NOTES AND COMMENTS.

The appointment of Walter Kinsman to the police force is, by all accounts, a good one.

The value of a word in season is shown in the case of the lamp at Southport.

Last year, when an election was pending, there was no difficulty in having the Southport ferry boat run late and early.

A matter which may well employ the united talents of the City Council is the construction of a shore roadway to Victoria Park.

CIVIC RULERS IN COUNCIL.

The Qualification Matter up Again—Walter Kinsman Appointed Policeman.

There was a full attendance of members at the regular meeting of the City Council last evening, and the auditorium was filled with spectators.

A bill of \$15 from H. J. Palmer for services as counsel in the matter of the Scott Act proceeding against the steward of the Charlestown Club, gave rise to some argument.

Councillor Douze moved that the bill be not paid. The motion was seconded by Councillor Taylor, but was defeated on a vote of three to five.

A bill of \$12 from Joseph Taylor for services rendered was referred to the Street Committee to report upon.

A bill of \$35.24 from M. & D. C. Macleod for counsel fees in the Johnson case, was presented to the Council with power to settle if he deems advisable.

A letter was read from P. P. Gillis explaining that at the request of a number of citizens he had decided to open a reading room in order that persons living in the neighborhood who may desire to protest against it may be given an opportunity of doing so.

Jerome Flynn, bill-poster, asked for consideration for pulling down hand-bills which the authorities declared to be immoral, he having done the work by order of the city.

A letter was read from John Bolger, complaining of that standing nuisance in the vicinity of his premises, but no action was taken thereon in view of a report from Councillor Hughes to the effect that it was impossible to keep the cellars in that vicinity free from water, and action in the matter of Bolger's claim was therefore impracticable.

Applications for the position on the police force made vacant by the resignation of John Vance, were read from Alexander McDougall, Robert White, John McInnis, W. H. Irving, James Neal, William Hearty, Walter Kinsman and John Harris.

Councillor Tanton moved that William Hearty be appointed policeman at a salary of \$400 per year. Councillor Taylor seconded the motion.

Councillor Hughes moved in amendment that W. H. Irving be appointed. Councillor Fennel seconded the motion. Lost on division.

Councillor Hazard moved that the name of Walter Kinsman be inserted in lieu of that of William Hearty. The motion was seconded by Councillor McCarron.

Councillor Fennel moved that James Neal be appointed. Seconded by Councillor Hooper.

The motion that Neal be appointed was defeated, and Walter Kinsman was appointed, the division on the motion being as follows:

Ayes—Hazard, McCarron, Fennel and Hooper.

Nays—Taylor, Tanton, Hooper, Douze. The Mayor gave his casting vote in favor of Kinsman.

Councillor Douze gave notice of motion for reconsideration of this vote at next meeting of Council.

On motion of Councillor Taylor seconded by Councillor McCarron, the Public Property Committee was instructed to have Quirk's pump put in order at once.

Councillor Tanton then brought up the matter of the qualification of Councillors Hazard and Fennel, and moved the following resolution, which was seconded by Councillor Douze:

Resolved, That a written protest has been served upon the Mayor and Council, alleging for reasons therein set forth that Councillors Hazard and Fennel are not legally entitled to occupy seats at this Council Board.

Resolved, That the question of the qualification or disqualification of these Councillors be submitted to the courts for the purpose of securing a correct judicial decision thereon, and that the Recorder, or other counsel, under instructions from the Mayor, do institute such proceedings without further delay.

Mayor Dawson then submitted the Recorder's written opinion on the matter, in the course of which it was pointed out that resort to the courts was the only means of investigating and determining the question of the qualification or disqualification of Councillors on grounds such as those preferred. His Honor also stated in writing that for the reasons previously set forth in his letter addressed to Councillors Hazard and Hughes (which has already appeared in THE EXAMINER) he was of opinion that the meeting of Council of August 31st was illegally called, and the acts and votes thereof were of no binding or legal force.

Councillor Hughes moved in amendment, seconded by Councillor McCarron, that Councillor Tanton have leave to withdraw his motion.

The amendment was carried on division, only Councillors Tanton, Taylor and Douze appearing against it.

Councillor Hooper reported in the matter of the application of Edward Flynn, who asked for a reduction of rent. The report showed that Flynn was willing to make necessary repairs to the building, provided his rent was reduced \$25 per annum for the balance of his term.

Moved by Councillor Hughes seconded by Councillor McCarron: That the Public Property Committee be authorized to cancel Flynn's lease, and renew the same to him at \$75 per year, provided he keeps the building in repair. Carried.

The Mayor informed the board that he had been spoken to by the Recorder regarding the engaging of counsel in the Hughes and Thorne certiorari cases, and he had consented to the employment of Mr. Davies, Q. C. to defend the city. Council adjourned sine die.

As a result of the discriminating book duties, condemned by the Guardian, several Canadian publishers have been enabled to issue cheap editions of popular works. Among these are, of course, I over of Montreal. We have to-day No. 143 of Lowell's Star Series of choice fiction. It is one of Jules Verne's wonderful tales, entitled "Clandestine Bonbarre." We need not add that in point of printing, paper and binding it is fully up to the standard of the cheap books published in England and the States. Of course the boys will all read it, and with none the less avidity because published by a Canadian who uses Canadian stock and employs Canadian workmen.

Henry Clewes, the Wall Street broker, entertains very much the same opinion concerning the causes and results of the recent elections in the States as THE EXAMINER. He says:

In a word, the chief significance of the political revolution here is that while the advent of the Democracy to power suggested a long series of political changes in matters affecting the nature of the laws and the regulation of our trade and finance, yet the truth is that, whatever may have been urged in favor of such a policy, the people do not take kindly to the prospect of so much change and uncertainty, and are more concerned with the present than the future; they want the shortest cut to a renewal of prosperity; they prefer putting up with some things of which they may not theoretically approve to so much reconstructing as the party now in power propose; and they therefore say to the late discarded party, "take the reins again, we have given you a few lessons; and if you will take them to heart, we are prepared to trust to your future control rather than throw everything into confusion by too much experimenting." This, we take it, is about the meaning of the business man's vote. The motive will commend itself to the sound common sense of the country; and, when supported by such an immense majority of the people, it becomes a very powerful contribution to future stability and confidence.
