for higher protein hay. Folks who know their balers say the MF 10 is best of all. Your Massey-Ferguson Dealer will be glad to show you why... **\$1995**

MF 33 GRAIN and FERTILIZER DRILL

MF 33 "add-on" design features mean flexibility plus. Give you a choice of tandem or single axle, single or double beaters and extension sides, and allow you to increase your machine capacity as your needs increase. If you get the 110 bushel machine now you could move up to your choice of larger models next year without buying a completely new spreader. Both the 125 and 140 bushel machines are built up from the basic 110 bushel model.

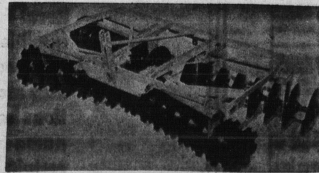

MASSEY-FERGUSON No. 50 TRACTOR

...THERE'S AN MF 50 THAT'S RIGHT FOR YOU!

You'll be ahead if you choose an MF 50, whatever the front wheel style you prefer. You'll get rugged 3-plov power... plus the world-famous Ferguson System of precise draft and implement control. Come in today. Ask about our liberal time payment plans. Look, compare... you'll be a Massey-Ferguson man!

NEW MF 39 TANDEM DISC. HARROW
SIZED RIGHT... BUILT RIGHT
PRICED RIGHT

This new, fully mounted tandem disc harrow is designed for the small and medium sized farm. Fast and easy to transport, it is ideal for plots with short headlands or for backing into corners and other restricted places. Independent control of front and rear gang angles makes it possible to prepare a level seedbed in loose or hard ground and compensate for variations in tractor speed. Adjustment—by means of spring loaded pins—is both easy and positive.

MASSEY-FERGUSON DYNA-BALANCE MOWER

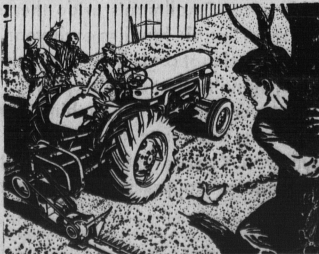

FULLY MOUNTED IN 1 MINUTE

No more time-wasting, back-breaking labor in hooking up No. 31, not with the new MF 31. It's on and off so fast, you'll hardly believe it possible, and without even using a wrench.

Adjusts to 3 Tractor Tread Widths—in seconds, you can adjust the new MF 31 to match any tread width on your tractor... and the mower's inner shoe will be running right down the line where you want it for a full cut.

No more "Happy Medium" Knife Speeds—You can choose the knife speed you want to suit your crop by simply adjusting the Variable Speed Pulley.

Improved Dyna-Balance Drive for Smoother, Faster Mowing—This is the pitmanless drive that minimizes wear-causing vibrations. Cuts way down on clogging while it lets you mow faster and better than ever before.

MF 18 P.T.O. MANURE SPREADER

You can cover more acres in every working day with the new Massey-Ferguson 38 Grain and Fertilizer and Plain Grain Drills. And they seed and fertilize precisely for fast, full stand germination. Grain and fertilizer capacities are balanced to meet today's heavy fertilization rates. With average rates of application, both boxes will empty at the same time. By eliminating the need for greasing, the self-lubricating disc bearings save time and boost the acreage seeded each day.
